### Usage Guidelines

Suitable for use on all hard, non-porous surfaces where microorganisms or odors are a concern. Heavily soiled surfaces require a pre-cleaning.

#### To Disinfect:

Thoroughly wet the surface with the product. Can be applied by cloth, sponge, brush, or sprayer. (Spot test to check compatibility with the surface). All hard surfaces must be wet thoroughly, and remain wet for at least 10 minutes and allowed to air dry. On food contact surfaces, a rinse with potable water is required.

For lasting protection against mold and mildew growth, follow with an application of Concrobium Mold Control.

#### To Clean & Deodorize:

Apply the product to the soiled surface and wipe clean. To remove heavy soil, allow product to stand for a few minutes.
