

# ENZYME CARPET PRESPRAY

## TEXTILES

### ENZYME CARPET PRESPRAY

Enzyme Carpet Prespray is a complete preconditioning formula for carpets and upholstery. Grease and oils dissolve in minutes while protein soils are digested and readied for complete extraction. It is excellent in restaurants and on problem soils found in homes and apartments.

- ✓ POWER OF CITRUS
- ✓ SAFER TO USE
- ✓ FAST STRIKING ACTION
- ✓ ECONOMICAL

- **Contains a delimonene cleaning boost along with the pleasant orange fragrance.**
- **The combination of delimonene, non-ionic surfactant, alkaline builders and protease enzymes break down filthy built up oil and grease in carpets**
- **Fast striking action goes to work immediately**
- **Contains no butyls or harsh solvents**
- **Economical - less than 60¢ a gallon in ready to use formula.**
- **New formula dissolves faster than other powders.**

Part Number: PURC046A / 1656-2047

9.5 - 10.5 RTU pH

Dilution Ratio: 1-2 oz./gal.

Contents: 6.5 lb. Jar (2.95 Kilograms)

Available in 6.5 lb Jars and 4 x 1 Jar cases

### DIRECTIONS

Optimum results are achieved with hot water in the range of 140° F.

Make up only enough ready-to-use solution to use the same day.

After 24 hours, the solution may be used but with reduced enzyme action.

For extremely heavily soiled carpet, mix 3 ounces (1 1/2 full scoops) in 1 gallon of hot water.

For moderately soiled carpets mix 2 oz. to 1 gallon of water.

Pre-spray the carpet with solution, brush in with a carpet pile rake and allow it to work for 5-10 minutes before cleaning.

Use only on wet cleanable synthetic upholstery. Mix 1 to 2 ounces of Enzyme Carpet Prespray in 1 gallon of hot water. Spray lightly over soiled areas. Allow to dwell for 5 minutes. Proceed with proper cleaning procedure.
