General Ordering Terms and Conditions

Shipping & Freight Terms

Freight charges will apply unless otherwise agreed to by Aramsco. For special order, non-stock products and factory direct orders, freight charges apply regardless of shipping location. All cataloged items are not stocked in every warehouse therefore additional shipping time and charges may be required. In times of historically high fuel prices, we reserve the right to add a fuel surcharge on all orders.

Payment Terms

For approved credit accounts, payments are due within 30 days of invoice date and are subject to the terms and conditions on the Aramsco credit application. Most major credit cards are accepted.

Collection Costs, Claims and Return Goods Policy

Aramsko reserves the right to charge a restocking fee on returns other than defective or shipping errors. We carefully fill and pack every order. In the rare event an item is missing or received damaged, please call 1-800-767-6933. Special order and nonstocked items are considered NOT RETURNABLE to Aramsco and will be subject to the terms and conditions from our suppliers, including freight charges.

Sales Tax

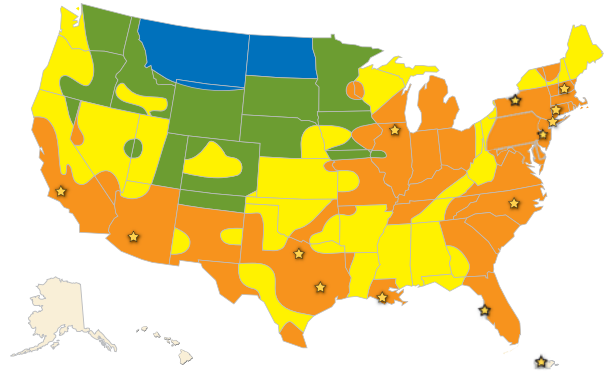

Unless a valid sales tax exemption certificate is provided in advance of the order, customers are responsible for all applicable local and state sales taxes.

Pricing

Large quantity and reoccurring order discounts are available. Contact your sales representative for more details.

Health & Safety

AramSCO is a national specialty distributor serving the environmental safety, emergency preparedness and surface preparation markets. We provide our customers valuable product expertise and exceptional customer service, in conjunction with a wide-range of quality products delivered, fast and reliably, at competitive prices.

Public health remains at the forefront of news debates over rising costs and meeting the needs of our employees, patients, students and families on an everyday basis. This concern is further complicated by the requirement for systems to be in place to respond to public emergencies in the event of natural disasters, pandemics, or acts of terror.

AramSCO “delivers” on multiple levels to meet today’s Health Care and Emergency Preparedness needs. For over 20 years, we’ve supplied thousands of medical, emergency, safety, and first aid products to the Health Care markets in the development and implementation of safety programs, assistance in the compliance and preparedness for emergency and catastrophic events, or simply restocking everyday supplies and equipment.

Our experienced staff assists customers in guiding their organization in the assessment of their purchase requirements for everyday supplies and equipment. However, the greatest value of this seasoned sales team is their working knowledge to quickly respond to the unforeseen events of natural disasters, or the looming potential threats of terrorism.

Regardless if the needs are in the facility or lab, or perhaps the campus, school, or home, AramSCO will be able to assist in the protection of your staff, patients, students, and families.

AramSCO is utilized by healthcare organizations, state, local and federal agencies, along with event first responders. Rest assured that before, during, and after emergencies, AramSCO has the products necessary to fulfill the expected and unexpected demand. From respiratory, hearing, flu and skin protection to sorbents, wipes and other surge capacity and containment products, we maintain a vast selection required in meeting the needs of Pandemic Preparedness, First Aid and other various healthcare and facility maintenance needs.

Spill

- Hazmat Response
- Bodily Fluids
- Vehicle/Transportation/Warehousing
- Facility Maintenance

PERSONAL PROTECTION AND CLOTHING

Tri-Tuff® SMS Coveralls

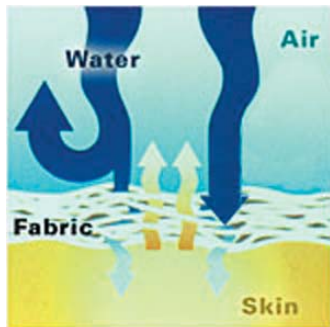

Heavyweight Multilayer Breathable SMS Coveralls

Tri-Tuff® SMS is a heavyweight, multilayer, breathable fabric that has been designed and tested to meet certain industrial applications. These tests were performed under laboratory conditions with material samples, not actual garments. There are some chemicals and environments for which these garments do not provide adequate protection.

- Liquid resistant
- Full sizing
- Opaque
- Breathable
- Provides a barrier to dirt and small particulates

Tri-Tuff® SMS Product Information			
Physical Property	Test Method	Tri-Tuff®	Leading Fabric
Fabric Weight	ASTM D3776	1.9 oz./sq.ft.	1.20 oz./sq.ft.

PERSONAL PROTECTION AND CLOTHING

Green Nitrile Gloves

- Nitrile formula for resistance to many solvents and oil-based chemicals
- Open cuff allows ventilation to keep hands cool
- Good puncture and abrasion resistance
- Ideal for use in maintenance, assembly, automotive, printing, and food processing industries
- BS 5958 Part 1 was used to show that the gloves are antistatic in use
- CE Complex Design

Cotton flock lining provides comfort without loss of chemical-resistance. It absorbs perspiration and eases donning and removal of the glove.

Butyl Unsupported Gloves

- Highest permeation resistance to gas and water vapor for greater worker protection, especially when handling toxic substances
- Flexible and sensitive, even at lower temperatures
- Curved finger and hand design provides a better fit for greater worker comfort
- Available with "Grip-Saf" palm for wet applications
- GI styles are manufactured on curved hand forms to provide a natural grip for better dexterity
- R styles are manufactured with a rough finish for better grip

Deluxe Pandemic Kit

Please note: Photo depicts representative items found in the kits, alternative items may be substituted based upon product availability.

Office & Employee Kit containing supplies effective in the protection against and prevention of the spread of various influenza viruses. These products have been assembled in one easy-to-order kit based upon recommendations of the U.S. Centers for Disease Control (CDC) and the World Health Organization (WHO) to prevent the spread of pandemic flu virus.

Kit Contains:

- Individual Surface Wipes (Box)
- Spray Disinfectant (Bottle)
- Hand/Surface Wipes (Canister)
- Hand Sanitizer Alcohol Gel (Bottle)
- Individual Hand Sanitizing Gel Packs (Box)
- Nitrile Exam Gloves (Box)
- Facial Tissues (Box)
- N95 Masks (Box)
- Disposable Thermometers (Box)
- Light Duty Wipers (Box)

Item	Description
A31611	Deluxe Pandemic Kit

EZ Personal Protection™ Kit

Provides complete exposure protection from potentially infectious blood or body fluid. This completely disposable kit is great for ambulance drivers, emergency rooms, clinics, funeral homes, nursing homes and more.

Contains

- p.a.w.s.™ antimicrobial hand wipe
- Vinyl gloves
- Combination mask/safety shield
- Protective gown
- Biohazard red bag
- Weight: 8 pounds
- Dimensions: 14 1/4" x 13 1/4" x 12 3/8"

Item	Description
A63390	EZ Personal Protection™ Kit (24/case)

60 Day Home Pandemic Preparedness Kit

Our 60-Day Home Pandemic Preparedness Kit is designed to provide users with enough EPA approved disinfectant (5 gallons) to keep the home sanitized for up to 60 days. Each kit contains an 8 ounce bottle of ShockWave™ concentrate, a collapsible 5 gallon storage container for mixing the ShockWave™ with tap water, a spigot connection for the 5 gallon container which allows the "ready-to-use" mixture to be dispensed into the 1 quart spray bottle, as well as a host of safety equipment for the family.

Unlike over the counter disinfectants which are designed for hard surfaces only, ShockWave™ disinfectant can be sprayed on all surfaces without damage, and has over 130 EPA-registered kill claims including Avian Influenza, making it the most versatile solution for your pandemic preparedness program.

Contents (air-tight stackable container)

- (1) 11.3 gallon air-tight stackable storage container
- (1) 10 ounce bottle of ShockWave™ concentrate (makes 5 gallons of ready-to-use)
- (1) 5 gallon collapsible container with handle and spigot (for mixing and dispensing ShockWave™ into a 1 quart spray bottle)
- (1) Empty quart spray bottle with EPA-required label
- (200) Fluid resistant surgical masks (long term), packaged in plastic bags
- (100) Disposable thermometers for checking temperature
- (1 box) Medical grade high risk nitrile exam gloves (50 pair)
- (5) 8 ounce bottles of alcohol gel
- (1) All Surface Dura-Ink marker
- (3) Heavy-duty slide closure storage bags for adding food to kit
- (1) 11-function knife (includes cork screw and can opener)
- (1) Users Guide with additional room for more!!

KONTROL KUBE®

Mobile Containment. Simplified.™

Kontrol Kubes are mobile containment and isolation units designed to be set up quickly and easily to establish a temporary negative pressure environment. They are ideal for the control of airborne particulate during hospital renovations, construction and repairs; or for temporary patient isolation and increased surge capacity.

Kontrol Kube's are available in 8' and 10' (8' unit can be configured as an anteroom for patient isolation) and are an effective means for obtaining compliance with Joint Commission, CDC and APIC recommendations and guidelines for patient isolation and dust control during facilities maintenance.

Patient Isolation & Increased Surge Capacity

The Kontrol Kube can be configured for use as a temporary anteroom converting any operating, patient or procedure room into an emergency airborne isolation room. The Kontrol Kube can be quickly set up to provide containment where ever it is needed without costly disruptions to patients and schedules. The unit can be used in conjunction with either a negative or positive pressure room. For containment of airborne pathogens commonly associated with pandemic or bio-terror threats as well as TB and MDR-TB.

The spread of airborne infectious disease, and the need for surge capacity, can quickly overwhelm a facility. The Kontrol Kube offers a convenient solution to securing a protected environment. The unit can be set up in just minutes, and when kept under negative pressure helps satisfy HRSA Critical Benchmark #2-2 requirements.

- Convert any room into an airborne isolation room
- Designed for rapid deployment
- Meets HRSA Critical Benchmark 2-2
- Beveled base allows for easy roll through of carts, beds or equipment
- Assists in disaster preparedness

Infection Control During Facility Maintenance

The Kontrol Kube adjust to ceilings of up to 10' when overhead containment is needed for maintenance or repairs such as cabling, light bulb replacement, HVAC access or any other above ceiling work. The unit can also be used for side wall access when performing work such as plumbing or installing power and communications outlets. With a 30" wide wheel base the unit can be quickly moved through all AIA and NFPA compliant doors to any area where dust and particulate control is needed.

When containment of a large area is required the Kontrol Kube can be set up as an anteroom and used to isolate entire rooms during construction, renovation or repair.

- Dust & particulate control to assist in achieving JCAHO, CSA, CHICA and CDC compliance
- Assists in meeting OSHA & ACGIH levels of permissible nuisance dust
- Access walls and ceilings of up to 10'
- Moves easily throughout the facility
- Eliminates the need for disposable barrier materials
- Simplifies clean up
- Designed for daily use
- Easier to inspect than traditional barriers

Kontrol Kube AirBase – Negative Air Machine Base

The patent pending AirBase attaches quickly and easily to the Kontrol Kube Wheel Base and is designed to support a negative air machine. Once connected, the entire system including negative air machine and containment unit, can be rolled through a facility by a single person. This unique feature allows for the containment unit to be moved with tools, ladders and equipment inside the unit without breaking containment.

- Easy locking attachment
- Complete single user mobility
- Designed to work with the Kontrol Kube Negative Air Machine
- Accommodates most portable negative air machines
- Can be used for cable spools, equipment & tools

Kontrol Kube Negative Air Machine

The Kontrol Kube Negative Air Machine offers a revolutionary combination of power, efficacy and convenience. This lightweight, three-stage, variable speed machine delivers up to 500 CFM (with HEPA filter installed) and is ideal for use with the Kontrol Kube containment units. Featuring a DOP Stage 2 prefilter this unit ensures effective filtration in a single pass. The unit also includes a 5' length of flex duct for attachment to the Kontrol Kube.

- Variable speed - up to 500 CFM
- DOP compliant 3 stage HEPA filtration
- Lightweight, durable rotomolded construction
- Designed for the Kontrol Kube
- Containment unit
- Filter change indicator light
- Includes 5' Flex Duct (replacement part)
- UL/C-UL Rated
- Passes UL94 flammability rating

KONTROL KUBE[®] COMPLETE

Kontrol Kube Complete – The only system that offers complete mobility

Kontrol Kube is a solution based system for temporary containment. This system is the only containment method that offers total mobility and ease of use for the user, and the assurance that all components have been designed to work seamlessly with one another. This system includes the containment unit, the new patent pending AirBase and Negative Air Machine, and all other components necessary to establish temporary containment.

This new system, available exclusively from Kontrol Kube, reduces time and costs while increasing the efficiency and effectiveness of temporary containment.

POLY-HANGER #1

Hanger #1 supports one or more layers of poly in front of walls. Hanger #1 slips behind wall molding and is supported by the vertical leg of the molding. Hanger #1 can also support poly in front of masonry or paneling by attaching with a small nail into a masonry or paneling joint which can be easily patched after tear down.

Item	Description
56095	POLY-HANGER #1 (100/bx)

POLY-HANGER #2

Hanger #2 supports one or more layers of poly in front of walls. Hanger #2 clips over the horizontal leg of ceiling wall molding. The prong makes hanging poly faster and ensures it will stay up during the length of the job.

Item	Description
56096	POLY-HANGER #2 (100/bx)

POLY-HANGER #3

Hanger #3 supports poly from ceiling grid and other overhead objects. Poly is installed over the pin and is held in place by a removable retainer. Hanger #3 supports poly both horizontally and vertically for building full containments, connecting tunnels, dust curtains, etc.

Item	Description
56097	POLY-HANGER #3 (100 sets/bx)

POLY-HANGER #4

Hanger #4 supports poly from many building components by attaching with the 10" releasable cable tie or by other fasteners.

Item	Description
56098	POLY-HANGER #4 (100 sets and ties/bx)

CONTAINMENT

DUST SHIELD™ Multi-Purpose Adjustable Poles

Features and Benefits

- Poles extend to over 13 feet
- High level compression strength, results in a stronger barrier
- Easy assembly saves time
- Carrying case is built into box - no need to purchase an additional case
- Metal pole and head assembly are designed for heavy-duty usage
- Kit includes clips and clamps to hold film in place - no tape required
- Easy use metal locking mechanism enables quick adjustment to pole length

Item	Description
56212	Dust Shield Kit, Complete with Two Poles and Two Jacks

Peel and Stick Zipper Tape

Use Peel and Stick Zipper Tape to create any size doorway to control dust, reduce heat loss, or create an instant entrance or exit into any closed area. Meets Federal Containment Specifications

Features and Benefits

- Installs in minutes
- Remodeling
- Interior or exterior use
- Dust barrier
- Commercial construction
- 2-sided zippers
- Mold abatement
- Shrink wrapping
- Hazardous waste removal
- Can be used with poly sheeting

Item	Description
58469	3" x 7' 2-Sided Peel and Stick Blue Zipper Tape (1/bx)
56195	Zip N Close™ by Surface Shield 2-Sided Zipper 3" x 7' (1/bx)
55079	Zip N Close™ by Surface Shield 2-Sided Zipper 3" x 7' (2/pk)

Dr. Shrink Zipper Access Door

Allows easy access through plastic sheeting. Zipper pulls on both sides of door. Taped onto sheeting with duct tape. Contains UV inhibitors for long term storage. Makes for simple access through plastic sheeting containment areas.

Item	Description
57998	Zipper Access Door 12 mil Clear Polyethylene 30" x 48"

Floor Shield

Floor Shield adheres to and easily removes from tile, marble, laminate, vinyl, factory finished hardwood floors - almost any hard surface. Use Floor Shield to protect floors from moisture and other elements. Floor Shield is a green 3 mil, pressure sensitive polyethylene film. Color: Green

Available in one size
24" x 200' x 3 mil

Can also be applied to counter tops.

Item	Description
56190	Floor Shield 24" x 200'

Carpet Shield

- Self-adhering
- Protects under toughest conditions
- Provides excellent moisture barrier
- Prevents costly damage and clean-up
- Resists ripping, tearing and crumpling unlike paper products
- Easy application and removal
- Provides a professional image to customers and clients
- Nontransferable adhesive backing prevents slippage and adheres better to stairs than paper protection products, Visquine, or tarps*
- * Temporary protection, leave on no longer than 30 days.

Carpet Shield prevents damage during construction, remodeling, moving and high traffic events. Great for home, RV, boat and office use. Carpet Shield is a clear 3 mil pressure sensitive polyethylene film. Color: Clear

Available in two sizes
24" x 200' x 3 mil
36" x 250' x 3 mil

Item	Description
56188	Carpet Shield 24" x 200'
56189	Carpet Shield 36" x 250'
56291	Carpet Shield Applicator (24", 30", 36")

Dirt Grabber™ Sticky Mat

- Polyethylene film mat with a tacky surface to remove dust and dirt from footwear
- Sturdy, reusable frame with nonskid backing
- Each mat contains 30 layers of film
- Frame Size: 25 1/2" x 31 1/2"
- Mat Size: 24" x 30"
- Each layer is tabbed for easy removal
- Perfect for warehouses, home construction, garages, remodeling projects and the office
- Great for everyday dust and dirt
- Other sizes and colors available

Item	Description
56193	Dirt Grabber™ Sticky Mat with Backer Board (complete)
56194	Sticky Mat Replacement Sheets (30/mat, 4 mats/cs)

Kraft Paper

Various sizes of brown kraft paper available for carpet and hard surface protection.

Item	Description
95630	24" x 40 lb
95631	36" x 50 lb
95632	48" x 50 lb

Limited Use Decon Showers

AramSCO's low-cost lightweight limited use decons are remarkably strong and sturdy. Each of the three stage "bays" are manufactured using only PVC pipe and 6 mil poly. The walls are double wrapped bag-like construction. The shower room is double protected using our special manufactured ring process. Leak proof operation is ensured. The simple design of our limited use showers gives maximum flexibility and portability. Each room may be used by itself as airlock for your permanent showers. The limited use showers provide the perfect solution for emergency response, small-medium abatement jobs, even larger jobs where portability or ease of set up is needed.

Medical Bed

- Other Design Improvements
- Leg Locks on ALL legs
 - Safety Labeling
 - Increased Tube Thickness
 - Internal Structural Inserts
 - High Strength Patient Restraint
 - Clip 'n Close Closure Strap
 - Operating Instruction Sheet

The Westcot Medical and Surge Bed has been evolving since its first introduction in the early 1990's. Tube Enterprises takes the product to a new performance standard to help ensure that the bed meets the changing demands and expectations of providers and patients.

