

# DRITEC<sup>®</sup> 4000i DESICCANT DEHUMIDIFIER

## SMARTEST, SIMPLEST, AND BEST PERFORMING COMPACT DESICCANT

PROUDLY   
BUILT IN USA

### » Smart controls simplify desiccant drying

- Optimized performance
- Temperature and humidity display
- Humidistat and RH minimum setpoint to **prevent overdrying**
- Pints-per-day display

### » 33% smaller than closest competitor

### » The most versatile desiccant on the market

- Run on a single 120v circuit for basic operation or use 2 cords to optimize performance
- Highly portable – operate on its back for low-clearance areas (**great for crawlspaces!**)
- Includes onboard storage for accessories

### » Famous Dri-Eaz durability

- Sturdy – Designed for everyday restoration use and abuse!
- PTC heaters deliver better efficiency, safety and longer life
- Best warranty in the industry

### » Great for dense materials, hardwood floors and cooler environments

PROGRAMMABLE HUMIDISTAT

ONBOARD STORAGE

## The simple tool for difficult drying.

### ACCESSORIES INCLUDED:

- Reactivation Out duct ring
- Reactivation Out heat-resistant ducting, 6" diameter, 20 ft. length
- Air inlet duct ring
- Process air outlet adaptor assembly (optional: F536 – 16" layflat ducting)

### SPECIFICATIONS:

MODEL	F533
PROCESS AIR	395 CFM
TESTED REACTIVATION AIR	65 cfm
WATER REMOVAL (AT 80°F/60% RH)	118 pints per day
DIMENSIONS (W x H x D)	21.14 x 33.13 x 20.25 in. (Handle upright = 42.250 in.)
WEIGHT	95 lbs.   43.1 Kg
CONSTRUCTION	Powder-coated steel
POWER	120V / 60 HZ
AMPS (AT 80°F/60% RH)	Circuit 1: 11.0; Circuit 2: 10.0
BEST IN INDUSTRY LIMITED WARRANTY	7 years for the body 2 years on the rotor 1 year parts & labor
XACTIMATE CODE	WTRDHMD
