Brush Size: 24"

Wheels: 4" Transport

DLX Models Include:

AMP Meter; Oversize Handle Grips; "Select-A-Weight"[™]; Solution Tank; Showerfeed Pad Driver; Showerfeed Diamond Disc Driver w/"Splash-Guard"[™]

STD Models Include:

AMP Meter; Oversize Handle Grips; "Select-A-Weight"[™]

Oversize Handle Grips

For operator's comfort.

Heavy-Duty Switch

Set in a die cast aluminum switch box, which won't chip or rust.

4 Gallon Plastic Solution Tank

Dispenses liquid for scrubbing, polishing and diamond cutting. Won't rust or corrode. Standard on deluxe models.

"Select-A-Weight"[™] System

Includes two 10 lb discs and three 25 lb discs, allows operator to adjust surface pressure in 10 and 25 lb increments while staying within recommended amperage range.

Enhanced High Torque, Triple Planetary Gear System,

Permanently lubricated, operates at 140 RPM with 1 1/2 HP motor.

Reinforced* Aluminum Apron w/Lift Handle

For added strength and rigidity, also shields the transport wheels to prevent damage.

Wheel Support System*

Extra heavy-duty reinforced six point cast aluminum.

QuarryMaster[®] 17" / 20" / 24"

The QuarryMaster[™] is designed for the restoration and maintenance of marble, tile, terrazzo, stone and concrete. This versatile floor machine can also be used for standard floor scrubbing, stripping and polishing applications.

Built-In AMP Meter

Allows for constant monitoring of current draw and selection of the correct weight.

Flexible Dual Triggers

Left or right hand operation, non-conductive and have built-in safety lockouts to prevent accidental startup.

50 Ft. Power Cord

3-wire safety yellow with water-resistant jacket.

MCL-17E DLX

Diamond Disc Driver with the Unique "Splash Guard"[™] System

Includes five quick change diamond mounting pads and "Splash Guard"[™] skirt to contain slurry. Standard on deluxe models.

StoneCare Floor Machine

Professional products for a cleaner environment

QuarryMaster® 10"

The 10" QuarryMaster® is designed for the same purpose as the larger machines, except it can be used in small and confined areas. It has most of the same quality features as the 17"/20"/24" QuarryMasters®.

Features

Oversize Handle Grips

For operator's comfort.

Heavy-Duty Switch

Set in a die cast aluminum switch box, won't chip or rust.

Flexible Dual Triggers

Left or right hand operation, non-conductive and have built-in safety lockouts to prevent accidental startup.

50 Ft. Power Cord

3-wire safety yellow with water-resistant jacket.

4 Gallon Plastic Solution Tank

Dispenses liquid for scrubbing, polishing and diamond cutting. Won't rust or corrode.

10" Pad Driver

10" Diamond Disc Driver and Velcro Holders

specifications

Motor:
120V, 3/4 HP, 60 Hz, 56 Frame

Crystal Clear™ Marble Finish

This is the final touch after diamond restoration or maintenance process on marble and terrazzo as a continuing maintenance program.

Crystal Clear™ creates a harder, more durable surface to protect the floor, while enhancing the color. (338958 - 4 Gallons Per Case)

specifications

MTHC-16E LR (464317)

Bowl Size: 16"
Motor:
 1 1/2 HP, 120V 60 Cycle
Current: 12.5 AMPS
Motor Speed: 1760 RPM
Power Cord:
 30 Ft, 12/3 wire grounded
Transport Wheels: 6"

MTHC-16E HR (457795)

Bowl Size: 16"
Motor:
 1 1/2 HP, 120V 60 Cycle
Current: 15.0 AMPS
Motor Speed: 3450 RPM
Power Cord:
 30 Ft, 12/3 wire grounded
Transport Wheels: 6"

MTHC-20J STD (499579)

Bowl Size: 20"
Motor:
 3 HP, 208/230V 60 Cycle
Current: 14.0 AMPS
Motor Speed: 3450 RPM
Power Cord:
 50 Ft, 12/3 wire grounded
 w/20 Amp Twist lock plug
Transport Wheels: 6"

Unique changeable heads are easy to install and remove, adding to the machine's versatility.

Multi-Purpose Dry

This multi-purpose machine is designed for surfacing concrete floors, restoring or preparing wood decks and hardwood floors.

Unique belt drive, three-head system is designed for smooth operation with superior results.

Counter-rotating head makes this machine easy to operate and control with no sliding.

Flexible Startup Trigger (16" Only)

Non-conductive with safety lock-out to prevent accidental startup. Operator activates the machine with a gentle squeeze.

Heavy Duty Switch (16")

Set in steel switch box with a 15 AMP circuit breaker.

Handle and Frame

Constructed of heavy-duty steel for strength and durability. The handle has a quick disconnect for transport.