The new Westcot 400™ capacity rating of 400 lbs is achieved through design improvements in almost all of the subcomponents. Overall the Westcot looks the same, folds the same, weighs about the same and stores and deploys with ease, but now meets the needs of the Special Needs patients and citizens that evacuate to your shelter or portable hospital.

Item	Description
A18319	Westcot Folding Medical Bed with Mattress and IV Pole

Rolling Storage Rack

The Westcart Rolling Storage and Deployment Rack holds 10 Westcots and facilitates stowing the Westcots and deploying them at the shelter or hospital. The Westcart rides on 3" casters, two stationery and 2 that swivel, for easy maneuvering. Its compact size allows it to pass through almost any doorway and be handled by most support staff. With the optional Dust Cover stored Westcots remain clean, dry and readily available.

Item	Description
A18323	Westcart Bed Rack (holds 10 beds - sold separately)
A18325	Westcart Dust Cover

Sleeping Bag

- FlexAir™ Pillow (included)
- Innovative space-saving design stores flat, inflates in seconds
- Ideal for head, limb and posture support
- Disposable — eliminates storage and laundry costs

Item	Description

Facial Tissues

Item	Description
A41633	Fluff Out Facial Tissues (30 boxes/case)

Sani-Bag+® Commode Liner

- Contains a mixture of components that will reduce odor commonly associated with human waste
- Made of biodegradable plastic biopolymer (approved for use in landfills)
- Convenient sealing adhesive - allows the user to close the liner (keeping contents secure)

Sani-Bag+® commode liner saves time for other aspects of health care and reduces risk of infection. Each liner contains a waste treatment powder that gels and treats up to 32 ounces of waste, preventing backsplash and spillage. The odor neutralizer controls odors and allows for overnight and multiple usage. To use, simply open the liner into either the commode pad or bedpan, exposing the preloaded waste treatment powder. After use, simply roll top of bag toward the bottom of the bag, close it with the adhesive seal, and dispose of in the same manner as any incontinence product.

Item	Description
A60278	Sani-Bag+® Commode Liner (100 individually wrapped/case)

At Ease® Disposable Briefs "Adult One-Piece Protection"

- Refastenable tape tabs excellent for bladder/bowel training programs.
 - Full wing, contoured shape for a close, comfortable and personal fit.
 - Elastic leg gathers for leakage protection.
 - Soft inner lining prevents rubbing against delicate skin.
 - Diamond-embossed fluff wicks and locks moisture away from skin for maximum performance.
 - Ammonia neutralizing super absorbent polymer reduces odor and protects skin.
- At Ease® Adult Disposable Briefs satisfy the needs of virtually any incontinent individual. Briefs will fit any budget because there is no better value in adult incontinence products.

Item	Description
A59094	At Ease® Special Briefs - Adult, Size M Fits 32" -44" Waist or Hips (12/pack, 8 packs/case)

Universal Patient Transfer System

Features and Benefits

- Designed for smooth safe patient transfers
- Reduces caregiver back injuries
- Push/pull handle
- Flip down outriggers provide additional stability while making patient transfers
- Multi-position chair provides upright to full prone positioning for patient comfort
- Seat tilts slightly to the back to reduce sliding
- Extra-wide 20" width between arms
- Full padded removable center seat panel ideal for bathing and toileting
- Heavy-duty 5" total locking casters (locks axle and rotation)
- Fold down arms facilitate transfers
- May be used with the optional universal transfer sheet (breaks away in two sections)

The TEMPS Bed

Triage and Emergency Management Preparedness System

- Creates immediate additional bed capacity
- Assembles in less than 30 seconds
- Utilizes 5" total lock casters
- Safety belts standard
- Designed to hold X-ray film tray
- Tension adjustable patient support sling
- Mesh sling ideal for "hot zone" wash down
- 5 position elevating backrest
- Narrow profile will not block halls
- Comfortable working height
- Carry straps

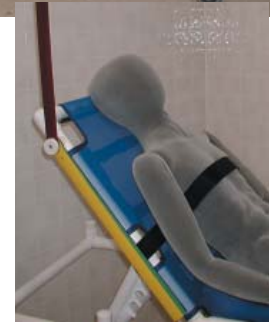

The TEMPS system provides a unique solution to triage overflow resulting from a mass casualty incident. The TEMPS system consists of an easy to assemble, knock-down patient gurney providing immediate additional bed capacity and a color coded, visual indicator providing critical triage information to medical personnel at a single glance.

The TEMPS bed is constructed of the highest quality polyvinyl chloride resin structural tubing which will not chip, dent, crack, peel, fade, stain or sustain bacterial growth. The patient support sling is a vinyl coated polyester mesh and is tension adjustable for maximum patient comfort. The TEMPS bed has been developed in conjunction with leading experts in the field of trauma and emergency medical care and has been field tested in rigorous multiple casualty disaster drills in hospitals in several states.

TEMPS beds are stored horizontally in a mobile storage rack and can be moved to any location within the hospital or triage area.

The TEMPS bed can be converted for rough terrain with optional all terrain balloon tires.

In conjunction with existing protocol, the color coded visual indicator assists in the rapid assessment and classification of patients according to the severity of their injuries. Standard colors include Green, Yellow, Red and Black. Other colors available upon request.

Overall Length	75" (6' 3")
Overall Width	25"
Working Height	31"
Standard Weight Capacity	300 lbs

Choose from the list of both Primary and Secondary titles

HICS - Hospital Incident Command System

Serious emergency situations occur when least expected, requiring personnel to perform with the utmost of efficiency and professionalism. HICS is an industry recognized organizational chart that clearly defines a chain of command to assist hospitals in managing their staff in the event of disaster. To implement this system, Brite Threads manufactures three different HICS vest models, available in color and title options to accommodate your specific program.

Color Selection

- Cloth vest, 65% cotton/35% polyester, binding available in six color options shown above.
- 100% polyester mesh vests available in Orange.

HICS A Series Vest Set

401 Features

- White cloth vest with color coded binding
- Night time reflective circles on front and back
- Includes black title on front and back
- Two front lower patch pockets
- Webbing for name tag
- Optional: one color hospital logo at additional charge

MASH POD™ Systems

- Stackble 5 high
- Waterproof
- Ozone protected
- Meets FAS and DOT guidelines

MASH POD™ SYSTEMS are smart packaging and labeling of all the essential nonpharmaceutical surge supplies needed to accommodate 25 people for 96 hours. These terms include hygiene products, bedding and beds, protective clothing, toilet paper, disposable bath towels, facial tissues, etc. All of these products when packed in the MASH POD™ SYSTEMS have an extended shelf life of at least 5 years. Multi-layer packaging is designed to protect the contents from the effects of long term storage. The outer box of MASH POD™ SYSTEMS can be used as a storage box for contaminated clothing and linens. Each MASH POD™ SYSTEMS outer box has a liner, a roll of tape and 4 biohazard labels. Once the box has been emptied of its contents, the bag can be installed in seconds and the 4 labels will warn that content may be a biohazard risk. The tape is used to secure the bag in place and to seal the box shut once filled. The MASH POD™ SYSTEMS listed are broken down into 3 different groups, each designed for 25 people for 96 hours. Group 1: Adults Only; Group 2: Pediatric Only; and Group 3: Both Adult and Pediatric.

Plastx Barricades

- Replaceable top only reflective panels prolong life of barricades
- Plastic rivets allow old panels to pop off and replacements to pop on.
- Recessed light mount provides for easy and secure light mounting (light sold separately)
- Recessed weight cartridge area allow for installation
- Type I: 12" top panel and 4" bottom panel
- Barricades measure 42" h x 24" w x 2 1/4" d
- 100% recyclable
- Type I and Type II plastic barricades are NCHRP-350 certified and meet MUTCD specifications

The Plastx Barricade is an excellent way to provide traffic control or to cordon off a hazardous area. It is constructed of a high-strength resin that withstands temperature extremes and is UV protected. Designed for easy nesting and stacking.

Item	Description
A31685	Barricade, Type I, 12" Top Panel 4" Bottom EGR Sheeting
A28325	Barricade Light (sold separately)

A-Frame Barrier System

Whether you need a long term or temporary system to cordon off an area, the patented A-frame barrier system offers an easy and convenient solution. The unique A-frame legs won't rot, rust, crack, or peel. Its unique design will hold I-beam configured boards, wood planks, or our exclusive Expand-A-Panel. This A-frame will hold all manufacturers boards.

A-Frame Legs (I-Beam not included)
Injection molded, structural foam A-frame legs are the most durable units available on the market. Mounting holes accommodate virtually all boards on the market today. Superior to blow-molded units.

Expand-A-Panels
Our patented Expand-A-Panel extends from 5' to 9'. Allows for easy storage and multiple applications. Eliminates the need for stock of multiple units.

Item	Description
A16541	A-Frame 2 Board Openings, White
A27199	8" I Beam 2 sided EGR Sheeting

Warning Flags

Reinforced heavy-duty fluorescent red/orange vinyl or heavy-duty mesh/vinyl flags. Available in 18" x 18" or 24" x 24" sizes. Hardwood dowel available in 24", 30", and 36" lengths in 3/4" diameter.

Item	Description
A21651	18" Flag with 30" Dowel

90205	1/4" x 600' Reel; Tensile Strength-1130 lbs

Pink Reflective Roll-Up Signs

Pink reflective vinyl roll-up sign allows for compact storage and is easily deployed in conjunction with the Zephyr Sign Stand. The fluorescent pink color is recommended by the FHWA for Incident Management and meets MUTCD requirements for 36" and 48" reflective signs. The plastic corner pockets hold the frame securely in place and snaps into the Zephyr sign stand's latch bracket with ease. The heavy-duty frame spills wind for increased stability and versatility in varying weather conditions. Sign storage bags are also available for both 36" and 48" roll-up signs.

Work Zone Stands

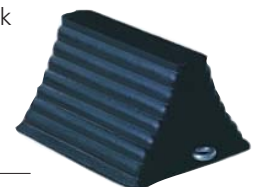

Springless Sign Stand is a super lightweight and compact sign stand for use with roll-up signs. Easy to use and easy to store, its springless design and single sign attachment point allows for quick deployment in the field. Single Spring Stand is the single spring-loaded version of our popular SZ412UB. The single coil spring adds additional weight and redundancy to compensate for increased wind loads.

Item	Description
A33771	Springless Sign Stand
A15567	Single Spring Sign Stand

Wheel Chocks

Most popular design rubber wheel chock affords maximum durability and skid protection, even under adverse weather conditions. Zinc-plated eyebolt. Weight 9 lbs.

Item	Description
90075	2048WC Heavy Duty Wheel Chock

PVC Traffic Cones and Retractable Cone Bar

PVC Traffic Cones

- "One piece design" eliminates stacking problems
- Brilliant fluorescent red/orange with UV inhibitor
- One piece construction for extreme durability under adverse weather conditions
- Superior flexibility in any kind of adverse weather conditions
- Specially designed cleated base grips the road
- Environmentally friendly - 100% recyclable!

Retractable Cone Bar

- Designed to be use with PVC traffic cones or with our N-top delineator
- Adjusts and retracts from 3' to 6' in length, complete with reflective yellow with black sheeting for maximum visibility day or night
- The cone bar has many versatile uses on road, trench or utility work, construction sites, parking lots or pedestrian areas
- Extremely portable, lightweight and easily carried or transported in a truck
- Quick to set up or remove, providing an instant and inexpensive barrier to hazardous or controlled areas
- Extremely durable - made with high quality commercial grade material to ensure the highest possible quality

Item	Description	Weight Lbs	Height Inches Top	Wall Thickness Bottom	Wall Thickness

Item	Description
40350	18" Safety Cone
40351	28" Safety Cone
40355	28" with Reflective Stripes
40360	36" with Reflective Stripes

Orange Diamond Link Fence

These high density polyethylene (HDPE) fences are very rigid and very strong. They look and feel like chain link but are all plastic. Available in OSHA orange for traditional construction applications. The link fence is used in sporting events, crowd control, parades, golf tournaments and stadiums.

Item	Description
74501	Orange Diamond Link Fence, 4' x 100'
74505	Safety Fence Post, Metal, 5'

Triangle Warning Kits

- Acrylic plastic strip reflectors, hermetically sealed and impervious to dust and moisture, unfolds to a triangular shape and are held firmly into place with a sturdy-locking device
- Interior strips of molded fluorescent plastic provide effective warning for daytime use
- Airflow design helps reduce wind resistance
- Exclusive wire bracing controls degree of tilt, even in extreme wind conditions
- High impact molded plastic box
- Easy to erect, single triangle flare unfolds from a weighted blow molded tube that serves as a base and is equipped with nonslip foam pads
- Permanently printed placement instructions on case and triangle
- Meets or exceeds all DOT standards and requirements of FMVSS125

Triangle reflector warning kits meet and exceed all DOT standards and requirements of FMVSS125. The unique one-piece living hinge box allows for thousands of openings and closings and eliminates all hinge problems that the industry has faced for years.

Triangle Erect	17 1/4" wide x 16 1/4" high
Base	17 1/8" long
Case	17 13/16" x 5 1/4" x 4 5/16"

Item	Description
A17464	Triangle Kit with Living Hinge Box (1 kit/carton)

Warning Barrier Fence

Wide grid design offers a large target area for protecting work zones and creating protective enclosures. Warning barrier is strong and flexible and its lightweight design offers the advantages of plastic safety fence with less cost. Ideal for more temporary applications.

An economical protective perimeter for:

- Open excavations
- Construction sites
- Dangerous equipment
- Hazardous work areas
- Recreation areas
- Work sites

Color	International Orange
Roll Size	4' x 100'
Mesh Opening	2" x 5"
Weight	13 lbs/rl
Breakload	MD - 1200 lbs/ft

Item	Description
57800	Orange Barrier Fence 4' x 100' Roll
59045	Metal Post for Barrier Fence, 6'

Jersey-Style Barricades with U-Connector

This multi-purpose barricade's large size makes it ideal for surrounding construction sites, controlling access to buildings, and controlling crowds. It is lighter and more easily deployed than concrete road barriers, requiring only two people to set up.

- Barricades lock together using U-connector, which is set up underneath the barricades, so it's tamper-resistant.
- Accommodates SLA solar lights
- Can be positioned individually or used in conjunction with U-connector placed under barricade to form a continuous wall
- Lights and reflective panels may be installed on the king tut style barricade
- At airports or other potential vehicular-attack targets, large, heavy barricades are easy to install and become formidable deterrents
- Not NCHRP-350 certified; not for use as a barrier or LCB for federally-funded road construction

Item	Description
A63426	42" h x 72" l x 24" w x .25" Wall
	100 lbs. Empty; 1380 lbs. Full
A63429	42" h x 96" l x 24" w x .29" Wall
	175 lbs. Empty; 1450 lbs. Full
Heavy-Duty	
A63427	42" h x 72" l x 24" w x .37" Wall

King Tut Blocks with U-Connector

Our largest barricade features a large volume design for greater water weight. Ideal for high threat and security applications. The heavy unit is fabricated for multiple deployments and maximum abuse.

- Barricades lock together using U-connector, which is set up underneath the barricades, so it's tamper-resistant.
- Accommodates SLA solar lights
- Can be positioned individually or used in conjunction with U-connector placed under barricade to form a continuous wall.
- Great per-square-foot price!

Item	Description

A63498	42" h x 72" l x 24" w x .312" Wall
	170 lbs Empty; 2240 lbs. Full

Crowd Barricades

Our crowd control barricade has many terrific features, including their ability to display graphics and signage. Easy to work with and other benefits. Setup and take down is a breeze. Barricades interlock with each other to form a continuous wall. To stack for storage, feet twist flush.

- Superior strength and lightweight
- Maintains a continuous enclosure and prevents access to secure areas
- Can be set-up in various configurations to create interlocking longitudinal barricade walls
- Available in forest green and yellow
- Sign panel area (28 ½" x 36")

Composition	High Impact UV Resistant Polyethylene
Height	42" / 106.9 cm
Length	96" / 243.8 cm
Width	2 ½" / 6.35 cm
Wall	.125" / 3.175 mm
Weight	Empty 33 lbs. / 15 kg
Ballasted with water	57 lbs. / 26 kg
Can be ballasted with approximately 3 gallons of water to a filled weight of approximately 57 lbs. per barricade.	

Item	Description
A63418	Crowd Control Barricade, Forest Green

Safety Horn

The Falcon Safety horn is your cost effective, quality solution for your company's signaling needs. Our alarm systems are long lasting, powerful, portable and can be set up in many different configurations. Our alarm horns are loud enough (delivers a piercing 120 dB blast at 10') to be heard over machinery and other industrial noise. The Mighty Sonic horns are totally independent of any other power requirement. Lightweight, portable and dependable, these powerful, all-plastic horns will deliver hundreds of 2-second blasts from each replaceable 8 ounce canister. When a screaming blast is needed to get fast action, the practical device to get is a Mighty Sonic horn.

Typical uses include

- Security guards
- Hazardous area workers
- Workers in remote areas
- Heavy-duty machinery operators

Item	Description
90202	Mighty Sonic (Ozone-Free) Horn
90203	Mighty Sonic (Ozone-Free) Horn Refill

2700 Series N95 Particulate Respirator

For metal working, grinding, sanding, sweeping, bagging, foundries, ceramics/ cement manufacturing, construction sites, timber/lumber mills, agriculture and textile manufacturing.

Item	Description
69606	N95 Particulate Respirator (10/bx)

8670F Particulate Respirator

- Unique, three-panel flat fold design for convenient storage
- Individually packaged in sealed pouches to help ensure product cleanliness during storage and transport

Item	Description
A59345	8670F N95 Particulate Three Panel Respirator for Public Health Medical Emergencies (20/box)

8612F Particulate Respirator

- Pre-molded, cup style structure to provide a snug fit
- Braided headbands for comfort against the face and hair

Item	Description
A62605	8612F N95 Particulate Respirator for Public Health Medical Emergencies (20/box)

1860 N95 Particulate Respirator

The 1860 healthcare particulate respirator and surgical mask is NIOSH approved as a Type N95 respirator. It meets CDC guidelines for TB exposure control and is designed specifically for use in a health care setting. The 1860 mask has a filter efficiency level of 95% or greater against particulate aerosols free of oil. It is fluid resistant, disposable and may be worn in a surgical setting. The 1860 and 1860S fit a wide range of face sizes, including small.

Item	Description
52950	1860 N95 Particulate Respirator and Surgical Mask (20/bx)
52951	1860S N95 Particulate Respirator and Surgical Mask, Size Small (20/bx)

Flat-Fold Disposable N95 Masks

- NIOSH approved
- Individually wrapped
- Pictorial donning instructions
- Extra heavy rubber bands
- Heat sealed instead of stapled
- Heavy foam guard protection for the nose
- Diamond stamped keeps respirator fully expanded
- Top mounted exhale valve for extended use available

Item	Description
A24137	Flat Folded N95 Mask without Exhale Valve (20/bx)
A25603	Flat Folded N95 Mask with Exhale Valve (12/bx)

3M™ Filtering Facepieces

All 3M™ products shown in this catalog must be used in accordance with OSHA regulations and the user instructions, warnings, and limitations accompanying each product.

