

CLEARVUE® 200 GOGGLES

DESCRIPTION

Clearvue 200 Goggles are designed for use in all types of industrial and commercial settings, ranging from workshops to laboratories. They protect the eyes from small flying objects, chemical splash and/or glare.

Their advanced design and contemporary styling provides eye protection and comfort at the same time.

Clearvue 200 Goggles can be worn alone, over industrial spectacles or clipped onto protective headwear through the use of an MSA goggle retainer or goggle clips.

FEATURES

- Advanced eye protection combined with contemporary styling
- Protection against small flying objects, chemical splash and harmful ultraviolet rays
- Soft, pliable vinyl frame goggles are lightweight and fit securely
- Ventilation side ports provide air-flow across lens
- No peripheral vision obstruction
- Standard or fog-free lens

CLEARVUE 200 GOGGLES feature an integrated-frame design, providing enhanced stability and solid lens support with contemporary styling. The frame design allows for a comfortable, secure, evenly distributed fit against the face.

The wide, elastic nylon headband helps keep the goggles firmly in place and enables easy adjustment.

The Clearvue 200 Goggles' unique ventilation system, positioned on the side strip, permits constant upward flow of air over the lens.

The oversized, spherical, polycarbonate lens protects against chemical splash and ultraviolet rays, while allowing unobstructed viewing. The clear lens is available with a fog-free coating.

The goggles' clear, soft, lightweight body and component parts are molded from 99 percent ultraviolet inhibitive materials.

ORDERING INFORMATION

CLEARVUE 200

PART No.	DESCRIPTION
696760	With standard lens
696776	With fog-free lens
