

PET ZONE w/ HYDROCID

BRIDGEPOINT

SYSTEMS

Odor & Stain
Eliminator

PetZONE with Hydrocide combines the cleaning and deodorizing power of natural oxygen with the odor bonding and encapsulating power of Hydrocide to give the professional cleaner an entirely new way to neutralize odors caused by urine contamination, without leaving strong and potentially offensive fragrances behind. In addition, the natural oxygen will effectively eliminate stains caused by the urine contamination. This revolutionary formula also includes special additives to enhance solution penetration and improve rinsing and removal. It also contains anti-re-soiling properties that keep the treated area from attracting residue.

- Combines the cleaning and deodorizing power of natural oxygen with the odor bonding & encapsulating power of Hydrocide
- Uses oxygen bleach to help clean & remove stains of typical products
- Hydrocide is combined with great rinse agent to neutralize odor and to help rinsing process.
- No strong or potentially offensive strong fragrances left behind
- 4 quarts of 160° F hot water result in 10 quarts of active foam in about 2 minutes.
- Special penetrating surfactant helps formula penetrate fiber for optimum cleaning and stain removal.
- Does not cause rapid re-soiling like competitive products – contains anti-re-soiling properties to keep the treated area from attracting residue.
- Customer sees a strong solution reaction right before their eyes!

RTU pH: 10

Dilution Ratios: 6oz./gallon of hot water

BRIDGEPOINT

SYSTEMS

1. This product is safe and effective on all synthetic carpets. Not recommended for wool carpet. Do not use on silk.
2. Always test in an inconspicuous area for colorfastness.
3. Add 3 scoops (6 oz. total) of powder per gallon of water into the hottest water possible (over 160 degrees Fahrenheit) into bucket. Stir product for 30 to 60 seconds. Product should be mixed at the location it will be used. Mix one gallon in 2.5 gallon bucket. The foam will rise to the top in about two minutes.
4. Consider pulling back contaminated carpet and disposal of cushion. If needed, seal the subfloor with pigmented shellac.
5. Saturate carpet with mixed Pet Zone solution.
6. Allow 30 minutes dwell time.
7. Extract solution from carpet preferably using Spot Lifter or Water Claw.
8. Check carpet for odor and repeat steps 5-7 if needed.
9. Install new cushion if necessary
10. Always dispose of any unused mixed solution as effectiveness deteriorates rapidly.
11. Apply BRIDGEPOINT STAINZONE if any stain remains after above procedure.

Available in 6.5 lb. Jars and 4 x 1 Jar cases

Part # CD19A