8210 – N95 is designed for grinding, sanding and other dust producing operations. Adjustable nose clip helps provide custom fit and secure seal.

Item	Description
52200	8210 N95 Particulate Respirator (20/bx)

8511 – N95 ideally suited for work settings that involve heat, humidity and long periods of wear. Designed with M-nose clip and Cool Flow™ exhalation valve reduces heat and humidity for longer comfort and increased wear time.

Item	Description
52373	8511 N95 Particulate Respirator (10/bx)

3M™ Particulate Respirator 9210, N95

Designed uniquely to help provide comfortable, reliable worker protection against nonoil based aerosols. Respirators are individually packaged to help prevent contamination during storage and allow for easier dispensing.

Item	Description
52781	9210 N95 Particulate Respirator, Three Panel (20/box)

9211 N95 with Cool Flow™

9211 – N95 is similar to 9210 with Cool Flow™ exhalation valve. Individually packaged.

Item	Description
52753	9211 N95 with Cool Flow™ Exhalation Valve (10/bx)

3M™ Particulate Respirator 8110S, N95

8110S – N95 is designed for people with smaller faces. It helps provide worker protection against certain nonoil based particles.

Item	Description
52381	8110S N95 Particulate Respirator, Size Small (20/box)

2300 Series N95 Particulate Respirator

Ideal for welding, brazing, soldering, torch cutting, metal pouring, grinding, sanding, stone quarrying, metal machining, cement operations, underground mining, sweeping, bagging, polishing, buffing, lime, poultry operations, textile industry and furniture manufacturing.

Item	Description
52650	N95 Particulate Respirator (10/bx)

Procedure Mask

According to the Center for Disease Control (CDC) facemasks help stop droplets from being spread by the person wearing them. They also keep splashes or sprays from reaching the mouth and nose of the person wearing the facemask.

Our classic 3-ply style pleated design ear loop procedure face masks are fluid resistant, disposable and provide additional respiratory protection against the spread of bacteria or viral infection. Facemasks should be used once and then disposed.

Item	Description
A24139	Foldable Ear Loop Procedure Mask (2,000/cs)

Child Face Mask

- Designed specifically to fit small faces
- Designed with lightweight materials providing a cool, comfortable fit
- Natural rubber latex free
- Comfortable knitted ear loops
- Formable nose wire
- Features colorful, playful designs

Item	Description
52047	Child Ear Loop Face Mask (75/box)

5400 Series Full Facepiece

Soft, lightweight elastomeric full facepiece, equipped with oral/nasal cup to reduce fogging. Compatible with all North cartridges and filters.

- Cartridges not included.

Item	Description	Size
52551	5400 Series Full Facepiece	Small

3M™ Half Facepiece Respirator, 5000 Series, Disposable

NIOSH Approval (for respiratory protection against the following contamination up to 10X PEL with half facepiece respirators or according to specific OSHA standards or applicable government regulations, whichever is lower.)

Certain organic vapors, chlorine, hydrogen chloride, and sulfur dioxide or hydrogen sulfide (escape only) or hydrogen fluoride

- Pharmaceutical
- Petrochemical
- Utilities
- Aluminum reduction
- Chemical
- Laboratories
- Pulp and paper

Item	Description
52283	5103 Half Facepiece, Size Small (ea) with OV/AG filters
52284	5203 Half Facepiece, Size Medium (ea) with OV/AG filters
52285	5303 Half Facepiece, Size Large (ea) with OV/AG filters

(a) All half facepiece respirators and respiratory/filter assemblies can be used up to the NIOSH approval limits, 10 times the permissible exposure limit, or the maximum use concentration allowable in applicable OSHA standards, whichever is lower. (b) OSHA regulations require gas-proof goggles be worn with half facepiece respirators when used against formaldehyde.

Before using these respirators, you must determine the following:

- 1 The type of contaminant(s) for which the respirator is being selected.
- 2 The concentration level of that contaminant(s).
- 3 Whether the respirator can be properly fitted on the wearer's face. All respirator instructions warnings and use and time limitations must also be read and understood by the wearer before use.

⚠ WARNING

These respirators help reduce exposure to certain airborne contaminants. Misuse may result in sickness or death. Before use, the wearer must read and understand User Instructions provided as a part of product packaging. Time use limitations may apply. Call 3M OH and ESD Technical Service at 1-800-243-4630. In Canada, call 1-519-452-6137 or 1-800-265-1840, ext. 6137.

All 3M™ products shown in this catalogue must be used in accordance with OSHA regulations and the user instructions, warnings, and limitations accompanying each product.

3M™ Filtering Facepieces

All 3M™ products shown in this catalog must be used in accordance with OSHA regulations and the user instructions, warnings, and limitations accompanying each product.

3M™ Half Facepiece 6000 Series, Reusable

- Versatile, ease of use
- Easy to maintain
- Lightweight, comfortable
- Reusable, just replace cartridges/filters

Item	Description

All 3M™ products shown in this catalog must be used in accordance with OSHA regulations and the user instructions, warnings, and limitations accompanying each product.
 * Nuisance levels refers to concentrations not exceeding OSHA PEL or applicable government occupational exposure limits, whichever is lower. Relief refers to the irritating effects of the gas or vapor identified, and not to respiratory protection.
 OSHA regulations require gas-proof goggles be worn with half facepiece respirators when used against formaldehyde.

3M™ Powerflow™ Powered Air Purifying Respirator (PAPR)

The 3M Powerflow PAPR is an outstanding powered air purifying respirator, with no breathing tube, no supplied air hose. Workers can wear this respirator all day without the fatigue associated with negative pressure respirators.

Operation Limitations

- Not for use in atmospheres containing toxic gases and vapors
- Not for use in IDLH atmospheres as a result of the following, or any other circumstances: contaminant concentration, contaminant identity, & oxygen deficiency
- Provides protection against dusts, mists, fumes, asbestos, radionuclides, and radon daughters

Airflow: The 3M Powerflow PAPR delivers minimum 4 cu. ft. (115 liters) of air/minute when used with required HEPA filter 450-01-01R20.

Battery Pack: Nickel Cadmium Rechargeable Battery Pack BP-17IS provides up to 8 hours use per charge. Two years expected battery life with normal use.

Filtration Limitation: Approved for respirator protection against dusts, fumes, and mists having a time-weighted average less than 0.05 milligrams per cubic meter or 2 million particles per cubic foot, radionuclides and radon daughters attached to the above; and for respiratory protection against asbestos-containing dusts and mists.

3M™ Powerflow™ PAPR System Package
Includes: flow meter, full facepiece, battery charger, motor/airflow unit, SP3 HEPA filter, and battery pack.

ANSI Z87.1-1989 (eye/face protection)

All 3M™ products shown in this catalogue must be used in accordance with OSHA regulations and the user instructions, warnings, and limitations accompanying each product.

Breathe Easy™ (RBE)

3M™ is pleased to announce the following National Institute for Occupational Safety and Health (NIOSH) Chemical, Biological, Radiological and Nuclear (CBRN) approved 3M™ RBE PAPR Systems: 3M™ RBE-L10 with Primary Lithium Battery and 3M™ RBE-NM10 with NiMH Battery. These powered air purifying respirator systems help provide protection against CBRN particulates, gases and vapors. Uniquely designed for first responder, first receiver and public health professionals.

- Provides a continuous flow of filtered air
- The belt-mounted power unit is lightweight and comfortable
- Approximate weight is 8 lbs.

Features and Benefits

- Approved to NIOSH CBRN Loose-Fitting PAPR Standard
- 3M™ Cartridge RBE-57 meets NIOSH CBRN "Cap 1" requirements against stringent test chemical agents; high efficiency particulate filtration (99.97%)
- Lightweight, one size butyl rubber hood provides a wide field of vision, no fit test requirements and ability to use with eye glasses and facial hair
- Continuously filtered airflow for maximum comfort to help workers focus on their jobs for longer periods
- System functions with two battery options:
 - Lithium Battery – up to 12 hours of use
 - NiMH Battery – up to 8 hours of use and 90% charged in 2 hours
- 3M duffle bag safely stores the system in one place and allows for quick access in an emergency
- 3M's unmatched customer service and technological expertise offers customers peace of mind

Breathe Easy™ Training Kit

Complete Training Kit for Breathe Easy™ PAPR Butyl Rubber Hood System purchased with lithium battery.

Consists of

- (1) Training Battery D-Cell Pack
- (2) Sets of Batteries (15 hours)
- (1) Breathing Tube Assembly to fit
 - (1) QC TYVEK® Hood
 - (3) Training NBC Cartridges

Item	Description
90966	Breathe Easy™ Training Kit
Optional Replacement Parts	
52750	Breathing Tube Assembly
52751	QC TYVEK® Hood with Cape
52384	3M™ Butyl Hood with Cape
80710-54	SP3 Training Cartridges

FlexAir™ PAPR

NIOSH Approved: YES

The FlexAir™ PAPR by SafetyTech International is an extremely versatile, high air flow system that can be used for biological and particulate protection in a two filter configuration or converted to a 3 cartridge system providing protection against TICS (Toxic Industrial Chemicals) TIMS (Toxic Industrial Materials).

Key Features:

- High Air Flow
- Lifetime Li Ion Battery
- On board battery provides 8 hours
- Very Lightweight
- 2 or 3 filter convertibility
- One-size-fits-all visor style head cover, cape styles also available
- Lightweight Breathing Hose
- Independent Low Battery and Low Flow Alarm
- Microprocessor Controlled
- No Fit Testing Required

The FlexAir™ PAPR System has completed NIOSH approval to 42 CFR Part 84

Item	Description
A63925	FlexAir™ PAPR System with Visor Style Universal Loose Fitting Head Cover with (2) NiMH rechargeable batteries and charger.
Accessories	
A63926	FlexAir™ Loose Fitting Head Cover - Cape Style, Large, White
A63927	HEPA High Efficiency Particulate Filter (2 required)
A63928	NiMH 4-Position Batteries and Charger (110-230-VAC)
A63929	LiSO2, Non-rechargeable, Lithium Disposable Battery
A63931	D-Cell Battery Pack Adapter – holds (4) D-Cell Batteries (batteries not included)

The Sentinel XL™ CBRN System

This state-of-the-art high performance PAPR is designed to meet the needs of first receivers and other first responders. The unit incorporates a unique "lay flat" butyl hood designed to stow neatly in a NIOSH approved backpack. The system is also NIOSH approved in a belt mounted configuration. The blower delivers high flow rates and incorporates a low voltage alarm/light to alert the user when approximately 30 minutes of acceptable battery performance remains. (NIOSH CBRN Approved TC-23C-2312).

Item	Description
A24351	The Sentinel XL™ CBRN Deluxe System, White Hood

The Sentinel XL™ HP System

- Single size head cover eliminates need for multiple sizing; simplifies the job of outfitting your staff
- Colorful head cover option creates a more "patient friendly" look (head cover also available in white)
- Quick-loc™ belt simplifies use, adjustment, and cleaning while greatly expediting the donning process
- Low voltage alarm alerts the user when 30 minutes of battery life remain
- Sentinel HP uses the same blower as our Sentinel CBRN system which offer the most protective capacity (Cap 2) of any loose fitting PAPR
- P100 filter elements offer the highest HEPA protection available
- Batteries and filters are easily accessible, reducing the "downtime" needed to maintain the system
- NiMH rechargeable batteries are durable, long-lasting, and maintenance free

Item	Description
A62404	Sentinel XL HP Standard System, White Hood
A62406	Sentinel XL HP Standard System, Pattern Hood

SCape CBRN 30

The SCape CBRN 30 is the only NIOSH approved Air-purifying Escape Respirator (APER) with a built in blower that automatically actuates as the product is being removed from the protective case. This feature delivers enhanced protection and reduces the claustrophobic feelings associated with other hoods.

Tested and proven for UNPARALLELED protection, factor testing was completed in accordance with NIOSH Laboratory Respiratory Protection Level (LRPL)

test protocol. This test was conducted by the U.S. Army at the Edgewood Chemical Biological Center in Edgewood, Maryland. Results of the testing demonstrate that extremely high levels of protection are provided by SCape® CBRN30. An average fit factor¹ (FF) of 97,953 was achieved for the 60 test trials. 52 of the 60 trials had an FF of 100,000 or greater. The minimum FF measured was 66,143—far exceeding the NIOSH FF requirement of 2,000 or greater.

¹ Fit Factor is defined as the ratio of the challenge concentration outside the hood to the concentration inside the hood.

Automatic Blower Actuation	Fool-proof operation. Blower automatically starts when hood is removed from case. User only has to put on the hood to be protected.
One Size	Eliminates logistical issues stemming from multiple sizes
No Nosecup or Mouthbit	Eliminates sizing difficulties. Dramatically improves communication— even with telephones, cell phones and other communication devices
Blower Indicator Light	Allows users (including hearing-impaired individuals) to determine that product is operating.
Comfortable Neck Seal	One size neck seal. Beards/glasses/long hair accommodated easily. Not possible with faceseal mask. Very comfortable.
Clear Hood/ Large Visor	Allows user to perform a wide range of tasks including reading, driving, etc. Total facial recognition.
Quiet 64 lpm Blower	Delivers reliable protection with minimal training. Eases physiological burden on user. Reduces claustrophobic feelings associated with other hoods. Aids breathing for those with respiratory issues (e.g. asthma)
Filter Canister	Military grade canister provides protection against a range of military agents and NIOSH TRAs (filter data). HEPA filter provides biological/ radiological/particulate protection.

Economy Coarse Sweeping Floor Brushes

Floor brushes are perfect for all types of clean-up. The brush blocks are kiln-dried and are made of top quality hardwood. Our floor brushes are designed to tackle any job. Handles sold separately.

Item	Description
75224	12" Tampico Floor Brush
75220	18" Tampico Floor Brush Soft
75219	24" Tampico Floor Brush Soft
75215	36" Tampico Floor Brush Fine
57288	60" Metal Threaded Wood Handle

Bristle Broom

Item	Description
57080	18" Stiff Bristle Broom with Handle
57081	18" Soft Bristle Broom with Handle

Reusable Floor Brush Braces

Sturdy, metal-plated (rust resistant) brace provides additional support. Fits all handle sizes.

Item	Description
75218	Reusable Floor Brush Brace

Upright Corn Brooms

Upright brooms are excellent for a wide variety of applications: wet sweeping, heavy industrial use and all-purpose easy sweeping.

Item	Description
57236	Upright Corn Broom

Dust Pans

Metal—Heavy duty 12" dust pan, ribbed for extra strength.

Plastic—Constructed of tough yet flexible black plastic with thin front edge for maximum dirt pickup.

Item	Description
57337	Metal Dust Pan
75127	Plastic Dust Pan

Wet Floor Sign

- Bright yellow floor sign communicates the necessary warning message to help maintain safety
- Bilingual

Item	Description
57317	Wet Floor Sign

Tri-Cone

41" high safety cone with universal caution symbol on all three sides. Accommodates lock-on warning signs (S122-1RD), a ring weight (W122BK fits 122YW only), barrier chain (C123-2YW) and common barrier tape for cordoning off an area.

Item	Description
A58047	Tri-Cone (41")

35 Quart Mop Bucket with Wringer

35 quart bucket with 3" nonmarking grey castors and side press wringer.

Item	Description
57582	35 Quart Mop Bucket with Wringer

Quick Change Mopstick

- Durable, yet lightweight, 60" long x 1" diameter fiberglass handle with swivel hang cap
- Easy trigger release allows user to quickly discard soiled mophead
- Heavy-duty black plastic frame
- Can be used for all mop heads up to 28 oz.

Item	Description
A56415	Quick Change Mopstick

Mop Head

Industrial mop head of cotton/nylon blend. Special blend adds strength and durability (handle sold separately).

Item	Description
57084	Mop Head #20

Economy Cut End Mop Head

- Good for general purpose mopping
- Economical; cut-end 4-ply cotton yarn
- 1 1/4" narrow white band

Item	Description
A56451	Economy Cut End, 24#

Cotton Loop Ended with Wide Band

- Excellent for general purpose mopping
- Loop ended 4-ply cotton yarn
- 1 1/4" narrow red band

Item	Description
A56447	Cotton Loop Ended with Wide Band—Large

Rayon Loop Ended Mop Head

- Use for general mopping or finish application
- High quality 4-ply rayon-synthetic yarn
- No raveling, no tangled ends; launderable

Item	Description
A56404	Rayon Loop Ended—Large

Premium Loop Ended Mop

- Highest quality cotton/synthetic blend yarn
- Color coded for use segregation
- For hospital and institutional use

Item	Description
A56400	Premium Loop Ended—Large

Nylon Finishings Loop Ended Mop Head

- Designed specifically for floor finish application
- 100% Nylon "soft touch" yarn maximizes release of floor finishes
- Saves labor and improves performance

Item	Description
A56406	Nylon Finishings Loop Ended—Medium

Microfiber (Launderable) Loop Ended

- Microfibers grab and hold dust
- Machine washable and reusable

Item	Description
A56409	Microfiber Loop Ended—Large

Urinal Screen

Blue vinyl urinal screen has 30 days of built-in deodorant. Universal shape fits most urinals. Floral scent.

Item	Description
A58031	Urinal Screen

Urinal Screen with Scent Block

4 oz. enzymatic deodorant block contains surfactants and chelating agents to clean and deodorize for 30 days (up to 2,000 flushes). Increased ventilation reduces potential splash back and flexible screen traps more debris to prevent costly drain clogs. Block packed in environmentally safe PVA water-soluble film.

Item	Description
A57556	With Scent Block-Cherry (12/pk)
A57557	With Scent Block-Lemon (12/pk)

Hanging Toilet Deodorizer

Enzymatic deodorant block contains surfactants and chelating agents to clean and deodorize for up to 1,500 flushes-bluing agents are released with each flush so you know that it's working. Block packed in environmentally safe PVA water-soluble film.

Item	Description
A57601	Hanging Toilet Deodorizer-Cherry
A57602	Hanging Toilet Deodorizer-Lemon

Single Roll Dispenser

Zinc die cast bright chrome finish, concealed hinge button behind roll, tension spring controls tissue flow. Single or double roll capacity.

Item	Description
A57836	Single Roll Dispenser

Plunger

For drains or toilets. 20" wood handle with 4" high, 6" diameter plunger.

Item	Description
A57555	Plunger

Hand Soap Dispenser

Tamper and theft proof. See through gauge and top fill with service key, for soaps, detergents or lotions, 40 oz. tank. Stainless Steel.