Heavy-Duty Motor with Dual Capacitors

The 16" is equipped with 1 1/2 HP motor and 20" with a 3 HP motor.

Adjustable Bottom Dust Skirt

Provides dust containment during operation.

Heavy-Duty 3 Wire Grounded Power Cord

The 16" machine is equipped with a 30 ft 12/3 power cord. The 20" is equipped with a 50 ft 12/3 with a 20 AMP twist lock plug power cord.

6" Transport Wheels

Outer Bowl w/Lift Handles and Vacuum Port

Made of spun steel with vacuum ports and the inner bowl of cast aluminum.

MTHC-16E STD

Floor Surfacing Machine

Professional products for a cleaner environment

Multi-Purpose Wet / Dry

The 1760 RPM models are recommended for concrete or wood and the 3450 RPM for polishing concrete.

Equipped with 6" transport wheels, vacuum port for use with the 1012DOF dry vacuum (see page 14) and bottom dust skirt that contains dust during operation.

20" Machine Heavy Duty ON/Off Switch

Set In steel switch box.

Solution Tank (Wet Only)

4 gallon, dispenses liquid for diamond cutting.

MTHC-20J DLX

Bring new life to concrete surfaces with the multi-purpose dry or wet machines.

Restore old or prepare new wood floors with the multi-purpose dry machines.

Restore old or prepare wood decks with the multi-purpose dry machines

AquaRinse™ Spray and Rinse

The AquaRinse™ vacuum and QuarryMaster™ floor machine for marble/stone care are excellent examples of how our modularity works. The AquaRinse™ vacuum system is designed for special applications, requiring both solution pressure spraying and concurrent liquid recovery. It is excellent for use in marble/stone restoration, extraction, spill cleanup, and for rinsing and vacuuming applications.

Heavy-Duty Motor Head

With built-in convenience outlet, top handle and exhaust fitting.

Heavy-Duty Clamps

Chrome plated spring steel, with non-marring tips are extra wide to ensure a positive vacuum seal.

Hose Fitting 1 1/2"

Positive locking with 360° swivel.

20 Gallon Vacuum Tank

Rotationally molded of high-impact plastic, will not leak or dent and resist chemical attack.

Gate Valve w/Hose Fitting

Quick removal of liquids directly from tank or using a vacuum hose.

3" Front Casters

Two ball bearing swivel for excellent mobility.

Push Handle

1" diameter chrome plated steel.

10 Gallon Solution Ring Tank

Rotationally molded high-impact plastic with 100 PSI pump, converts vacuum for rinsing and cleaning.

8" Rear Wheels

Two heavy-duty non-marring, mounted on 1/2" diameter solid stainless steel axle.

Specially Designed Cleaning Attachment

Includes 15 ft hose-in-hose, aluminum wand, 14" double blade squeegee w/6 spray nozzles. Solution is sprayed on surfaces, contained, and vacuumed up in one pass.

Steel and Stainless Steel Dry

Our hazardous waste Vacuums with HEPA filtration are designed for the removal of mold, ceramic dust, aluminum, fiberglass and many other hazardous materials.

Designed for use in clean rooms, hospitals and industrial plants or wherever air and dust pollutants exist.

Equipped with the HEPA filter system, consisting of a certified absolute filter, double layer intermediary micro filter and totally enclosed 2 ply disposable paper filter bag.

Push Handle

Chrome plated steel on glidemobile style vacuums.

Holddown Clamps

Chrome plated spring steel with non-marring tips to ensure a positive vacuum seal.

Cold Rolled Steel and Stainless Steel Tanks

Reinforced ribs strengthen tanks for handling higher waterlift. Double roll over bottom seal prevents leaking.

8" Rear Wheels

On glidemobile style vacuums.

HEPA Filter System

Large HEPA Filter

Rated with a minimum efficiency of 99.97% @ 0.3 microns. Tested using the HOT DOP method @ 100 CFM.

2 Ply Intermediate Filter

For protection and extended life of the HEPA filter.

Microply™ 2 Ply Disposable Paper Filter Bag

Extra Large Totally Enclosed for greater filtration area.

Poly Dry and Wet / Dry

The hazardous waste vacuums are shipped with a HEPA filter, 2 ply intermediate pre-filter, 2 ply disposable paper filter bags and 6 mil poly bags with OSHA markings.

DAF dry models include 1 1/2" dry tool kit and WAF wet/dry models a wet/dry tool kit.

Motor Head Assemblies

Durable steel or cast aluminum with choice of 1.3, or 2.3 HP motors. Equipped with 30 Ft, 3 wire grounded safety yellow line cord.

Steel Conversion Adaptor

Holds the HEPA filter on the poly vacuum for dry and wet/dry and on the steel vacuums for wet/dry operation.

Hose Fitting

Positive locking with 360° swivel.

