

GaffGun™

Saving over 90% of the time to lay tape over cables or rope, the GaffGun simplifies your job while saving time, money, and your back.

Cables don't even have to be straight—the GaffGun uses a funneling system to straighten and center your cables and then lay tape over them. Every detail was designed to make your most difficult jobs a little easier. As fast as you can walk, tape is applied to the floor.

Product Features & Benefits

- ▶ **Eliminates trip hazards**
- ▶ **Locking-core tape stays centered and ensures consistently straight lines**
- ▶ **Eliminates wear-and-tear on the knees and back**
- ▶ **Can be used with audio cables, extension cords, rope, etc.**

GaffGun GT Duct Tape

GT Duct™ is a premium duct tape, great for all-utility purposes. It can be used for taping down cables, marking floors, taping down athletic mats, and anywhere else a utility tape product is needed. With a high tack and low residue, this tape provides a great lower-cost solution to taping cables.

GaffGun GT Pro Tape

GT Pro is a premium gaffer's tape for professional uses. It is a very low sheen, coated cloth tape. Available in a variety of colors, it is well-suited for any other application where cables are being secured to a floor.