Item	Description
A57554	SS Hand Soap Dispenser-Horizontal

Towel Dispenser

- Holds multi-fold or c-folds
- No adapters needed
- Security key lock

Item	Description
A57604	Towel Dispenser

Roll Towel Dispenser

Automatic feed lets you load with one hand! Eliminates waste by dispensing one 8" diameter roll (up to 1000 ft.). Easy lever operation. High impact plastic with metal key operated lock. Includes mounting hardware. Smoke/grey.

Item	Description
A57834	Roll Towel Dispenser

Jumbo Roll Dispenser

Fits 1000' jumbo toilet rolls.

Item	Description
A57832	Jumbo Roll Dispenser

Toilet Seat Cover Dispenser

Push lever dispenses 1 seat cover at a time. Mounting screws included. Available in smoke/grey.

Item	Description
A57603	Toilet Seat Cover Dispenser

Custodial Caddy Bag

Add this adjustable 10 pocket caddy bag to a round or square container on a dolly and you've got a durable cleaning system ready to make the rounds. Made of nylon reinforced PVC for years of reliable service.

Item	Description
A57559	Custodial Jani Bag

Round Trash Container

Molded of engineered resins with seamless construction, this container is a strong, long lasting receptacle used by virtually every industry. From food prep to foundries, from refuse to bio-hazard waste, this container keeps on working. Stackable with lid on, nestable with lid off.

Item	Description
Container, Grey	
A57607	20 Gallon
75382	32 Gallon
A52220	44 Gallon
A52307	55 Gallon
Flat Lid, Grey	
A57569	Fits 20 Gallon
A57570	Fits 32 Gallon
A57571	Fits 44 Gallon
A52312	Fits 55 Gallon
Dome Top Lid, Grey	
A57572	Fits 32 Gallon
A57574	Fits 44 Gallon
A57597	Fits 55 Gallon

Round Container Dolly

The twist-on, twist-off dolly converts a stationary container into a mobile hard working tool. It fits the 20, 32, 44 and 55 gallon container and features five, 3 inch non-marking swivel casters.

Item	Description
A47605	Round Container Dolly

Waste Receptacle

These square containers provide 25% more capacity which equates to labor and poly liner savings. The rolled rim provides strength and a convenient area to lift or pull. Reinforced base will take rough commercial use and they nest for easy storage. Compatible with Drop Shot lids (see below).

Item	Description
A57824	Waste Receptacle (25 gallon)
A57825	Waste Receptacle (32 gallon)

Drop Shot Lid for Waste Receptacle

Fits 25 and 32 gallon waste receptacles.

Item	Description
A58000	Drop Shot Lid for Receptacle

All Purpose Pail with Pour Spout

Features durable steel handle and built-in pour spout - 10 quart.

Item	Description
A56423	All Purpose Pail with Pour Spout

19 Quart Divided Pail

Rugged commercial buckets with insulated hand grips. Divided pail allows separation of cleaning solution from rinse water.

Item	Description
A56425	19 Quart Divided Pail

Disposable Towels

Disposable and durable. Soft and absorbent.

Item	Description
57032	White Air Lay Towels (10 lb box)
57135	White Scrim Reinforced Towels (10 lb box)
57033	White Supersorb Towels (300/cs)

Colored T-Shirt Rags

- Cut from multi-colored cotton shirts
- Ideal for general cleaning, spills, staining

Item	Description
57086	Colored Cotton Rags, 50 lb Box

Poly Tilt Truck

Ideal for transporting, storing, or disposing of waste bulk material.

Item	Description
75402	Poly Tilt Truck (1,000 lb capacity)

Plastic Box Utility Trucks

5" casters mounted on 5-ply plywood base for extra rigidity.

Item	Description
75399	96 Gallon, 550 lbs 12 Bushel
75400	160 Gallon, 600 lbs 20 Bushel

Folding Cart with Bag

Structural plastic frame folds for storage and includes a 6 bushel vinyl bag. Vinyl replacement bags available.

Item	Description
A58018	Folding Cart with Vinyl Bag
A58022	Vinyl Bag Replacement
A57559	10 Pocket Caddy Bag

Folding Cart Frame with Support Shelf & Duck Bags

These durable, sturdy folding carts have steel frames.

Choose between a 6 bushel or 10 pocket duct bag (sold separately).

Item	Description
A57560	Folding Cart with Shelf
A58028	6 Bushel Duck Bag
A58029	10 Pocket Duck Bag

One Handle Platform Truck

Structural plastic construction and rounded corners protect against accidental wall and door damage. Plastic construction will not rust, dent, crack, chip, peel or splinter unlike conventional metal or wood.

Item	Description
A51387	30" x 60", 700 lb Capacity, 5" Castors
A57546	30" x 60", 1,200 lb Capacity, 6" Castors
A57547	30" x 60" 2,200 lb Capacity, 8" Castors

Gojo® FAST WIPES® Hand Cleaning Towels

- Ideal for workbenches
- Cleans dirt, grease, and grime

Hand cleaning towels. For quick cleanup of light greases and oils. For use in service vehicles, on the workbench, at the job site and wherever water is not available.

Item	Description	Dim LxW	Qty./Pkg.
40075	Fast Wipes Bucket	9" x 10"	225

Metal Mopstick with Wood Handle

- Plated steel wire head with spring action that locks mophead in place
- Chrome head for corrosion resistance
- 54" long x 1 1/8" diameter handle
- Can be used for all sizes of mopheads

Item	Description
75331	Metal Mop Handle

Drapery Brush/Counter Brush

Counter brushes have a kiln-dried hardwood with a clear moisture-resistant sealer that will resist oils and chemicals.

Item	Description
57237	Drapery Brush/Counter Brush 8"

Lynx Citrus Cleaner and Degreaser

- Removing spray glue
- Citrus fragrance
- Cleaning stainless steel
- Removing grease

Item	Description

Chemical Management is a . . . SNAP!® A High Performance System

*Fast, Easy & Accurate Portion
Control with NO Chemical Contact*

Chemical management relies on portioning systems to give you control of critical maintenance factors - cleaning performance, labor costs, and chemical usage.

SNAP! is the latest RMC innovation in chemical management and is comprised of a unique, high-tech Dispensing Unit and RMC's comprehensive line of high performance cleaning chemicals contained in special SNAP! Cartridges. Together, the SNAP! Dispensing Unit and the SNAP! Cartridges make for the safest, most accurate and economical chemical management system available.

SNAP! dispenses multiple products with patented no chemical carryover technology. One unit handles all SNAP! products.

Built-in flow control eliminates water pressure problems and gives accurate and consistent dilution every time.

Press for controlled bottle fill or lock-on for handsfree bucket or auto scrubber fill.

SNAP! Cartridges snap securely in place.

SNAP! Mobile Unit

- Dual Flow Rates
- Bottle, Bucket and Scrubbers Fill
- Built-in Back Flow Prevention
- Dispenses Any SNAP! Product
- Complete with Quick Disconnect
- No Assembly Required

MERC System - I / II / III

Mortuary Enhanced Remains Cooling System

- Small storage footprint
- Superior to large space walk-in coolers
- Energy efficient/economical (220V / Single Phase outlet)
- Portable
- Self sustaining system (Shelters or harden facilities not required)
- Low Cost (\$1500.00 - \$2300.00 per remains)
- Transportable
- Rapid setup time (15 minutes)
- Secure/contains evidence which may be present within clothing or on the remains for law enforcement/ forensic investigative personnel
- Contains no toxin chemicals, environmentally friendly*
- Remains can be added and removed without compromising system

* Materials safety data sheets (MSDS): DowFrost #597499/#1201786 available upon request

With the threat of another mass fatality incident still looming, the requirement for portable mass fatality cold storage is a requirement for a truly effective response plan. As a leader in portable mortuary response equipment MRS has developed the solution. To this day, the only equipment available to solve the issue of mass fatality cold storage is oversized walk in refrigerators or refrigerated tractor trailers. Both are functional solutions but also have severe drawbacks when responding to any mass fatality incident. Using liquid cooling technology and specifically designed cooling bags, MRS has developed the MERC System to provide the total solution to mass fatality response. The MERC System is the only system available that does not use chilled air to provide cooling of human remains.

Cooling Systems

- Is the heart of the MERC System®
- System is designed to handle a wide variety of commercially available liquids, chilling the liquid down to an operator temperature
- Fluid is transferred through a system manifold and out to the remains cooling bag
- The liquid removes the heat from the remains and returns the heated fluid to the system to be rechilled

Cooling Bag

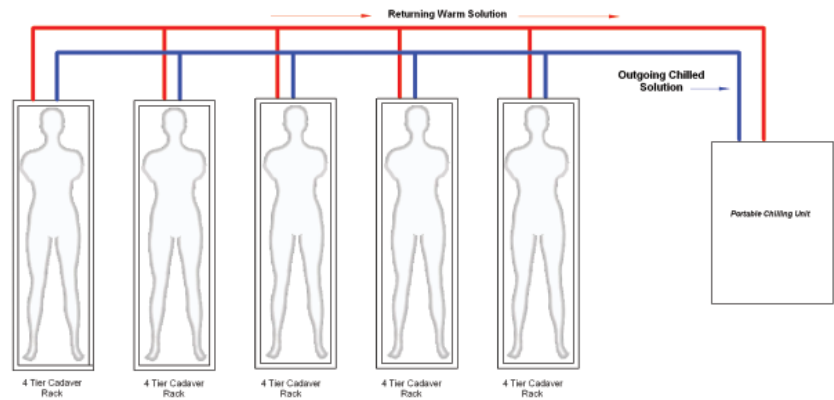

- The remains chiller bag is the primary bag that provides the remains cooling
- Exterior - .020 gauge vinyl with interior vinyl liner
- - 6 Carry handles; Envelope style zipper with 2 pulls
- Interior - (2) Polyurethane cooling pads
- - Activated charcoal filter for odor control
- All components are removable and replaceable

Cadaver Storage Rack

- All steel construction, 1500 lb. capacity
- Compatible with the MRS transfer board, Raven litter, Talon litter and any mortuary storage tray or spine board up to 24" wide

Transfer Board

- Transfer board for cadaver rack

gelFAST™
anywear

Need it: When hand hygiene is needed, gelFAST is there, always in the same place, always ready for better hand hygiene.

Do it: gelFAST is always accessible – with one quick squeeze, an instant dose of alcohol gel is exactly where you need it.

Done! Hands are rubbed together as alcohol gel evaporates. Hands are clean, and better hand hygiene happens.

Alcohol-based gel is widely used in hospital facilities around the world, and has become the standard for hand hygiene. Get gel where it needs to be faster and more easily than was ever possible. Clinical studies have shown that gelFAST's ergonomic design increases hand hygiene. Near instant initiation of the handwashing process facilitates the development of instinctive handwashing habits (muscle memory), helping facilities achieve their patient safety goals.

Item	Description
A58679	gelFAST™ Hand Sanitizer Starter Unit
A63304	gelFAST™ Refill Cartridge

Purell Instant Hand Sanitizer with Moisturizers and Vitamin E

America's #1 instant hand sanitizer. Kills 99.99% of most common germs that may cause illness. Works in as little as 15 seconds. No water or towels needed. Specially formulated with moisturizers to leave hands feeling soft and refreshed.

Item	Description
40074	PURELL® 8 fl. oz Pump Bottle

Hand Sanitizer

Waterless alcohol hand sanitizer that is effective, and kills 99.99% of most common germs that may cause illness, in as little as 15 seconds. Flip top cap makes it very convenient to carry with you! Kills harmful micro-organisms on the hands within seconds.

Item	Description
40670	Alcohol Based Hand Sanitizer (4oz squeeze bottle)

Individual Pouch P.A.W.S.™

Introducing new formula P.A.W.S.™ antimicrobial hand wipes! Now formulated with 66.5% ethyl-alcohol to help you meet CDC, APIC and OSHA hand washing recommendations and aloe vera to add moisture with each use. The individually wrapped P.A.W.S.™ towelettes now come in a convenient new smaller pouch and box. P.A.W.S.™ wipes not only kill 99.99% of germs, but they also remove debris and soil from hands and under fingernails, an important function in the absence of soap and water. P.A.W.S.™ has demonstrated virucidal activity against HIV and Avian Flu A in 15 seconds.*

*Results of in vitro time kill test studies

Item	Description
A63154	A Individual Pouch P.A.W.S.™ Fresh Scent (100/box; 10 boxes/case)
A63155	B P.A.W.S.™ Fresh Scent pull-out tub, 50 ct (12/case)
A63156	C P.A.W.S.™ Fresh Scent pull-out tub, 160 ct (12/case)

Hand Sanitizer Unit Dose in Dispenser Box

Convenient 144-count dispensing carton is ideal for first aid stations, school and occupational health nurses, and medical offices. Kills 99.9% of germs without water. Packaged in a 0.9 gm unit dose packet for quick clean-up individual application and no cross contamination. Active ingredient: Ethyl Alcohol. Also contains Vitamin E and Aloe.

Item	Description
A73493	Hand Sanitizer Unit Dose in Dispenser Box 144-count box

Sani-Hands II

These premoistened hand sanitizing wipes are formulated for use in food service areas of restaurants, supermarkets and institutional feeding. They are convenient, safe, gentle and kill germs that may cause illness. They contain an emollient to prevent skin from drying.

Item	Description

Sporicidin® Disinfectant Towelettes

Sporicidin® Disinfectant Towelettes are EPA registered to clean, disinfect and deodorize. The jumbo towelettes were designed specifically for restoration applications and provides a textured side for more aggressive cleaning and a soft side for gentle cleaning. The solution is noncorrosive to surfaces including plastics, latex, vinyl, glass, wood, metal, porcelain. It provides continuous residual antimicrobial activity for up to 6 months.

Item	Description
57653	Disinfectant Towelettes (180 wipes)

ShockWave™ Disinfectant and Sanitizer

Available in Concentrate and Ready-to-use ShockWave is an EPA-registered, quaternary ammonium chloride cleaner, disinfectant and sanitizer designed for use on various surfaces subject to microbial contamination. ShockWave is a concentrated formula that will disinfect hard, nonporous surfaces, and also sanitizes porous and semiporous surfaces. ShockWave is especially useful as an all-in-one product for treating wood structural members, carpets, and other porous and nonporous surfaces as part of a complete mold remediation project.

ShockWave is designed to be diluted two ounces per gallon of water*, yielding 64 gallons of usable product per gallon of concentrate, making it an economical solution for your cleaning, disinfecting, and sanitizing needs. ShockWave is available in 1 gallon jugs and convenient 10 ounce bottles, the proper amount for five gallons of usable product.

- Influenza A - Brazil Virus
- Influenza A2 - Asian Virus
- Influenza C Virus (Taylor Strain)
- Influenza A/ Victoria (H3N2) Virus
- Influenza B Virus (Allen Strain)
- Parainfluenza Type 1
- MRSA
- Norwalk Virus
- Hepatitis-B/C
- HIV
- E. coli
- Salmonella

When demonstrating efficacy ShockWave was tested successfully in the presence of a 98% organic soil load as opposed to the EPA minimum and industry norm of 5%. In these conditions a "real world" situation, where organic material does not self-dilute down to 5%, is more closely replicated in the laboratory. Although the EPA does not require such extreme testing, and no other manufacturer attempts this, it is the only way to demonstrate how effective a product will be when used in actual field conditions.

ShockWave Concentrate (dilute 2-4 oz. per gallon) in 1 gallon and 10 ounce containers. For the simplest possible dilution method, empty one 10 oz bottle into an empty 5 gallon pail, add water until full, and mix. Perfect dilution every time.

ShockWave RTU is available in 1 gallon bottles and 5 gallon pails

* ShockWave Concentrate and ShockWave RTU registration pending in California

Item	Description
57563	ShockWave™ (1 gallon, 4/cs)
57564	ShockWave™ (10 oz, 24/cs)
A27495	ShockWave™ RTU (1 gallon, 4/cs)
A27092	ShockWave™ RTU (5 gallon)

- EPA-registered to kill mold
- Low voc & low odor
- Contains no toxic heavy metals
- Prevents mold growth on coating surface
- Proven efficacy through independent laboratory testing

Microban QGC

EPA Registered. Wide spectrum quaternary germicidal cleaner, proven effective against a wide range of organisms including: staph, strep, E.coli, MRSA, pseudomonas, influenza, herpes, HIV-1 (AIDS virus), mold, mildew, fungi, etc. Versatile use on a wide range of nonporous and porous surfaces. Labor saving—cleans and disinfects in one operation. Use in pressure washers, ultrasonic cleaning equipment, sprayers, or with disposable wiping cloths. Economical—sanitizes at ½ ounce per gallon. Approved for use in crime scene cleanup, cleaning and decontamination against HIV-1 (AIDS virus). For use following water damage, sewer backups, pet accidents. May be added to carpet cleaning solutions, laundry, RV holding tanks etc. Fragrances: Lemon and mint.

Item	Description
A16845	QGC-Lemon (1 gallon)
A19968	QGC-Mint (1 gallon)

Pure Green 24

- Fastest kill time
- None of the chemicals in this product are considered hazardous by OSHA
- 24 hour residual protection
- Kills multiple strains of Staph (including MRSA)
- Can be applied in the presence of humans and animals
- Controls the spread of germs
- Meets School System and Office Building Green standards
- Deodorizes
- EPA Registered

SHOCKWAVE
DISINFECTANT & CLEANER

Every project is unique. You need the right tools to handle the situation quickly, easily, and affordably. ShockWave is the only tool you'll need for sewer cleanup, mold remediation, disinfection, porous surface sanitization, deodorizing or infectious organisms.

ShockWave is a state-of-the-art disinfectant/sanitizer/cleaner designed to handle any situation a remediation professional might encounter. ShockWave has been formulated, tested, and is registered by the EPA for use on more surfaces, in more situations, and to kill more organisms than any other product.

Available in

SAY ALL THIS?**

Oil Only Socks

- Contains and absorbs petroleum based spills
- Easily shaped to fit around drums, machinery, and tanks
- Made with 100% post-industrial recycled filler—Environmentally Responsible!

For oil-only clean-up, choose these socks. By selectively absorbing oil and not water, these 100% polypropylene-filled socks absorb more oil and can be left on the job longer.

Item	Description	Dim LxW	Qty./Pkg.	Absorbs/Pkg
A68197	Sock, Polypropylene Fill	3" x 4'	30	30 gal.
A68201	Sock, Polypropylene Fill	3" x 8'	15	30 gal.

Oil Only Economy Pads

- Use on land or on water

Whether on land or on water, these pads are perfect for oil spill clean-up. These cost effective sorbents are constructed from a single layer of strong, uniform polypropylene fibers. Hydrocarbon-based fluids stick to the fibers while water is repelled. They float indefinitely, making them ideal for large marine oil spill clean-up. Poly-bagged to reduce waste.

