

APR Adapter

[Protection Solutions]

For most fire fighting applications, the self-contained breathing apparatus (SCBA) is the most important weapon in the firefighter's arsenal. But when the smoke clears and you simply need protection against toxic dusts, mists, fumes and gases, an air-purifying respirator (APR) is often your best solution.

Working Overtime

To help provide comfortable, long-term protection against airborne contaminants while alleviating the inconvenience of changing facepieces, MSA has created the APR Adapter. Whether you're responding to a threat of domestic terrorism or tackling an overhaul project, MSA's APR Adapter can help you intercept airborne contaminants. As an option for your MSA SCBA, the APR Adapter can be used with the full range of MSA Advantage® respirator cartridges or the CBA/RCA Gas Mask Canister.

The First Line of Defense

In addition to overhaul projects, the APR Adapter also is ideal for defense preparedness. As a firefighter, you are on the front lines when responding to threats, including domestic terrorism. Although you wear your SCBA for all initial responses, you often require longer-term protection than your air cylinder provides. After determining the identity and concentration of the airborne contaminants at the emergency scene, the versatility of your MSA system allows you to select the appropriate level of respiratory protection, SCBA or Air-Purifying Respirator.

Versatility

The APR Adapter also offers exceptional versatility for industrial use. The flexibility of the APR Adapter reduces the need for industrial workers to participate in additional fit testing and duplication of equipment. The APR Adapter is useful for a variety of applications where workers' exposure may vary during the course of a day.

Approvals

The APR Adapter is NIOSH approved for use with MSA Advantage® Respirator Cartridges and CBA/RCA gas mask canisters.

Individual Kit consisting of:

- APR Adapter
- Facepiece Baffle
- Bayonet Cover
- CBA/RCA Gas Mask Canister

Truck Kit consisting of:

- Four APR Adapters
- Four Facepiece Baffles
- Four Bayonet Covers
- Four CBA/RCA Gas Mask Canisters
- Hard Plastic Carrying Case
