

# Products for Comfort and Performance In Abatement and Mold Remediation\*

Restoration and industrial hygiene professionals can find products for their respiratory protection needs with 3M.

For small areas of mold, use 3M™ Particulate Respirator 9211, N95 flatfold or 3M™ Particulate Respirator 8577, P95, with nuisance level organic vapor relief.

For up to 100 square feet, use the 3M™ Half Facepiece Respirator 7500 Series, which comes with 3M's unique Cool Flow™ Exhalation Valve to help make breathing easier and reduce heat and moisture buildup in the facepiece.

For larger areas, the 3M™ Mold Remediation Kit includes everything you need for respiratory protection: a lightweight, durable 3M™ Full Facepiece Respirator 6000 Series, two pair of 2097 Filters, and an educational mold remediation brochure.

**For more information** on these and other innovative 3M products in the U.S., call Technical Assistance at 1-800-243-4630, the Customer Care Center at 1-800-328-1667, or visit [3M.com/OccSafety](http://3M.com/OccSafety).

All 3M™ Filters and Cartridges are interchangeable.