Item	Description	Dim LxW	Qty./Pkg.	Absorbs/Pkg
59142	Heavy Weight, Pad	15" x 19"	100	33.4 gal.
59005	Medium Weight, Pad	15" x 19"	100	26.7 gal.
59033	Single Weight, Pad	15" x 19"	200	35.7 gal.
59005	Medium Weight, Pad	15" x 19"	100	
56358	Single Weight, Fine Pad	15" x 19"	200	

Oil Only Bonded Pads and Rolls

- Bonded for added strength
- Perforated for easy and exact use

Bonded sorbents are constructed from a single layer of polypropylene fibers, ultrasonically bonded together for added strength and reduced linting. Hydrocarbon-based fluids stick to the fibers while water is repelled. Ideal for industrial or marine clean-up applications. Poly-bagged to reduce waste. A top layer of SpunBond material is ultrasonically bonded to the absorbent MeltBlown core, adding strength that lets the mat keep its shape even when completely saturated, wiping down or tearing at the convenient perforations.

Item	Description	Dim LxW	Qty./Pkg.	Absorbs/Pkg
59019	Medium Weight, Pad	15" x 19"	100	24.7 gal.
59020	Heavy Weight, Rolls	30" x 150'	1	55.2 gal.

Universal SonicBonded Pads, Rolls, and Booms

- Bonded for added strength
- Absorbs oils, coolants, solvents, and water
- Perforated for easy and exact use

Fast-acting for quick response. A layer of MeltBlown polypropylene creates high surface area that enables SonicBonded mat to quickly soak up liquids. High absorbency keeps it on the job longer. Ultrasonic bond points keep mat intact. Ultrasonic bond points fuse layers of fibers together. Mat keeps its shape even when completely saturated. A top layer of SpunBond material is ultrasonically bonded to the absorbent MeltBlown core, adding strength that lets the mat keep its shape even when completely saturated, wiping down or tearing at the convenient perforations. Rolls are perforated every 7.5" vertically and 17" horizontally. Pads are perforated vertically at 7.5".

Item	Description	Dim LxW	Qty./Pkg.	Absorbs/Pkg

Universal Socks

- Contains and absorbs oils, water-based liquids, and solvents
- Absorbs fluid quickly
- Made with 100% post-industrial recycled filler—Environmentally Responsible!

These durable, universal-application, 100% polypropylene-filled socks absorb oils, coolants, solvents and water. Use wherever you have a variety of spills and only want to stock one sock to cover everything. Socks easily mold to almost any shape.

Item	Description	Dim LxW	Qty./Pkg.	Absorbs/Pkg
A68209	Sock, Polypropylene Fill	3" x 4'	30	30 gal.

Spilfyter® Universal Economy Pads and Rolls

- Absorbs oils, coolants, solvents, and water

Ideal for most types of spills. These cost effective sorbents are constructed from a single layer of strong, uniform polypropylene fibers. An economical and cost effective spill clean-up solution. Poly-bagged to reduce waste.

Item	Description	Dim LxW	Qty./Pkg.
A69845	Heavy Weight, Pad	16" x 18"	100

A69885	Single Weight, Roll	32" x 300'	1

Spilfyter® Premium Universal Pads and Rolls

- Absorbs acids or bases, oil, water, solvents and nonaggressive spills
- Superior strength and durability
- Multi-layer technology retains more liquid
- Fine fiber construction

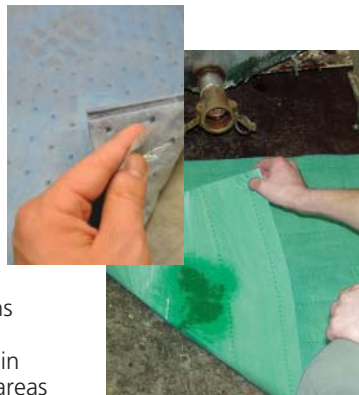

Ultra-premium sorbent pads and rolls are ideal for extended use and high durability applications. Dense, fine fiber polypropylene fibers have superior liquid retention. The fine fiber and state-of-the-art multi-layering technology combine to provide an unbeatable performance and superior capillary action, which facilitates "branching out" of the liquid as it is absorbed throughout the fabric. Premium absorbents offer superior tensile strength which results in a longer lasting, more durable product up to 7 times stronger than coarse fiber products. Distinctive "inter-locking" sprocket bonding eliminates separation of the fabric, while leaving more surface area to absorb liquids. All pads are perforated vertically for a more flexible fit in tight, narrow spaces. All rolls are perforated horizontally every 12" and vertically down the center of the roll, enabling a customized fit for any spill.

Item	Description	Dim LxW	Qty./Pkg.

Hazmat Bonded Pads and Rolls

- Bonded for added strength
- Absorbs a wide range of spills - water, oil, or aggressive acids
- Perforated for easy and exact use

Ideal for any type spill. Hazmat pads and rolls absorb battery acid, solvents, chemical spills, water, and oil. Bonded sorbents are constructed from a single layer of polypropylene fibers, sonically bonded together for added strength and reduced linting. Perforations on rolls allow you to take just what you need. Poly-bagged to reduce waste. A top layer of SpunBond material is ultrasonically bonded to the absorbent MeltBlown core, adding strength that lets the mat keep its shape even when completely saturated, wiping down or tearing at the convenient perforations.

A68433	Universal Sorbent Spill Kit, 95 Gallon, Poly-Overpack® Salvage Drum
A68434	Oil Only Sorbent Spill Kit, 95 Gallon, Poly-Overpack® Salvage Drum
A68435	Hazmat Sorbent Spill Kit, 95 Gallon, Poly-Overpack® Salvage Drum

ENPAC Speedy Duffel™ Spill Kit

- Ideal for warehouses, vehicles, and docks
- Absorbs up to 10 gallons

Compact and portable vehicle response kits ideal for small transportation spills. Convenient, water resistant nylon bags, feature durable straps for easy transport and response. High visibility yellow, easy to see in any weather condition, day or night. Ideal for fueling locations.

Kit Contents		8 oz.	Stardust
1	Nylon Duffel Bag	1 pair	Nitrile Gloves
20	Pads	1 pair	Goggles
2	10' Socks	1	Emergency Response Guide
3	4' Socks		
1	Disposal Poly-bag	1	Instructions

Item	Description
57831	Universal Sorbent Spill Kit, 10 Gallon, Yellow Speedy Duffel Bag
57833	Oil Only Sorbent Spill Kit, 10 Gallon, Yellow Speedy Duffel Bag
57832	Hazmat Sorbent Spill Kit, 10 Gallon, Yellow Speedy Duffel Bag

Spilfyter® Grab & Go® Acid Spill Kit

- Ideal for larger acid spills
- 5 gallon bucket for easy portability and disposal
- Dry acid neutralizer acts fast and changes color to show when neutralized

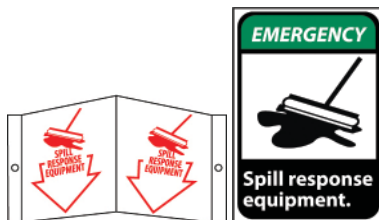

Dry acid spill kit provides a convenient option for quick response to many spills. 5 gallon bucket protects kit contents. Use bucket to dispose of spill clean-up materials. KOLOR-SAFE® neutralizes work fast and changes color when acid is neutralized.

Kit Contents		2	Chemical
1	5 Gallon Bucket with Snap-on Lid	1	Classifier Strips
10 lbs.	KOLOR-SAFE® Dry Neutralizer	1	Classifier Chart
3	3" x 4' Hazmat Socks	1 pair	Nitrile Gloves
10	12" x 12" Hazmat Sorbent Pads	1 pair	Goggles
		1	Scoop with Scraper
		1	Disposal Poly-bag

Item	Description
A70635	Spilfyter® Grab & Go® Spill Kit for Acids, Dry Formula
A70686	Wall Mount for Grab & Go Spill Kit

Spill Kit and Response Signage

- Visually identifies spill kit location
- Helps comply to SPCC plans

Item	Description	Material
A70633	"Spill Response Equipment" Angled Wall Sign 5 3/4" x 8 3/4"	Acrylic Plastic
A70634	"Spill Response Equipment" Sign, 10" x 7"	Rigid Plastic

Spilfyter® MERCSORB® Spill Kit

- Handles all stages of cleaning a mercury spill
- Step-by-step instructions
- Includes durable storage and carrying case

Use MERCSORB® Spill Kit as part of your best management practices when dealing with mercury spills. Amalgamation powder converts elemental mercury into an amalgam, which stops the dangerous mercury vapors from being emitted. Indicator powder identifies the presences of mercury in suspected contaminated areas.

Kit Contents	
1	Storage Case
270g	Amalgamation Powder
250g	Indicator Powder
1	Vapor Suppressor Shaker Bottle
1	Aspirator Bottle
1	Chemical Sponge
1	Waste Collection Bottle
1	Mixing Tub and Spatula
1 pair	Nitrile Gloves
1 pair	Goggles
1	Wisk and Pan
1	Disposal Poly-bag

Item	Description
A12548	Spilfyter® MERCSORB® Mercury Spill Kit

Customize a Spill Kit with Exactly What You Need

If you don't see a Spill Kit that meets your needs, we'll build one for you! You can tell us what size you need and fill it with the contents you want! Just contact your Aramsco Rep with the specifications and we will do the rest! Order exactly what you want and avoid paying for sorbents or PPE that you don't really need.

Oil-Dri Premium Absorbent

- Absorbs oil, water, grease, and all nonaggressive fluids

Oil-Dri floor absorbent is ideal for general purpose use. Superior moisture extraction process increases absorption and minimizes dust. Strong granules will not break down and turn to mud, even when saturated. Durable poly bag package keeps out moisture.

Item	Description	Qty./Pkg.
59025	Oil-Dri, 40 lb Bag	1

Hazmat Waste Container Kits

- 36" x 36" x 36" cubed container
- Hold up to 2,500 lbs.
- Stackable—three high
- Meets UN Standards—Group I, II, and III*

Hazmat waste container kits are most economical, UN approved method for transporting hazardous materials safely. Constructed of high performance, three-wall corrugated board, poly liner and wood pallet with fasteners. Ships and stores flat for lower cost shipping and space saving storage. Simple, easy, set-up requires only one person. *UN rating applies when purchased as a kit only.

Item	Description
55988	Hazmat Waste Container Kit
Replacement Parts	
55990	High Performance Corrugated Container
55998	8mil Poly Liner, 41" x 40" x 85" (25/r)
55994	Wood Pallet

Scoop Shovels

- Polypropylene construction
- Ideal for spill clean-up when using granular sorbents
- Nonsparking

Item	Description
57018	37" Polypropylene Scoop Shovel

OIL-DRI

Spill King Absorbent

- 15 times more absorbent than clay
- Absorbs oil, water, solvents, coolants, paint
- Lightweight and easy to handle
- EPA and OSHA compliant

Spill King Absorbent™ is a nontoxic, nonflammable, environmentally safe and friendly, lightweight and powerful substance that can absorb and hold all liquids* while leaving little or no residue. Less than one pound of Spill King Absorbent™ can completely absorb one quart of motor oil without leaving any residue to re-clean. Clay, earth and sand products require 15 pounds of material to absorb the same amount and leave a slippery residue.

Spill King Absorbent™ requires far less absorbent to capture a spill, resulting in greatly reduced disposal costs. Spill King Absorbent™ meets or exceeds all OSHA and EPA requirements for health and safety. Unlike "kitty litter" products that contain "crystalline silica," under OSHA standards, qualifies as a carcinogen, or as a substance causing "silicosis," a lung disease. Spill King Absorbent™ contains no such substance(s). Spill King Absorbent™ works on all animal, vegetable, mineral, petroleum based or semi-liquid spills.

Item	Description
59050	Spill King, 1.5 cu.ft. Bag

National Standard™ Body Fluid Clean-Up Kit

- Ideal for blood, vomit, or urine
- Includes Red Z™ - a fast, effective solidifier
- Includes durable storage and carrying case

Complete kit for cleaning up any type of body fluids. Includes Red Z™, a fast effective way to solidify and deodorize potentially infectious blood and body fluids.

Contains

- Red Z™ Solidifier
- Scoop/scraper
- p.a.w.s.™ antimicrobial hand wipe
- Odor mask
- Germicidal solution
- Biohazard red bag
- Wiper pads
- Instructions
- Vinyl gloves
- Weight: 10 pounds
- Dimensions: 14 1/4" x 13 1/4" x 12 3/8"
- 13 1/2" x 10 1/4" x 11 3/8" (refill)

Item	Description
A63401	Body Fluid Clean-up Kit with Storage Case (12/case)
A63402	Body Fluid Clean-Up Refill Kit, Poly Bag (24/case)

Multi-Purpose

Solidifies gallons of various spills. The easy to carry and store molded plastic case fits easily behind a truck seat, or spill response cart. Some applications include: medical, industrial, transportation, and spill response teams. This kit meets the requirements for compliance with the D.O.T. 1713 hazardous discharge; EPA 623.31 immediate action and 263.31 discharge clean-up.

Contains

- Green Z™ solidifier
- Alky™ solidifier
- Acid Lock™ solidifier
- Petro Lock™ solidifier
- Safety goggles
- Respirator
- Zammie Sewer Stopper™
- Scoop/scraper (3)
- Caution tape roll
- Drop cloth
- 30 gallon disposal bags (3)
- Nitrile gloves (3 pair)
- D.O.T. incident report
- Weight: 11 pounds
- Dimensions: 17" x 17" x 5 1/4"

Item	Description
A63372	Multi-Purpose Spill™ Kit

Spill Leader™ Kit

Our wall mounted spill kit featuring RED Z™, is designed for emergency response or hazardous lab spills. The solid solutions approach to neutralize, stabilize, and solidify a variety of aqueous spills wherever they occur.

Contains

- Red Z™ solidifier
- Green Z™ solidifier
- Acid Lock™ solidifier
- Alky™ solidifier
- Petro Lock™ solidifier
- Nitrile gloves (3 pair)
- Scoop/scraper (6)
- 6" x 10" bag
- 9" x 12" zip lock bag (6)
- Hazardous waste D.O.T. label (2)
- Nonhazardous waste D.O.T. label (2)
- Weight: 5 pounds
- Dimensions: 14 3/8" x 3 3/8" x 21"

Item	Description
A63374	Spill Leader™ Kit

Glutaraldehyde Clean-Up™ Kit

Contains GPT-1™ pretreatment and neutralizer, and Green Z™ fluid control solidifier. Sprinkle GPT-1™ over the glutaraldehyde spill. The spill turns brown when it has been neutralized. Sprinkle Green Z™ to turn the neutralized spill into a semi-solid mass.

Contains

- Green Z™ solidifier
- High risk gloves
- GPT-1™ pouch
- Goggles
- Glutaraldehyde respirator
- Scoop/scraper (2)
- Instructions
- Disposal bag
- Weight: 24 pounds
- Dimensions: 27" x 13" x 14.08"

Item	Description
A63375	Glutaraldehyde Clean-Up™ Kit, Hard Case (6/case)
A63376	Glutaraldehyde Clean-Up™ Refill Kit, Poly Bag (12/case)

EZ Cleans Mercury Spill™ Kit

Contains Green Z™ solidifier to encircle and contain the mercury. Just pour Green Z™ around the spill then activate it with water, then scoop the contained mercury into the disposal bag and seal.

Contains

- Green Z™ solidifier
- Nitrile gloves
- Wiper pad
- Scoop/scraper (2)
- Absorbent activator bottle
- Safety shield
- Identification label
- Disposal bag
- Zip-lock disposal bag
- Weight: 11 pounds
- Dimensions: 14 1/4" x 13 1/4" x 12 3/8"

Item	Description
A63377	EZ Cleans Mercury Spill™ Kit, Hard Case (12/case)
A63378	EZ Cleans Mercury Spill™ Refill Kit, Poly Bag (24/case)

Chemotherapy Spill™ Kit

Designed for the clean-up of spills involving cytotoxic drugs. This kit features Green Z™ solidifier to solidify and contain hazardous chemical spills for quick and easy clean-up and disposal with minimal exposure.

Contains

- Green Z™ solidifier
- Nitrile gloves (2 pair)
- Large wiper pad
- 12" x 12" Barrier Zorb™ sheet
- Safety shield
- Sharps disposal container
- Open backed gown
- Weight: 8 pounds
- Dimensions: 14 1/4" x 13 1/4" x 14.08"

Item	Description
A63393	Chemotherapy Spill™ Kit (12/case)

EZ Cleans Plus™ Kit

Includes personal protection items for the clean-up of blood or body fluid spills. Encapsulating and containing potentially infectious spills helps reduce employee exposure to infectious waste, as well as possible cross-contamination of co-workers, customers or family members.

Contains

- Red Z™ Solidifier
- Vinyl gloves
- p.a.w.s.™ antimicrobial hand wipe
- Scoop/scrapper
- Germicidal solution
- Biohazard red bag
- Wiper pads
- Instructions
- Weight: 7 pounds
- Dimensions: 13 1/2" x 10 1/4" x 11 3/8"

Item	Description
A63400	EZ Cleans Plus™ Kit (24/case)

Formaldehyde Spill Response™ Kit

Features FSC-1™ to aid in reducing exposure to formaldehyde gas in the event of a spill. The formalin is transformed into an easily removable semi-solid mass. The resulting mass cools rapidly minimizing formaldehyde off-gassing.

Contains

- 11 ounce bottle of FSC-1™ solidifier
- Nitrile gloves
- Vented goggles
- Scoop/scrapper (4)
- Respirator
- Wiper pads
- Open backed gown
- 30 gallon bags (4)
- Weight: 5 pounds

Item	Description
A63391	Formaldehyde Spill Response™ Kit, hard case
A63392	Formaldehyde Spill Response™ Kit Refill

Universal Precautions Compliance™ Kit

Combines personal protection and clean-up items mandated by OSHA, CDC, and State Health Departments to aid in the clean-up, transportation, and disposal of up to one full liter of infectious blood or body fluid spills.

Contains

- Red Z™ Solidifier
- Scoop/scrapper
- p.a.w.s.™ antimicrobial hand wipe
- Apron
- Germicidal solution
- Biohazard red bag
- Wiper pads
- Dimensions: 13 1/2" x 10 1/4" x 11 3/8" (refill)
- Identification tag
- Vinyl gloves
- Instructions
- Combination mask/face shield
- Weight: 7 pounds
- Hard Case
- Weight: 10 pounds
- Dimensions: 14 1/4" x 13 1/4" x 12 3/8"

Item	Description
A63394	Universal Precautions Mounting Kit, Hard Case (12/case)
90824	Universal Precautions Compliance™ Refill Kit, Poly Bag (24/case)

Gas Alert Micro Clip

4-Gas Detector %LEL, O₂, H₂S, CO

Multi-gas detection made simple. Detects combustibles, oxygen, hydrogen sulfide, and carbon monoxide. The slim and compact Gas Alert Micro Clip provides affordable protection for atmospheric hazards. With simple one-button operation, this multi-gas detector offers ultimate ease of use and significantly reduces time spent training the user.