Rotationally Molded Tank

High impact plastic, won't leak or dent and resist chemical attack.

Ball Bearing Swivel Casters

7, 8 and 16 gallon tanks are equipped with 2 1/2" casters and the 20 gallon poly tank with 3" casters.

EnviroMaster™ 7 Dry HEPA

Easy to carry and transport, this compact vac is suited for cleanup in small and confined areas.

The filter system consists of a certified absolute 12" HEPA filter, intermediary 2 ply micro filter and 2 ply disposable filter bag.

The HEPA filter has a minimum efficiency rating of 99.97% at 0.3 microns HOT DOP method certified @ 100 CFM.

The tank is rotationally molded, of high impact plastic with 1/4" wall constructions. No-tip base design has low center of gravity.

Equipped with four 2 1/2" swivel casters and three heavy-duty chrome plated spring steel hold-down clamps to ensure a positive vacuum seal.

Vacuums are shipped with HEPA filter, 2 ply disposable paper filter bag (5/Pk), 2 ply intermediate pre-filter (2/Pk) and dry tool kit.

EnviroMaster® Compact

This compact HEPA vacuum is designed for the removal of hazardous waste in laboratories, hospitals, cleanrooms, or wherever air and dust pollutants exist.

The EnviroMaster® is extremely quiet and is equipped with a powerful 1.6 motor with a sound level of 60dB.

The EnviroMaster® is designed with a unique 5 stage filtration system that includes two hospital grade HEPA filters, HEPA filter cartridge and motor exhaust HEPA filter and paper filter bag.

The HEPA exhaust filter is easy to replace, just slide out the old filter and slide in the new filter.

Molded of polypropylene plastic, it won't dent or crack and is resistant to chemical attack.

Equipped with 2" wide front casters and 3" rear wheels for excellent stability and mobility

1 1/4" Tool Kit Includes

Telescopic Wand
Curved Elbow Wand
9 Ft Vinyl Hose
Dusting Brush
Plastic Crevice Tool
Plastic Floor Tool

Compressed Air-Operated

MAV compressed air-operated vacuum is an alternative when electricity is not available or for industrial applications.

These vacuums deliver the extra high suction power required for fast pickup of liquids, sludge, and recovery of valuable metals.

MAV vacuums are designed for wet or dry pickup. They are easy to maintain because there are no moving parts.

The venturi head is designed with a built-in safety pressure control and easy to read pressure gauge.

Automatic pressure release safety valve is pre-set at the factory to maintain constant operating efficiency.

The acoustical muffler reduces the sound level of the vacuums.

MAV bare models come with a dry filter assembly and are available with steel tanks, poly tanks or as a drum adaptor kits. Tool kits and wet pickup adaptor are optional.

MAV wet/dry models come with dry filter, wet pickup adaptor and wet/dry tool kit.

1 1/2" Wet/Dry Tool Kit Includes:

5 Ft Metal Wand
10 Ft Vinyl Hose
1 1/2" Swivel Hose Connector
14" Metal Carpet Tool
14" Metal Floor Tool
11" Plastic Crevice Tool
6" Upholstery Tool
14" Metal Squeegee

King Size Vacuums

Converts a drum into a king size vacuum for dry or wet pickup. Drum adaptor vacuums are the perfect solution for any job that requires a vacuum with an extra large capacity.

Ideal for heavy-duty boiler cleaning, flood control, recovery of materials for reprocessing, construction cleanup, and industrial applications.

Drum adaptor kits for dry pickup includes a motor head, drum adaptor, hose connector and dry filter assembly.

When used for removal of liquids an optional wet pickup adaptor is required.

DA-Series low neck adaptor is designed for 55 gallon drums. DAK-Series high-neck for 35 thru 65 gallon drums. The drum is not included.

Optional accessories include dacron filter (300888), drum dolly (320579) for portability, HEPA filter assembly (382515) and cleaning attachments to meet specific cleanup requirements.

Optional Tools and Accessories

1 1/2" W / D Tool Kit

1 1/2" Wet/Dry Tool Kit (416002)

Tool Kit Includes:

- 5 Ft Metal Wand (421898)

DA-1512 Dry (320064)
Fits 55 Gallon Drum Only

DAK-1512 Dry (320072)
Fits 35 - 65 Gallon Drum

Vacuum Motor:

120V, 2 Stage 2.3 HP By Pass;
115 CFM - Waterlift 110"

DA-1515 Dry (300942)
Fits 55 Gallon Drum Only

DAK-1515 (396540)
Fits 35 - 65 Gallon Drum

Vacuum Motor:

120V, 2 Stage 3-1HP Tang
By Pass; 230 CFM - Waterlift: 82"

DA-1540 Dry (363588)
Fits 55 Gallon Drum Only

DAK-1540 Dry (363626)
Fits 35 - 65 Gallon Drum

Air-Operated:

Non-Electric, 170* CFM (Output),
Waterlift: 250" (165" Safety Control)

DA-MAV16 Dry (313637)
Fits 55 Gallon Drum Only

DAK-MAV16 Dry (313718)
Fits 35 - 65 Gallon Drum

Pump-Out Vacuum / Adaptor

specifications

P42010SMP Wet (431001)

Vacuum Motor:
120 Volt, 2 Stage 1.3 HP
By-Pass;
94 CFM - Waterlift 84"
Current: 7.5 AMPS
Sound Level: 78dB
Pump: 60 Hz, 120V
Pump Waterlift: 44 GPM @ 40 Ft.
Pump Current: 8.0 AMPS
Tank Capacity: 20 Gallon Poly
Power Cord:
50 Ft, 12/3 Wire Grounded
w/Ground Fault Interrupter,
Safety Yellow

SMP-1 Adaptor (307319)

Pump: 120V, 60 Hz
Pump Waterlift: 28 GPM @ 23 Ft
Pump Current: 8.0 AMPS

The pump-out vacuum and adaptor are especially effective when vacuuming up liquid spills, leaks, for flood control and swimming pool maintenance.

Liquids are recovered in the tank and continuously pumped out, this is especially useful in emergency situations.

P42010SMP features a 1.3 HP motor head, 20 gallon poly tank w/built-in pump and includes a barbed connector, It is shipped with a 15 Ft intake hose, 50 Ft discharge hose, mesh filter bag, 5 Ft metal wand, 16" squeegee and 12" gulper tool.

The SMP-1 adaptor is designed to fit the P415 and P420 poly or #15 and #20 steel wet/dry vacuums or drum adaptors.

It is easy to install, no special tools or equipment are required. All you need is a tank vacuum or drum adaptor, set up for wet pickup and a 3/4" garden hose or 1 1/2" hose.

The SMP-1 adaptor includes a conversion adaptor w/swivel hose connector, 4 Ft vinyl hose, barbed hose connector, support cord w/handle, mesh filter bag and power cord w/ground fault interrupter.

specifications

Vacuum Motor:
120 Volt, 2 Stage 2 HP By-Pass;
112 CFM - Waterlift 106"
Current: 11.0 AMPS
Sound Level: 75dB
Power Cord:
30 Ft, 18/3 Wire Grounded
Safety Yellow
Tools Includes:
10 Ft Hose w/Hose Connector;
Hose Cage; 5 Ft, 2 Pc Metal Wand;
14" Metal Floor Tool

DYN-812D Dry (459852)

Recovery Capacity: 8 Gal Dry

DYN-1012D Dry (459895)

Recovery Capacity: 10 Gal Dry

Dynavac® Dry Concrete

These compact vacuums are designed to be used with the multi-purpose floor machine for clean up of concrete and wood dust, reducing the incidence of airborne dust.

The durable steel motor head is equipped with powerful 2 HP motor head.

Cold rolled steel tanks have a hammermark finish and features reinforcing ribs to strengthen tanks for handling higher waterlift.

It is equipped with a concrete shaker filter system specially designed to keep the cloth filter from clogging.

The filtration system includes a deep wire frame and concrete cloth filter.

The tank has four 2 1/2" swivel casters and three heavy-duty chrome plated spring steel holddown clamps to ensure a positive vacuum seal.

Carpet HEPA Extractor/Vacuum

Professional products for a cleaner environment

P42015-SAWAF

This unique extractor/vacuum system is equipped with a HEPA filter system, and designed to remove hazardous material safely from carpeted and hard surface flooring. Solution is sprayed onto the surface, contained and vacuumed up in one pass.

Optional Stainless Steel Tools

4" Hand Tool

Ideal for cleaning upholstery. The spray jet is built into the vacuum shoe. (313890)

17" Crevice Tool

Designed to clean in hard to reach areas. The built-in spray jet will not create airborne dust. (446319)

specifications

P42015-SAWAF Wet (446351)

Motor Head:

120V, 2 Stage, 2.3 HP By-Pass
115 CFM - Waterlift 110"

Current: 11.0 AMPS

Power Cord:

30 Ft, 14/3 Wire Grounded
Safety Yellow

Vacuum Tank:

20 Gallon Recovery

Ring Tank: 10 Gallon Solution

Pump: 100 PSI, with Inline Filter

Includes:

15 Ft Vacuum/Solution

Hose-In Hose and

Stainless Steel Wand & Head

Optional Tools:

17" Crevice Tool (446319)

4" Hand Tool (313890)

HEPA Filter System

Large HEPA Filter

Rated with a minimum efficiency of 99.97% @ 0.3 microns.

Tested using the HOT DOP method @ 100 CFM.

2 Ply Intermediate Filter

For protection and extended life of the HEPA filter
