

## Dragon® 3600 Mobile Furnace

The highest quality heater on the market

As the only mobile heater designed and built for restoration, the Dragon delivers the performance you need to tackle drying jobs even in the most difficult conditions. We build the Dragon in our U.S. plant using only premium components, including a top-of-the-line Becket burner, a TIG-welded corrosion-resistant aluminum tank and sturdy no-flat wheels. With 120,000 BTUs of heat and true 700 CFM airflow, the diesel-fired Dragon can produce up to 120°F (49°C) of temperature rise to make cold weather drying fast, efficient and profitable!

Item #F535-115V  
\$3,600 Suggested List U.S. Funds

### Product Features

- Over 3x the runtime (36 hours of operation without refueling)
- Designed for restoration mobile use in any weather condition
- Top-of-the-line Becket burner – service readily available from heating contractors everywhere
- TIG-welded corrosion-resistant aluminum tank
- Ball bearing wheels and semi-pneumatic tires keep rolling in cold weather
- Intelligent sensor technology for safe operation

### Product Specifications

Power	7.5 amps, 115 volt, 60 Hz
Dimensions (W × H × D)	65 × 43 × 24 in.   1.9 × 1.4 × 3.0 m
Weight (empty)	250 lbs.   113 kg
Weight (fully fueled)	495 lbs.   225 kg
Heat output	120,000 BTU/hr   29.3 kWh
Temp rise	+145°F with weather shield +120°F without weather shield
Airflow	680 CFM with weather shield 780 CFM without weather shield
Fuel capacity	32 gal.   208 liter (max.)
Fuel type	Diesel
Fuel consumption	.85 gal.   3.1 liter /hr
Fuel pump pressure	140 psi   966 kPa
Safety	CSA listed