Impact Pro

Honeywell

- Portable multi-gas monitor detects up to four hazardous gases
- Can detect flammable O₂, CO, H₂S, SO₂, Cl₂, NO₂, NH₃, CO₂
- Clear, backlit display is easy to read
- Precalibrated plug-in sensor cartridge
- Multi-lingual, intuitive menu system in English, French, German, Italian, Spanish and Dutch
- Impact Pro accepts disposable or serviceable cartridges
- Safelink communications accessory available for Impact Pro model
- Enforcer portable test and calibration accessory calibrates Impact and Impact Pro monitors in less than two minutes
- Includes AA batteries, belt clip, flow adapter, multi-lingual quick start guide and operating instructions

Dimensions	1.9" x 3.3" x 5.3"
Weight	18 ounces
Battery	Interchangeable NiMH or Alkaline
Battery Life	NiMH: 10 hours; Alkaline: 17 hours
Alarms	Vibrating, audio and visual
Intrinsic Safety	UL Class I, Division I, Groups A, B, C, D
IP Rating	IP67
Cartridge Type	Disposable or serviceable
Integral Pump/ Pump Adapter	Yes
Vibrating Alarm	Yes
Safelink	Yes

* Sensor cartridge must be ordered separately.

Sirius® Multigas Detector

One PID, Four Gases...Detects
Hundreds of Chemicals

The Sirius Multigas Detector provides users outstanding multifunction capabilities by integrating a high-performance PID (Photoionization Detector) sensor into a 4-gas detector. Users are able to simultaneously monitor for volatile organic compounds (VOCs) with low vapor pressures while measuring for combustible, toxic and oxygen-deficient atmospheres within one reliable, easy-to-use, durable unit.

Protimeter Aquant

Non-Invasive Moisture Meter

- Rapid moisture evaluation in building materials
- Range 0-999 relative
- Display 1: Digital LCD
- Display 2: 60 LED's
- Hold reading feature
- Depth of measurement - Up to ¾"
- Case - Pouch with belt loop
- Power - 9V (supplied)
- Warranty - 1 year parts and labor

Features

- Detects moisture directly in materials and below wall and floor coverings such as tile, wood and vinyl
- Reset reading for sensitivity adjustment
- Not adversely affected by surface moisture such as condensation
- Dual display LCD and LED
- Color changing LED's to show moisture condition - Green: dry; Yellow: at risk; Red: wet

Psychlone

GE Protimeter Thermo-Hygrometer

It's the fastest instrument for responding quickly to ambient conditions. The Psychlone's speedy response to humidity and temperature changes offers accurate results at any temperature. It efficiently calculates and displays in large format the GPP, specific humidity and temperature readings, dewpoint and more – reducing error and saving time.

- Innovative design
- Easy-to-read digital display with intuitive interface
- Adjustable display backlight and auto shutoff
- Full range retractable probe protects the sensor when not in use
- Durable ABS with silicone grip for more assurance
- Belt clip for quick access on the run
- Two year limited warranty
- Surface temperature option

Model	F381
Humidity Range Accuracy	0-100% (0-95% noncondensating) ± 2% at 68°F (20°C)
Temperature Range Accuracy	32-180°F (0-82°C) ± 3°F; (0.5°C) at 68°F (20°C)
Repeatability	0.05°C
Display	Large backlit LED
Battery	2 x AA

AP4C

Chemical Warfare Agent Assessment Kit

The AP4C is a portable chemical contamination control device used to detect all nerve, blood, blister agents as well as many TIC's and TIM's. The AP4C is particularly suitable for military use in rough conditions:

- Fast turn on
- Simplicity of use
- Single-handed operation
- Immediate identification and measurement
- Ability to be turned off without precautions

The AP4C is a flame spectrophotometer for gas detection. A continuous stream of air is burned in a combustion chamber (called a burner), which has a constant supply of hydrogen. The resultant spectra are passed through a diffraction grating and then projected on to a strip array. The resultant signals are processed to distinguish individual elements contained in the sample.

- Nerve agents (G,V) will be indicated by the P (Phosphorus) detection channel
- L, ED, MD, PD, SA, DA, DC, DM will be indicated by the As (Arsenic) detection channel
- Blister agents (H, HD, HL, HT) will be indicated by the S (Sulfur) detection channel
- HN, AC will be indicated by the HNO detection channel

Item	Description
A18836	AP4C Set Intrinsically Safe Chemical Detector for CW Agents TICS and TIMS - Complete Kit, M910E00002

NavigatorPro 3-in-1 Moisture Meter Kit

- Simplified controls for quick and easy use
- Job definition of up to 5 jobs with unique Job ID numbers
- Data grouping by specific rooms, with up to 32 rooms per job
- Pin mode: 5-60% MC wood scale; 0-100 numerical reference scale; 0.1% - 6% sheetrock scale
- Scan Mode: 0-300 numerical reference scale
- Thermo-hygrometer: measures temp/RH; calculates GPP/dew point; fast response time
- Optional Infrared PC Linkage and Software application
- Rugged construction ensures years of reliable use
- Sturdy plastic carrying case.
- 1 year warranty

Item	Description
A61130	Navigator Pro Meter, (1) RHT-S1 Humidity Sensor, Carrying Case, 2-E Electrode, and PC/KIT Software Application Program.

TechCheck 2-in-1 Moisture Meter with Carry Case

- Pin Mode (5-60% MC wood scale)
- Scan Mode (0-300 numerical reference scale)
- Built in Back-light makes reading in dark places a cinch
- Auto-shutoff timer saves battery life
- Alarm lets you know when your pre-selected moisture threshold is reached
- Rugged construction ensures years of reliable use
- Sturdy plastic carrying case
- 9V Battery
- 1 year warranty

Item	Description
A68636	Delmhorst Techcheck 2-In-1 Moisture Meter with Carry Case

BD-10 Analog Readout

- Popular analog readout
- Two scales:
Wood Scale – 6% to 40% moisture range. Use for flooring and building material such as wood studs, floor joists, subfloors
Reference Scale – reads from 0 to 100 on a relative basis. Use on nonwood materials such as concrete, plaster, and insulation
- Connector to attach external electrode
- Rugged carrying case
- 1 year warranty

Item	Description
A16095	Delmhorst Bd-10/26/Pkg Analog Moisture Meter with 26-Es 1 1/8" Electrode, (10) 496 Contact Pins, and Deluxe Carry Case

A61536

Product Highlights

- Convenient, portable and easy to use
- Independent laboratory tests show that the solution in MyClyns™ demonstrates a 99.99% reduction in HIV-1, Hepatitis C, MRSA and many other pathogens.
- Alcohol free
 - Nonflammable
 - No stinging or burning
 - Safe to spray onto face including into eyes, ears, mouth, nose and open wounds
- Nonaerosol
- Nonirritating, nonsensitizing and nontoxic

Item	Description
A61536	MyClyns White Individual First Response Personal Protection Unit
A70666	MyClyns Black Individual First Response Personal Protection Unit

BIO MED WASH Sterile First-Aid Wash

BIO MED WASH: A new indispensable wound management benefit for first-aid or emergency room.

Item A25602

Item 41543

Why first-aid experts prefer BIO MED WASH

- All-natural, safe, sterile, convenient, non-allergenic, saline-free, propellant-free, and additive-free.
- Benefits wound management, wherever standard first-aid calls for washing the affected area in tap water or saline solution
- Excellent for cleansing cuts, abrasions and minor burns, softening and removing particulate matter and crusted exudate, and moisturizing traumatized skin
- Helps cleanse, soothe and dilute harmful liquid chemicals
- Contains pH balanced, hypotonic Bio-Logic Aqua tissue-culture grade of water, proven ideal for skin and eye application
- May be applied as often as desired. Gentle enough for children
- Free from additives, chemicals, preservatives, propellants and buffers
- Compatible with all other first-aid products
- Five-year shelf-life

Item	Description
A25602	Wall Mounted Station with (2) 7 oz. Bottles
44063	Bio Med Magazine Station for 7 oz. Bio Med Wash* (bottles not included)
40543	7 oz Replacement Bio Med Wash
58696	Wall/Truck Mount for 7 oz. Bio Med Wash
41543	3 oz Bio Med Wash
40998	Holster for 3 oz Bio Med Wash

* Screws not included

WATER-JEL® Burn Kit

Be Prepared for Any Burn Emergency

Portable and versatile WATER-JEL Emergency Burn Kit includes a Water-Jel Fire Blanket (36" x 30") and a variety of burn dressings so you'll be prepared for any burn emergency.

Contents

- (1) 36" x 30" Burn Wrap
- (1) 12" x 16" Burn Dressing
- (1) 8" x 18" Face Mask
- (1) 4" x 16" Face Mask
- (3) 4" x 4" Face Mask
- (4) 3" Roll Gauze

- (1) Scissors
- Instruction Card
- Soft Sided Heavy-Duty Carry Case

Item	Description
90522	Large Soft Sided Burn Kit

BURN JEL®

For Fast Relief of Minor Burns

Unlike petroleum products that can actually trap the heat in a burn, this water based, water-soluble gel actually draws the heat away from the skin and dissipates it on contact. It relieves pain fast and cools and soothes the affected area. Available in a 4-ounce squeeze bottle or handy 3.5-gram unit dose packages.

Item	Description
90523	Burn Jel® 4 oz Squeeze Bottle
90524	Burn Jel® Unit Dose in Dispenser Box (25/box)

COOL JEL

Topical Cooling Gel

This topical cooling gel cools and soothes minor burns, sunburns, scalds, cuts, and abrasions. Water based and water-soluble, it won't stick to a wound and can be easily rinsed away. COOL JEL also forms a protective barrier to help protect the wound from airborne contaminants that may delay healing.

Item	Description
90525	COOL JEL 4 oz Squeeze Bottle
90526	COOL JEL Unit Dose in Dispenser Box (25/box)

Sterile Eyesaline Personal Eyewash

Sterile Solution

Bottles, caps and seals are manufactured to close tolerances to ensure fluid integrity. In the blow-fill-seal process used for Fend-all personal products, plastic containers are blow molded, filled, and hermetically sealed in a single controlled, operation. This process ensures seal integrity, eyewash quality and sterility.

Single-Use, Twist-off Tabs

Personal eyewash products feature a single-use, twist-off tab design with no seals to remove and no leaking caps. Tab is tamper resistant, yet easily removed in an emergency. Absence of tab indicates prior use or tampering. Bottles contain Eyesaline — a preserved, buffered, saline solution superior to tap water for emergency eye care.

Item	Description
------	-------------

90738	Sterile Eyesaline Personal Eyewash Bottle (4 oz)
-------	--------------------------------------------------

Speakman Table Top

Gravityflo™ gravity fed eye/face wash for use where a permanent water supply is not available. 21 gallon capacity, easily activated and can be wall-mounted (bracket included) or shelf mounted 26 1/8" H x 26" W x 12" D. Exceeds 15 minute minimum standard for portable eyewash units. Meets ANSI Z358.1-1990 and also meets ANSI 117.1-1986 for providing accessibility for physically handicapped people.

HeartStart FR2+ Automatic External Defibrillator

Portable and Lightweight

HeartStart AEDs are now being placed in a broad range of workplace settings such as offices, industrial locations, shopping centers, stadiums, casinos and airplanes -wherever groups gather.

The HeartStart FR2+ is a portable, lightweight automated external defibrillator (AED) that requires minimal training to use and is an essential part of administering first aid immediately to a victim of sudden cardiac arrest (SCA). Due to its easy-to-use design, superior technology, and affordability, HeartStart AEDs are placed in a wide range of settings such as hospitals and clinics, offices and industrial locations, airplanes and airports, golf courses and health clubs. This innovative AED technology has also enabled a broader range of people beyond community EMS professionals to provide lifesaving therapy. Since SCA can strike anyone at anytime, more organizations see the need for targeted responders, people who arrive at the scene first and are trained to perform CPR and defibrillation. Many organizations, including the American Red Cross, now recognize defibrillation as the key to saving the life of an SCA victim. With every minute a victim does not receive defibrillation, the chance of survival decreases by 10 percent. Installing an AED in your organization is a wise investment and a responsible choice for the health and safety of your employees, customers, and visitors.

Sudden Cardiac Arrest - The Silent Killer—Every year, SCA strikes 350,000 people and less than 5 percent survive.

Sudden cardiac arrest (SCA) is usually caused by an electrical malfunction of the heart called ventricular fibrillation (VF), in which the electrical signals that normally induce a regular, coordinated heartbeat suddenly go awry, causing the heart to quiver or fibrillate. The lack of blood flow that results from VF causes a loss of pulse, blood pressure, and consciousness, and without intervention, death within minutes.

SCA can strike anyone at any age, at any time, and many victims have no prior symptoms. It is the lack of timely defibrillation that accounts for the high death rate following SCA.

Each day, more than 130 million Americans go to work, where they spend two-thirds of their waking hours. A recent study found that VF occurs most frequently on Monday mornings and Friday afternoons, typically, the most pressure-intensive periods of the workweek. Several other factors can also contribute to the risk of SCA in the workplace, including an aging workforce (particularly in industrial companies), and large numbers of employees located under

one roof, which can contribute to the statistical risk of such an emergency. Today, advances in technology have helped incorporate the power of big, bulky defibrillators into lightweight, portable units, enabling the treatment to be brought to the victim within minutes by trained, targeted responders. To many people, AED training is easier than CPR training. Investing in and training with a HeartStart AED will prepare you in case an employee, a co-worker, customer or visitor suffers from SCA. The Phillips HeartStart FRx Defibrillator is exceptionally rugged. Designed to surpass rigorous testing requirements, the FRx withstands jetting water, loads up to 500 pounds and a one-meter drop onto concrete. The HeartStart FRx Defibrillator includes an Owner's Manual, battery, SMART Pads II (1 set), and a Quick Reference Guide. The HeartStart FRx Defibrillator device includes a 5-year manufacturer's warranty at no charge.

Industries That Have Implemented Early Defibrillation Programs

AEDs are now available in a wide range of settings. Following is just a small sample of the broad range of organizations that have implemented early defibrillation programs:

- Transportation Terminals
- Office Buildings
- Banks
- Cruise Ships
- Offshore Exploration Sites
- Casinos
- Vehicles
- Physicians Offices
- Clinics
- Industrial & Utility Plants
- Private Offices
- Health Clubs
- Private Communities
- Hotels and Resorts
- Corporate Headquarters
- Golf Courses
- Sports Arenas
- Theme Parks

SUREVENT™

Automatic Emergency Ventilator

- Single Patient use, no cleaning or calibration
- Uninterrupted ventilations, pressure-cycled device
- Reliable performance for breathing AND apneic patients
- Extremely light and compact, weighs only 4 ounces
- Very simple set-up, safe for MRI/CT Scan
- Enables hands-free operation
- New Plus model for patients 10kg and above
- Tested and exceeds Federal 72-Hour Response Time

The SUREVENT is the first disposable automatic ventilator designed for prehospital emergency care providers. Utilizing a continuous gas flow source, the SUREVENT provides smooth, reliable ventilatory support via a mask or endotracheal tube. The SUREVENT will deliver more consistent ventilation than can be achieved with a manual BVM resuscitator in the prehospital environment. Created for the short-term delivery of ventilatory support, the SUREVENT is ideal for everyday emergency care situations, as well as large scale disasters and mass casualty incidents.

The SUREVENT is perfect for your disaster management equipment cache. Compact and lightweight, the SUREVENT is easily stored, needs no routine maintenance and requires no clean-up. The low-cost per unit enables you to purchase 300 SUREVENTs for the price of one hospital ventilator. Simplicity of design means emergency response personnel can have the product set up and functioning within two minutes. Storage space is greatly reduced. You can store 200 SUREVENTs in a 1'w x 4'w x 4'h space. If one of your goals is to be able to ventilate large numbers of patients quickly and effectively, then take a serious look at the SUREVENT - the first disposable automatic ventilator designed for your needs.

Item	Description
A25873	SUREVENT™ SV 2131 Automatic Emergency Ventilator

SUREVENT™ MCI Kit

Intended Use: For adult and pediatric patients (88 lbs./40kg and greater than 22 lbs./10kg) requiring short-term ventilatory support by means of a face mask or endotracheal tube. Recommended for staging and transport times of less than 8 hours. All uses need to be approved by your local medical director.

- Provides a single staging point for multiple patients
- Handles from 1 to 7 patients per kit
- Single gas source connects to multi-outlet manifold
- Sturdy base stores 20' of oxygen hose
- Fixed-orifice adapters provide 15 LPM or 25 LPM
- Built-in regulator allows for gas pressure adjustment
- Large 1 ½" gauge for monitoring working gas pressure
- No annual calibration needed for the SUREVENT
- Watertight, protective hard case
- Kit is clearly marked for easy identification

Contents

- (1) Hartwell Medical 7-outlet oxygen manifold base unit with adjustable regulator and pressure gauge
- (7) 15 LPM Fixed orifice nipple adapters
- (2) 25 LPM Fixed orifice nipple adapters
- (1) 20' Section of oxygen hose with DISS fittings
- (1) Laminated instruction placard
- (1) Watertight, hard case - Color: Orange

Ideal for Prehospital and Disaster Management
Tested and exceeds Federal 72-Hour Response Time!

External Dimensions	20.7"l x 17.2"w x 8.6"d (52.6 cm x 43.7 cm x 21.8 cm)
Weight	20.4 lbs. (9.3 kg)
Materials	Structured, Co-Polymered Plastic
Temperature Range	
Operating Environmental Limits	0 - 122° F (-18° to 50° C)
Storage Environmental Limits	-31° to 140° F (-35° to 60° C)
Operating Mode Gas Source	50 psi Source for Connection to Oxygen Manifold

Holds 10 SUREVENT Disposable Ventilators (sold separately)

Item	Description
A63325	SUREVENT™ SV 1525 MCI Kit

SUREVENT™ FlowMaster MCI Kit

Intended Use: For adult and pediatric patients (88 pounds/40kg and >22 pounds/10kg) requiring short-term ventilatory support by means of a face mask or endotracheal tube. Recommended for staging and transport times of less than 8 hours. All uses need to be approved by your local medical director.

