

# Sporicidin® Enzyme Mold Stain Cleaner

Highly concentrated solution

## Description

An effective enzyme combination of protease (to remove protein), amylase (to remove starch) and lipase (to remove fat), which also quickly removes mold stains and organic matter.

Recommended for use on floors, walls, ceilings, painted surfaces, metal, tile, concrete, cinder block, brick, carpet, fabric, upholstery, plastic, glass, vinyl, latex, wood studs, joists, beams, sub floors, and other materials subject to moisture.

## Features and Benefits

- EPA's DfE (Designed for the Environment) approved formulation
- Loosens mold/mildew stains, and other dried organic matter from surfaces
- Lifts stains on carpet, fabric and other water-safe materials
- Removes protein, fire and oil residue
- Eliminates sewer backflow, smoke, and pet odors
- Makes scrubbing easier

## Applicability

The information presented here is applicable to the part numbers shown below as well as to any product containing the same materials and produced under the same conditions, regardless of product size or packaging configuration. Please contact a Contec sales representative for more details.

ENZ-3212, ENZ-MOLD55GAL

## Technical Data

ATTRIBUTES	Value	Notes
pH	7.5	Mild Alkaline

Notes:

- 1) Data shown are typical values and should not be used as product specifications.
- 2) Valid product comparisons may only be obtained through side-by-side testing in the same test facility, under similar conditions.
- 3) Current and/or comparison data may be available. Please contact a Contec sales representative for details.

## **Directions for Use:**

Add 2 ounces of concentrate to a gallon of water and apply solution to surface or material to be cleaned. Allow one minute of contact time. Remove debris. Stubborn or heavy contamination may require repeat application.

**Mold contamination and remediation** – Follow industry guidelines for mold remediation. Use *Sporicidin® Enzyme Mold Stain Cleaner* for easy cleaning of mold stains. Use other Sporicidin Brand Products like the *Sporicidin® Disinfectant Solution Spray* or *Towelettes* to disinfect surfaces and equipment after cleaning.

**Carpets and fabrics** – To remove spots or stains, apply diluted solution to soiled areas. Absorb excess with clean cloth or paper towel. Carpets: Apply diluted solution to carpets using a pressure sprayer (approximately 1200 s.f./gallon coverage). Extract with carpet cleaning machine and dry carpets using fans or air-movers. Use wooden blocks or carpet tabs to protect furniture until carpets are dry. Stubborn stains may require applications.

**Septic system maintenance** – Flush one gallon of diluted solution into toilet nearest to septic tank once a month to keep septic system from backing up and to keep filed lines clear.

**Evacuation systems** – Circulate through hoses daily for 1-2 minutes to maintain cleanliness.

## **Precautions:**

**Keep Out of Reach of Children.** Avoid contact with eyes. If product comes in contact with eyes, rinse with water.

**Storage:** Store at room temperature (15-30°C or 59-86°F).

**Disposal:** Flush used solution down the regular drain. Dispose container in regular trash, according to local regulations.
