

V-Gard® Helmets with a Choice

Five suspensions available:
one to fit every need

V-Gard® Protective Caps and Hats

V-Gard Protective Caps and Hats from MSA consist of a polyethylene shell and your choice of suspension system, working together as a protective system. V-Gard headwear features advanced styling in cap and hat styles, with the cap available in three sizes: small (6 – 7½), standard (6½ – 8) and large (7 – 8½).

V-Gard Caps and Hats meet or exceed the applicable requirements for a Type I helmet (top impact) as outlined in ANSI Z89.1-2003, Class E, and also are certified to in CSA 294.1-2005 (Class E) with 1-Touch and Fas-Trac suspensions.

V-Gard Caps and Hats are not specifically designed to protect against lateral blows from the front, side, or rear. (MSA's Vanguard™ II protective helmets are so designed and must be used if lateral protection is desired. For more information, contact your local MSA distributor.)

UniPro™ Suspension

⚠ WARNING

Do not mix suspension and helmet sizes. Make sure the sizes match (example: standard size suspension with standard size helmet). UniPro, 1-Touch and Swing Ratchet suspensions should be used only in standard size V-Gard helmets. Use only MSA suspensions with an MSA helmet. Failure to comply with the above will reduce the energy-absorbing ability of the protective helmet, which can result in serious injury or death.

Swing-Ratchet Suspension

The only self-adjusting reversible ratchet suspension

The Swing-Ratchet Suspension easily converts your V-Gard®, Topgard®, Thermalgard® or Skullgard® hat or cap from the normal wearing position to the reverse wearing position without having to remove the suspension!

The Swing-Ratchet has a 360° perforated sweatband to enhance comfort. With the Fas-Trac® ratchet's ease of use and the slide feature, you are assured of the correct positioning of the napestrap for comfort and stability.