Contents

- (1) Hartwell medical 7-outlet oxygen manifold base unit with adjustable regulator
- (7) Adjustable flowmeters, and pressure gauge
- (1) 20' Section of oxygen hose with DISS fittings
- (1) Laminated instruction placard
- (1) Watertight, hard case - Color: Olive Green

External Dimensions	20.7"l x 17.2" w x 8.6" d (52.6 cm x 43.7 cm x 21.8 cm)
Weight	20.4 lbs. (9.3kg)
Materials	Structured, Co-Polymered Plastic
Temperature Range	
Operating Environmental Limits	0 - 122° F (-18° to 50° C)
Storage Environmental Limits	-31° to 140° F (-35° to 60° C)
Operating Mode	
Gas Source	50 psi Source for Connection to Oxygen Manifold

Item	Description
A63326	SUREVENT™ SV 1530 FlowMaster MCI Kit

VAR Plus

Intended Use: For patients (>22 pounds/10kg) requiring short-term ventilatory support by means of a face mask or endotracheal tube. Recommended for transport times of less than 8 hours. All uses need to be approved by your local medical director.

Contents

- (1) VAR Plus SV 5011-EP with in-line manometer and 50/100% oxygen entrainment port
- (1) 6" flex tubing with 90° elbow
- (1) 7' section of standard oxygen supply tubing with combination DISS/barb fitting ends
- (1) Instruction sheet

Dimensions	8 1/2" x 3.3" x 2 1/2" (21.6 cm x 8.4 cm x 6.4 cm)
Individual Packaged Size	9.5" x 6.0" x 2.5" (24.1 cm x 15.2 cm x 6.4 cm)
Weight	5.1 ounces (140 grams)
Shipping Weight	7.0 ounces (193 grams)
Materials	ABS plastic housing and components Rubber entrainment valve Stainless steel spring Polyethylene oxygen supply tubing Polyethylene flex tubing
Operating Temperature	0° F to 122° F (-18° to 50° C)
Storage Temperature	-40° F to 140° F (-40° to 60° C)
Shelf-life	3 years. It is strongly recommended that any unused medical supplies, including the VAR Plus, be inspected annually for signs of damage or accelerated aging. You should inspect for cracks, discoloration or obvious damage to the contents of the package. Whenever possible, these supplies should be rotated to daily use within a one year time period. Every emergency care product should always be inspected prior to use on a patient.
Operating Mode	Pressure cycled device
Adjustable Range	10 to 45 cm-H2O Peak Inspiratory Pressure (PIP) Range 2 to 9 cm-H2O Positive End Expiratory Pressure (PEEP) approximately 20% of the PIP setting.
Pressure Relief Valve	60 ± 10% cm-H2O

Item	Description
A63329	VAR Plus SV 5011-EP ventilator

Digit-Ox II Pulse Oximeter

- Large LCD display with SpO₂ waveform
- Selectable display direction for easy reading from any angle
- VERY lightweight comes with lanyard
- Low battery indicator
- Auto off
- Adjustable 10 level luminance
- Operates with 2 AAA batteries (included)

SpO ₂ Range	0% - 99%
Resolution	1%
Method	Dual Wave Length
Heart Range	30-240 bpm
Accuracy	± 2 bpm or ± 2%
Weight	1.76 oz with batteries
Size	1.125" w x 2.4375" l x 1.375" h

Item	Description
A63487	Digit-Ox II Pulse Oximeter

Mini-Analyzer Oxygen Analyzer

The Mini-Analyzer oxygen analyzer is designed to monitor oxygen concentration in the patient-breathing environment. The Mini-Analyzer oxygen analyzer is engineered for fast response, maximum reliability and stable performance. The Mini-Analyzer is designed primarily for spot-checking of oxygen levels delivered by medical oxygen delivery equipment and respiratory care systems. Its lightweight, compact size, extended battery life, and "auto off" feature makes this oxygen analyzer ideal for portable oxygen analysis by qualified healthcare professionals.

- 3-digit LCD display
- Ultra lightweight and stable
- Maintenance free
- Extended battery life
- Easy calibration
- 2 year warranty
- Auto off
- Included: 2 AAA batteries

Display Range	0.0-99.9% Oxygen
Warranty	24 months
Resolution	0.1% Oxygen
Warm-up Time	None
Operating Temp	15°C - 40°C
Weight	Approximately 3 ounces
Response Time	90% pf final value 15 seconds @ 25°C
Accuracy and Linearity	1% of full scale at constant temperature, R.H. and pressure when calibrated at full scale ±3% actual oxygen temperature range

Item	Description
A60698	Mini-Analyzer

Digit-Ox III FingerType Pulse Oximeter

- Results can be switched towards either the patient or the caregiver
- VERY light weight comes with lanyard
- Low battery indicator
- Auto power off after 8 seconds when finger is removed
- Operates with 2 AAA batteries (included)

SpO ₂ Range	35% - 99%
Method	Dual wave length LED
Heart Range	35 - 235bpm
Warm-up Time	None
Measurement SpO ₂	80% - 99% (± 2%)
Accuracy	70% - 80% (± 3%) ≤ 70%, no definition ± 2 bpm or ± 2%
Weight	1.9 oz. with batteries
Size	(1.25" w) x (2.375" l) x (1.375" h)

Item	Description
A74644	Digit-Ox III

Medical Indicators

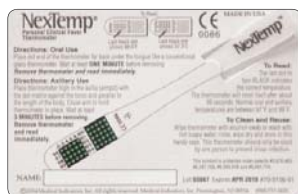

Individually wrapped NexTemp thermometers are designed to reduce the risk of cross infection or reinfection that could occur with other thermometer systems. Simply discard the thermometer after patient use. Convenient and Economical: NexTemp® thermometers are less expensive than any other type of thermometer. They require no special storage conditions, batteries, covers or recalibration processes. NexTemps are available in disposable and/or reusable models. (Fahrenheit or Celsius) Easy to Use: NexTemp thermometers are easier to use and read compared to predecessor dot-matrix thermometers. Safe: NexTemp thermometers replace dangerous glass/mercury, digital electronic and tympanic thermometers. NexTemp thermometers and packaging contain no latex and are nontoxic. They conform to ASTM E1299-96 safety requirements. Accurate: NexTemp color-change thermometers have been proven under strict clinical conditions and meet stringent ASTM accuracy requirements.

Item	Description
A39051	Fahrenheit (4/pack; 25 packs/box)
A39052	Celsius (4/pack; 25 packs/box)

Thermometer Card

- Convenient credit card size fits any purse or wallet
- Personal, Reusable, Oral
- Large and Small Quantities
- Easy to Store
- Latex-Free
- Thermometer Included. Located inside back of card, °F or C

Item	Description
A40937	Thermometer Card, Fahrenheit (50/box)

Dispos-A-Scope™ with Chrome Binaural

Dispos-A-Scope™ Nurse Stethoscopes feature a plastic binaural and ultra sensitive plastic chestpiece with remarkable acoustical performance. Designed for single-patient use to prevent cross contamination in infectious areas.

Item	Description
A60330	Dispos-A-Scope™ Stethoscope (25/dispenser box)
A60277	Dispos-A-Scope™ Stethoscope (50/case)

Single-Patient Use Blood Pressure Cuffs

Single-Patient Use Blood Pressure Cuffs were designed to reduce the spread of infection through cross-contamination. All cuffs are manufactured from a soft, yet durable vinyl material which can be quickly and easily wiped clean. The patient side has an extra soft lining for improved patient comfort. All cuffs are sized to meet the American Heart Association recommendations and are indexed for an accurate and comfortable fit. The quality hook and loop closures will hold secure use after use. Standard luer and universal connectors allow our Single-Patient Use Blood Pressure Cuffs to be adapted to a wide range of manual and automatic blood pressure apparatuses.

Item	Description
A60322	Disposable Blood Pressure Cuffs (25/dispenser box)
A62261	Disposable White Blood Pressure Cuffs (5/box)

IR200 Non-Contact Forehead InfraRed Thermometer

Ideal for Quickly Detecting Elevated Body Temperature

- Measures body temperature from 89.6 to 108°F (32.0 to 42.5°C) without contact
- Accurate to 0.5°F (0.3°C) with 0.1°F/°C resolution, Fast response (0.5 seconds)
- Optimum measurement distance of 1.9" to 5.9" (5 to 15cm)
- Eliminates need for replacement supplies, reduces potential spread of diseases from using contact devices
- Adjustable alarm alerts user visually and audibly when temperature exceeds programmed limit
- Memory stores up to 32 readings for easy recall
- Large backlit LCD display
- Complete with 2 AA batteries and pouch

Transfer Boards

User-friendly 8 carrying handles, allows for quick and effective patient transfers. Made of high density polyethylene, and easy to clean.

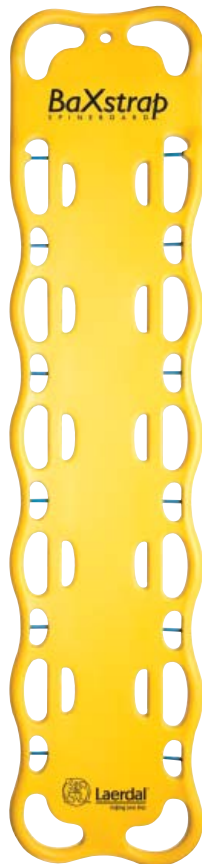

Item	Description
A62558	Transfer Board Size: 71"l x 23 1/2" w
A62561	Narrow Transfer Board Size: 71"l x 15 3/4" w
A62559	Wide Transfer Board Size: 71"l x 35 1/2" w
A62560	Half Size Transfer Board - 6 Handles Size: 31"l x 23" w
A62562	Straps 2" Web Nylon (3/set)

BaXstrap™ Spineboard

The board that meets your most demanding needs. As a rescuer you want your spineboard to be comfortable for your patient, rigid and lightweight. Further you also want to store the board easily. The BaXstrap Spineboard provides this and is one of the lightest boards on the market. The contoured design allows the board to nest compactly. This unique feature also offers patients more comfort, making it less likely that they would move around and aggravate their injuries.

- No seams make it easy to clean and decontaminate
- Extra large handholds make it easy to grab, even with heavy gloved hands
- Raised handholds make it easy to pick up
- Pins are molded into the board, maximizing their strength
- Includes strap holes for pediatric patients, eliminating the need to use towels to fill the extra space between patient and strap
- BaXstrap can be used in water, in the mountains, at home or on the road
- Durable molded-in customized labeling available
- Radiolucent, MRI and CT scan compatible
- Latex-free

Item	Description
90615	BaXstrap Spineboard
90616	Premium Strap with 5" Loop-Lok™ Ends, 80" Strap
90617	Premium Strap with Swivel Speed Clipends, 88" Strap

EVAC-U-SPLINT®

Adult Mattress/Pediatric Mattress

The Evac-U-Splint® mattress provides fast, effective and comfortable immobilization by molding to the contours of the patient's body. Evenly distributed spinal support reduces pressure point tenderness and minimizes rehabilitation time. The unique polystyrene bead filling provides thermal insulation decreasing the potential for hypothermia. The Evac-U-Splint® mattress is X-ray and MRI compatible. Folds in thirds for storage in an interior or exterior compartment. Innovative MaxiValve™ system is fast, effective, and has no parts to lose. Three year warranty on materials and workmanship. Lifetime warranty on MaxiValve™.

Adult

Dimensions Unfolded	78 3/4" x 29 1/2" x 2 1/2" (200 cm x 75 cm x 6.4 cm)
Dimensions Folded	31 1/2" x 28" x 6" (80 cm x 71 cm x 15 cm) cased
Weight-Mattress Only	12.1 lbs. (5.5 kg)
Weight-Mattress, Case and Pump	16.75 lbs. (7.6 kg)
Fabric	Vinyl/nylon Laminate
Filling	Polystyrene Beads
Stiffeners	Birch Plywood
Valve	Non-magnetic, Self-sealing
Buckles	Delrin
Carry Case	Nylon
Vacuum Pump	Aluminum Cylinder
Temperature Range	-30°F to 180°F (-34°C to 80°C)
Load Capacity	350 lbs. (159 kg)

Item	Description
A63355	MT 3075-6 Adult Mattress with Carry Case and Pump

Pediatric

Child is held securely and comfortably without unnecessary pressure, thus reducing child anxiety during transport.

Dimensions Unfolded	50" x 20" x 2" (127 cm x 51 cm x 5 cm)
Dimensions Folded	23" x 20" x 4" (58 cm x 51 cm x 10 cm) cased
Weight-Mattress Only	5 lbs. (2.3 kg)
Weight-Mattress, Case and Pump	9.2 lbs. (4.2 kg)
Load Capacity	75 lbs. (34 kg)

Item	Description
A63356	PD 3000 Pediatric Mattress with Carry Case and Pump

ParaGlyde™ Descent Control System

The ParaGlyde™ allows standard cots to be safely maneuvered down any steep decline or descent (stairs, hills, roads, and other rough terrain) with minimal effort. The ParaGlyde™ is a friction track device, therefore the more weight on the cot, the slower the descent. Prehospital care providers can realize a significant decrease in strain related back injuries by eliminating the necessity to carry cots.

ParaGlyde™ Key Features

- Easily mounts to any cot such as Stryker™ MX-pro, Power Pro, Ferno™ 35A, 35P, 30, and Power Flexx
- Steel corded belt construction
- Ergonomically engineered to provide ease of handling.
- Anodized for corrosion resistance.
- Cribbing-like features allow easy bed to cot transfers

ParaGlyde™ Benefits

- Dramatically reduces on-the-job back related injuries
- Helps eliminate the need to carry cots down stairs or inclines
- Descends most inclines
- Ergonomically engineered
- Designed to fit most standard EMS cots
- Lightweight, only 7 pounds per track
- Easily Stowable. 1" x 26" x 2"
- Retracts out of the way for normal cot use
- Proven results on reducing lifting/back injuries
- Easy to load and unload cot from ambulance

Item	Description
A62614	ParaGlyde™ Tracks Descent Control System (2/set)

MöV™ Power Chair

The MöV™ Power Chair is a mobility device that is ergonomically designed to give the patient comfort and the care giver safety. This product has taken several steps to ensure the safe transport of patients and must be operated by at least two care givers at all times. The MöV™ Power Chair has disposable seats to reduce the risk of infection control. It is equipped with several patient safety features such as: locking casters, infinite positioning system, temperature cut off switch, battery meter and throttle ascending and descending controls. All of the MöV™ Power Chair features provide a user friendly and safe approach to stair negotiation.

Features and Benefits

- Lightweight
- Corrosion resistant
- Collapsible for ease of storage
- Four handles for manual operation
- Telescopic handle
- Patent pending MöV track system
- Disposable seats
- 500 pounds weight capacity
- 500 pounds lift capacity
- Disposable seats
- Completely folds to 64"l x 16"w x 11"h
- Dry weight without the battery is 64 lbs. The battery weight is 18 lbs.
- Corrosion resistant, powder coated frame

Item	Description
A62746	MöV™ Power Chair

Folding Decon Mesh Litter

This folding litter is ideal for patient transport during the decontamination process. The mesh design of its durable 18 oz. vinyl-coated nylon cover allows contaminated run-off to pass through, thus preventing a pooling effect from occurring under the patient and minimizing exposure to harmful gray water. Easily set up and compact for storing, this Medical Corps type litter is light in weight with shaped hardwood handles for a more comfortable transport. Optional Patient Restraint Straps and a Replacement Cover are also available.

Extended	87" x 22" x 4.5"
Folded	43.5" x 3.5" x 7.5"
Weight	12 lbs

Item	Description
91054	Folding Decon Mesh Litter

ParaSlyde™ Evacuation Device

Helps address manpower issues:

- Drag 4-point
- Drag 3-point
- Drag 2-point
- One-on-one descents using belay device if necessary*

*Safeslyde package not included

Update your evacuation plan and be prepared to evacuate your nonambulatory, residents or patients horizontally or vertically with the ParaSlyde™ Evacuation Device.

Manpower Efficiency: Enables one-on-one vertical evacuation control through the SafeSlyde™ belay system* allowing lighter staff members to have absolute control over heavier patient descents. **Multiple Point Control:** Four 2" straps (two on each end of the ParaSlyde™) multi-point control is achieved allowing up to four people to assist the descent of non-ambulatory patients as necessary. **Multi-point control** helps to speed the evacuation process while maintaining complete control and safety. **Weight Capacity:** Designed and constructed with 12MM corrugated polypropylene material, the ParaSlyde™ has a weight capacity of 500 pounds. **Storage:** Folded flat, the ParaSlyde™ measures 85"l x 19"w x 2"h and provides flexible storage options including near the nurse's station, in a closet or close to an exit. **FastX Buckles:** The FastX buckles interlock across the ParaSlyde™ safely securing the patient during transport.

- Decons easily
- Reduces injury
- Evacuate patients by using several different options
- Harnessing system allows you to pull in an ergonomic fashion
- Delay down continuous flights of stairs with a controlled friction device
- Patients are securely fastened in the ParaSlyde™

Length	85"
Height	2" (folded flat)
Width	19"
Weight	7 lbs.

Item	Description
A23883	ParaSlyde™ Evacuation Device

BaraSlyde™ Evacuation Device

Helps address manpower issues:

- Drag 4-point
- Drag 3-point
- Drag 2-point
- One-on-one descents using belay device if necessary*

*Safeslyde package not included

Update your evacuation plan and be prepared to evacuate your nonambulatory, bariatric residents or patients horizontally or vertically with the BaraSlyde™ Evacuation Device.

Manpower Efficiency: Enables one-on-one vertical evacuation control through the SafeSlyde™ belay system* allowing lighter staff members to have absolute control over heavier patient descents. **Multiple Point Control:** Four 2" straps (two on each end of the BaraSlyde™) multi-point control is achieved allowing up to four people to assist the descent of non-ambulatory patients as necessary. **Multi-point control** helps to speed the evacuation process while maintaining complete control and safety. **Weight Capacity:** Designed and constructed with 12MM corrugated polypropylene material, the BaraSlyde™ has a weight capacity of 800 pounds. **Storage:** Folded flat, the BaraSlyde™ measures 85"l x 24"w x 2"h and provides flexible storage options including near the nurse's station, in a closet or close to an exit. **FastX Buckles:** The FastX buckles interlock across the BaraSlyde™ safely securing the patient during transport.

DefendAir HEPA 500

Air Scrubber/Negative Air Machine

- Built-in MICROBAN® antimicrobial product protection to inhibit growth of bacteria, mold, and mildew that can cause stains, odors, and product deterioration
- Advanced filtration technology
- Daisy chain capability—link up to 3 units on 1 power outlet
- Variable cfm on each unit, 250 cfm – 500 cfm
- Stackable, lightweight, and easily transportable

High efficiency air filtration, the maximum clean air rating from AHAM, and extreme versatility—all with a small footprint! The DefendAir HEPA 500 combines advanced clean air performance with the ultimate, most functional features to help make the restorer's job easier.

