

V-Gard® 500 Protective Caps

formerly Advance® Protective Caps

Vented V-Gard 500 Caps provide cooling vents for improved air circulation and comfort, while the Non-Vented V-Gard 500 Caps provide users with Class-E head protection.

Other features include:

- ➔ Glaregard® Surface underbrim to reduce reflective glare
- ➔ Lateral contours above ear for easy hearing protection integration
- ➔ Rain trough extends all the way around the brim

V-Gard 500 Caps meet all applicable requirements for a Type I (top impact) helmet as outlined in ANSI/ISEA Z89.1-2009: Vented (Class C) and Non-Vented (Class E). These caps also meet the ANSI/ISEA Z89.1-2009 voluntary standard for low temperature [LT] and reverse donning. Look for the official reverse donning logo  to determine if your hard hat may be worn backwards without voiding approvals.

Ordering Information

V-Gard 500 Cap Assemblies			
Color	Style	4-Point Fas-Trac® Suspension	6-Point Fas-Trac Suspension
White	Vented	10034018	10034027
Blue	Vented	10034019	10034028
