Designed to enhance comfort and wearability through 3M™ Science of Fit™ technology

Get a **secure fit**  
with a new level of  
**comfort**

### 3M™ SecureFit™ Protective Eyewear

The **game-changer** in comfort and security of fit

3M understands how challenging it is to source and securely fit a diverse workforce with protective eyewear. That's why we embarked on a comprehensive study, researching the differences in face shapes and sizes throughout the entire world. Through advancements in digital modeling, we identified approximately 600 different touch points on the human face, a finding that was key to designing this innovative safety eyewear. But the progress doesn't stop there.

3M™ SecureFit™ Protective Eyewear features proprietary self-adjusting 3M™ Pressure Diffusion Temple Technology – a scientific advancement that helps diffuse pressure over the ear, enhancing frame comfort while at the same time ensuring a secure fit across diverse workforces.

The power to protect your world.™

# 3M™ SecureFit™ Protective Eyewear

Designed to enhance comfort and wearability through 3M™ Science of Fit™ technology

The experience of putting on 3M™ SecureFit™ Protective Eyewear is game-changing. Our patent-pending 3M™ Pressure Diffusion Temple Technology means there are no moving parts and nothing to adjust, while the versatile design is suited for a wide variety of faces. As soon as you put on these lightweight glasses you'll feel the difference as they automatically self-adjust to provide a secure, comfortable fit each time.

- Contemporary design weighs less than 1 ounce for lightweight comfort
- Available in anti-fog or anti-scratch lens coatings
- Polycarbonate lens absorbs 99.9% UVA & UVB
- Meets the requirements of CSA Z94.3 and ANSI Z87.1-2010
- Available in: Clear, Amber and Gray

Clear

Amber

Gray

With protection and comfort at an affordable price, 3M™ SecureFit™ Protective Eyewear is the stylishly confident fit.
