

# Earplug Dispensers

## Cost-Effective Solution

A safety officer needs to protect workers from loud noise and keep costs down. Investment in a Howard Leight® earplug dispenser not only provides workers with a central hearing protection source, but can save some companies up to 10% per year in hearing protection purchases.

## Highly Accessible

Howard Leight® earplug dispensers offer a highly accessible source for hearing protection. With table-top and wall mount configurations, Howard Leight earplug dispensers provide a reliable, user-friendly source for earplugs. Place by the shop door or in the lunchroom, and workers can access a new pair of earplugs as they enter the workspace. Plus, Howard Leight earplug dispensers clearly display fitting instructions for roll-down and no-roll foam earplugs to demonstrate proper insertion.

# Earplug Dispensers Save Time, Waste

LS-500

## LS-500 Leight® Source Dispenser

### Permanent Hearing Protection Source

- Heavy-duty anodized aluminum construction withstands constant use
- Mount on wall for easy access
- Crank handle to dispense earplugs
- Ideal for large factories and process industries that have zero tolerance for packaging waste