MICROCON® 800 and 400 with Germicidal UV

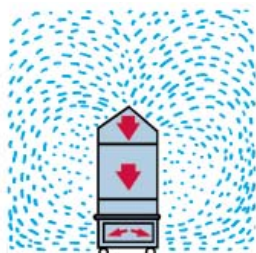

- 360° air intake and exhaust
- High air change capacity
- Breathing zone filtration
- Certified HEPA filtration
- Portability
- Modular design

The MICROCON® is a high capacity mobile air purifier specifically designed to remove hazardous microbial airborne particulate. It is the only system available that offers our unique CIRCUMFLOW® air distribution pattern. This is created by the 360-degree air intake and exhaust, which are unique only to the MICROCON® series. No other competitive units replicate this feature, which has been documented, to greatly improve "Breathing Zone Filtration" within a room.

It is available in two models, the MICROCON® MAP-800 and 400. Either meets the CDC requirements for HEPA filtration and exceeds their recommendations for room air changes per hour. Each unit is portable and can be positioned for spot or more permanent applications. It does not restrict room use since it's not a permanent installation, allowing you flexibility on planning patient load.

Four-254 nm Germicidal Ultraviolet (Ultra Violet) Lamps are available on either model. Lamp life expectancy is rated at 8000 hours. Positioned downstream of the HEPA, they are fully shielded and eliminate the maintenance requirements of competitive units when UV bulbs are directly in the air stream attracting dust particulate to bulb surface and diminishing irradiation. Operational time is monitored using a built-in electronic hour meter.

The MICROCON® intakes air from the top of the unit in a 360-degree direction from within the "breathing zone". This zone measures anywhere from 3 ft. to 7 ft. from the floor level. Eliminating sub micron-size infectious airborne particles from this zone reduces airborne microbial migration and the risk of inhalation.

CIRCUMFLOW® Air
Distribution Pattern

ACCUSTAT™ P-1

- Portable Room Pressure Monitor
- Negative Pressure Isolation Room Monitors
- Positive Pressure Isolation Room Monitors
- Isolation Room Equipment

Identical to standard ACCUSTAT™, but includes

- 12V 1500 mAH NiMH battery pack for up to 19 hours of continuous operation
- Battery chip to avoid overcharging
- Easy carrying handle
- Low battery indication on display
- Light weight: 5 lbs

ACCUSTAT™ BMS Pressure Range

- Range: -.100 to \pm .100 inches water (display)
- Resolution: 1% of reading
- Display Update: 1.0 second
- Maximum Over Pressure: 5 psi

Electrical Outputs

- Alarm: One SPDT relay can be set over range of -.05 to +.05 inches water. Contacts can be set for fail-safe operation (i.e. contact closed power loss.) Alarm output has built-in 1-minute delay, both red LED and piezo alarm.

Remote

- 4-20 mA, Standard Range 0-10 volts
- -.100 to +.100 inches water
- 7 mA \pm .100 inches water
- 12 mA \pm .000 inches water
- 17 mA \pm .100 inches water
- Maximum Range: 1000 ft \pm 20 avg wire into 250 ohms load
- Maximum Power: 1.3 watts @ 24VDC 3 wire 4-20mA output 115VAC to 24VDC, step-down transformer provided (option)

Mechanical

- LCD Display: 1 line
- LCD Character Height: 0.50 inches
- Cabinet: stainless steel
- Dimensions: 7.37" w \times 3.25" h \times 2.25" d
- Weight: 28 oz.
- Shipping Weight: 3 lbs

Environmental

- Operating Temperature : 55-105°F
- Operating Humidity: 10% to 94% RH non-condensing

When monitoring individual rooms in multiple locations, the ACCUSTAT™ P-1 offers user versatility. The circuitry is identical to the stationary ACCUSTAT™ except for the addition of the built-in rechargeable battery component. The unit can be powered from a standard 115V electrical outlet or by the 19 hour 1500 mAH NiMH battery. The case is durable stainless steel with a vinyl coated fold-down handle. It weighs less than five pounds and includes an extended flexible probe tube. The P-1 is a welcome resource to confirm pressurization anywhere when accuracy and portability are considerations and environments where pressure monitoring is critical. The ACCUSTAT™ is a pressure sensor. It is sensing through pressure the static differential between the two referenced spaces.. A valuable piece of isolation room equipment. Pressure sensor meeting CDC guidelines for patient care areas.

Item	Description
A63415	ACCUSTAT™ P-1 Portable

Guardian Portable Air Scrubber

The Phoenix Guardian HEPA System was the first portable air scrubbing device designed exclusively for the restoration industry. The Guardian can perform several critical air quality remediation functions simultaneously. The Guardian HEPA System captures virtually all removable airborne particles. The optional 4-stage adsorption filter contains a blend of activated carbon and potassium permanganate to remove airborne odors and chemicals. The true 1400 CFM capacity of the Phoenix Guardian HEPA System will clean one air change of a 12- by 14-foot room in less than a minute. In order to be effective, an air scrubber should be able to perform a minimum of four air changes per hour. A single Guardian can be expected to control up to 21,000 cubic feet. The built-in inclined manometer provides precise measurement of air-flow through the HEPA filter to determine when HEPA filter replacement may be required. The Guardian's high airflow and multiple ducting options allow for the combination of negative or positive air flow control of an area and containment air scrubbing at the same time. This provides the unique ability to continually filter the indoor air and depressurize the damage site to prevent the spread of contamination simultaneously.

Mini-Guardian HEPA System

The Phoenix Mini-Guardian HEPA System is the compact, variable air speed, version of our popular Phoenix Guardian HEPA System.

The Phoenix Mini-Guardian offers fully variable air flow. The maximum delivered air flow with 3 stage filtering in place is over 400 CFM. This will clean one air change of a 14 by 14 foot room in less than 4 minutes while drawing less than 2 amps of power. This makes the Mini-Guardian perfect for smaller remediation projects where space is at a premium and reduced air flow essential. A template on the intake grill makes it possible to take air-flow measurements with the Phoenix Kestrel 3000 Multi-Meter. (Aramco Item 55471)

The Phoenix Mini-Guardian's three stage filter design with true HEPA filtration will remove virtually all hazardous particles from the air and an optional fourth stage filter of activated carbon and potassium permanganate will absorb a wide range of odors and gases. The unique 24" canister HEPA manufactured for the Mini-Guardian contains nearly 200 square feet of surface area. This allows maximum air-flow and significantly extends filter life.

The Phoenix Mini-Guardian's unique duct discharge collar allows some filtered air to be directed to specific areas or outside to create negative pressure. This provides the ability to operate as a negative air machine (by exhausting a portion of the air flow) while continuing to scrub and recirculate a volume of the air inside. This prevents spreading the contamination to other areas and quickly improves air quality at the damage site. Just like the original Phoenix Guardian HEPA System, the Phoenix Mini-Guardian features a durable, stainless steel cabinet, hour meter, ductable in-take and exhaust and wheeled cart design. The Phoenix Mini-Guardian can be operated vertically or horizontally and takes up less than half the floor space of the larger Guardian.

Force Air 700 Negative Air Jr. Scrubber

- Minihelic pressure gauge
- Four 2" swivel casters
- Two easy lift handles
- One 10" discharge ring

The Contractor's Air Scrubber Junior provides negative air filtration in a compact unit. It starts by pulling the contaminated air through the intake by a powerful yet energy efficient fan.

Quiet Performance: Among the quietest units available, at 700 CFM this unit is changing the air in a typical 12 x 12 room more than 36 times an hour.

True HEPA Filtration: The true HEPA filter removes airborne particles down to .3 micron in size with 99.97% efficiency. The unit also uses replaceable primary and secondary filters to improve the life of the HEPA filter.

Easily replaced filters are available from various sources. Lightweight Portability: Four heavy-duty 2" casters coupled with two spring-loaded handles make transfer a single person job. The airtight case made of corrosion resistant heavy gauge aluminum seals with Iron Grip neoprene material, and the door quickly opens and closes with a link lock latch.

Exclusive Motor Design: A unique custom designed 1/4 HP motor and dynamically balanced blower mounts in a tripod fashion using rubberized bushings designed to dampen vibration and minimize noise. Carefully engineered tolerances avoid motor shift, rubbing or drag. Control Panel: The variable speed control allows the operator to adjust for exactly the performance needed and access is by a tamper resistant panel. The control panel also features a GFCI AC receptacle and a high quality Minihelic differential pressure gauge. The precision pressure gauge reads 0-5.0 inches of water. Power to the unit is standard 120 VAC using the included hospital grade plug and 5 foot power cord.

Warranty: The FA700 comes delivered with filters and ready for use and a 1-year factory warranty.

Dimensions	33" x 18" x 18"

Force Air 2000 EC Negative Air Scrubber

- Filter placement that ensures uninterrupted airflow and equal displacement of filtration
- Airtight construction prevents leakage which allows for uninterrupted filtration
- Lock-in-place filter that eliminates by-pass of contaminated air
- 12" discharge
- Can be equipped with carbon filters for odor control

Designed specifically for the cost-conscious contractor that does not require on-line visual and audible alarms. This unit meets specs and exceeds the standards of the EPA, OSHA, NEC and ANSI.

The Novair F2100

The Most Powerful,
Durable and Lightweight
Negative Air Machine Available!

- 8 point motor/cage mounting prevents motor and cage shifting even under the harshest conditions
- Powerful 2HP motor generates exceptional, consistent flow rate and utilizes all filter media area
- Uses standard 24" x 24" HEPA filters
- Lightest 2000 CFM unit on the market breaks the 100 lb barrier and is easily transported by 2 operators
- 2 speed motor - provides consistent air flow of 2000 CFM (high speed) and 1000 CFM (low speed)
- Positive lock filter prevents filter movement for uninterrupted filtration
- Audible alarm available
- Seamless construction guarantees leak proof operation

Mfg. Model	F2100
Weight	99 lbs (without filter); 135 lbs (with filter)
Dimensions	37" x 26" x 31"
Motor	2 HP; 2-Speed; Thermally Protected

Nitro 600 Air Scrubber/ Negative Air Machine

- Compact design
- Durable, impact resistant housing
- Air flow 200 to 600 cfm with variable speed controller. Powerful 3.35" WC suction to maximize HEPA loading and lifespan
- Economical operation
 - Use large 16" x 16" x 6" HEPA filter for hazardous waste and bio-contaminants or switch to an economical GEO95 filter for construction dust
- Optional activated carbon web filters for chemical fumes and odors easily slips in the door cavity
- Stable housing - Durable, lightweight and strong in design. It is also flame retardant and resistant to chemicals, UV light and mold
- Convenient GFCI outlets to daisy chain three machines to a single power outlet
- Quiet operation - 58 to 68 dB

Dimensions	18.5" x 18.5" x 25"
Weight	36 lbs
Air Flow	200-600cfm
Cabinet	Flame Retardant Polyethylene, UL94V
Power Requirements	115VAC/ 50-60 Hz 2.2 amps
Controls	Variable Speed Controller; Change Filter Indicator Light; Convenience GFI protected outlet 8 amp circuit breaker
Filters	
Primary/Secondary	Dual-ply Dustlock polyester pad with antimicrobial treatment
Standard HEPA Filter	Tested/Certified 99.97% Efficiency .3 micron
Optional Filter	GEO95 MERV 14 Efficiency, ABS Frame
Optional	Carbon Filter for Odor Control
Outlet Ring Size	10" Diameter

Item	Description
A73887	Nitro Air Scrubber/Negative Air Mover
Accessories and Replacement Filters	
A69381	HEPA Filter 99.97%, 16" x 16" x 6"

A69382	Primary/Secondary Filter (20/cs), 16" x 16" x 2"
45137	Quick Clamp 8" to 10" Stainless Steel, Worm Drive
A73920	OdorGuard 600 Carbon Filter, 16" x 16" x 2"

Phoenix Centrifugal Air Mover

Low amp draw, balanced airflow characteristics and maximum velocities of 2700 FPM are the foundation on which the Phoenix Centrifugal Air Mover is built. We made sure the body was the most rugged and durable it could be, to stand up to the rigors of the restoration industry. Getting more equipment into the drying chamber is always a challenge. The typical household electrical system cannot support the amount of equipment needed to dry the structure quickly and efficiently ensuring a nonstop search for equipment that provides both performance and low amp draw. The unique 1/3 horsepower design of the Phoenix Centrifugal Air Mover coupled with a two-speed switch allows the restoration technician to deliver the most airflow using the fewest amps. Maximum amp draw on high speed is 2.8 amps. Minimum amp draw on low speed is a mere 2.4 amps. This means that it is now possible to fit as many as four centrifugal air movers onto a typical 15 amp household circuit. If you attempt four centrifugals from our competition, we recommend you locate the breaker box first. The CAM housing is stackable, washable, durable, and chemical resistant and multi-positionable. In addition, molded-in runners allow for the air mover to be positioned horizontally, 45° and 90° angles.

Part No.	4027508
Power	115V, 60 HZ
Operating Position	0°, 45°, 90°
Drive Motor	1/3 Horsepower, 2-Speed
Motor	Thermal cut-off
Protection Cord Length	25 Feet
Airflow	2700 ft/min outlet velocity
Current Draw	2.8 Amps High Speed, 2.4 Amps Low Speed
Warranty	Year One-100% parts and labor (all components); Year Two-100% parts only (all components); Year Three-Only materials all workmanship of the housing are covered

AIR MOVERS

Sahara Pro X3 TurboDryer®

- Lower amp draw
- Quick disassembly for cleaning
- Easy-grip handle and stackable for storage
- MICROBAN® antimicrobial protection
- Underside drying vent
- Daisy-chain capability with convenience outlet and circuit breaker

This new lower amp, three-speed air mover offers everything restorers need for performance and versatility, plus legendary Dri-Eaz durability and reliability.

Model	F351
Size	18.8" h (47.8 cm) 17.0" w (43 cm) 18.3" d (47 cm)
Weight	27 lb/12 kg
Motor	0.33 HP
Speeds	Three (3, 3.5, and 4 amps)

More power for specialty applications
This new air mover has the CFM and static pressure needed to power through drying challenges. This durable and reliable performer works especially well for applications that require stronger static pressure, like drying in walls, under cabinets and in crawlspaces.

Axial Air Mover with FOCUS Technology

- Highest velocity where you need it
- All the features you want
- Low amps
- Best warranty
- Duplex outlet with GFCI
- Long-life motor
- Lightweight, rugged and stackable
- 20 ft AC cord with cord management

Performance

- FOCUS Technology revolutionized evaporative drying by producing air velocities up to 4x greater than competitive products
- FOCUS Technology directs air flow towards problematic corners (wall and floor), carpet and wall, or subfloors
- Focused velocities 0 to over 23.5 feet
- Low noise, quiet operation
- FOCUS corner drying reduces: secondary damage claims, side-effects of trapped humidity like fungi, mold, mildew or structural damage
- 3000 CFM, long-life 2-speed motor, featuring Permawick Lubrication

Item	Description
A16506	Phoenix Axial Air Mover

3 Speed Carpet Blower

- Molded, easy-carry handles for easy portability
- Plastic injection molded inlets for maximum airflow - no rusting
- Rotomolded high density polyethylene housing for rugged durability
- Full featured performance and they are stackable
- Speed drying of wet carpets, pads, floors and walls
- Powerful, durable, lightweight and UL approved
- Carry handle makes it easy to transport
- Color may vary

Item	Description
54465	3 Speed Carpet Blower

OmniAire MiniForce II

MINIFORCE

A small, portable negative air machine used in mold abatement projects. Available accessories include UV germicidal irradiation modules and activated carbon filters for removal of chemical fumes and biological contaminants. This equipment provides a cleaner and healthier environment in industrial facilities as well as abatement projects.

Item	Description
45128	OmniAire MiniForce II with Basic Filters

ECKO 12"

This high performance 12-inch fan is the right choice for your high volume ventilation needs. Special features include a one-piece cast aluminum impeller and rugged steel housing assuring long life and low maintenance. A unique sure-grip handle and built-in on/off switch make set-up and operation fast and easy. Four large rubber feet assure solid footing on slippery surfaces.

Voltage	115/230V
Frequency	60Hz
Phase	1
Power	550 watt
Free Airflow	2280cff
Weight	35 lb
Dimensions	13 1/4" l x 12 1/2" w x 15 1/2" h

Item	Description
A16125	ECKO 12" Ventilation Fan

ECKO 8"

- 1/3hp motor, this super-quiet blower boasts an airflow rate of 980 CFMs
- The 9 blade polypropylene impeller and power-coated steel grill add to the blower's long-lasting qualities. A bottom enclosure is built-in to protect electrical components. The rugged housing of the blower and duct canister is made from UV, corrosion and chemical-resistant polyethylene material
- Easy-grip handles are molded directly into the blower and canister, eliminating 'shaky' handles caused by loose fittings. Duct canisters feature a quick-connect clipping system that efficiently attaches the canister to the blower for ventilation or extraction. The canister are available with 15' or 25' duct.

The ECKO 8" blower/exhauster is available as a blower/exhauster only, with duct canister and 15' or 25' duct.

Voltage	115V 10 2A
Amps	Start: 8.5
Motor	1/3HP
Fan Size	8" x 9" blade impeller
Noise	74dB
Switch	On/Off
Cord	15 ft.
Weight	17 lb
Dimensions	14" x 12" x 13"

Item	Description
A70705	ECKO 8" 1/3HP 115V 50/60HZ Blower with Plastic Housing

MasterLock - Safety Lockout Padlock

- 1 1/2" (3.8cm) wide 3" (7.6cm) tall Xenoy body, shackle with 1 1/2" (3.8cm) clearance
- Designed exclusively for Lockout/Tagout applications
- Durable, lightweight, non-conductive Xenoy lock body
- Customize on-site with permanent, write-on labels
- Compliance with OSHA "one employee, one lock, one key" directive
- High security, reserved-for-safety cylinder
- Key retaining-ensures that padlock is not left unlocked
- Keyed alike 6-pin tumbler cylinder or Keyed different 6-pin tumbler cylinder

Item	Description
75782	Red, Keyed Alike
75783	Red, Keyed Different
75784	Blue, Keyed Different
A35967	Lock Out I.D. Tag, "Do Not Operate" (12/pk)
75796	Photo ID Labels (6/pk)
A27336	1" ID Non-Tabbed Red Lockout Hasp

Electrical Lockout Kit

Includes tool box, 3 keyed alike padlocks for a single worker's convenience, 1 compact circuit breaker padlock, 1 labeled snap-on hasp, 1 hasp, 1 wall switch lockout, 12 tags, 2 single pole, 1 double pole, and one 480/600V lockout device. Room for adding additional padlocks and lockout devices.

Item	Description
A23452	Electrical Lockout Kit - Keyed Alike Padlocks

Batteries

Item	Description
A57790	AAA Batteries (24/pk)
A57791	AA Batteries (24/pk)
A57792	C Batteries (12/pk)
A57793	9V Batteries (12/pk)

Outdoor Vinyl Extension Cords

OSHA approved heavy duty round vinyl extension cords are designed for contractors and industrial personnel. Molded-on and bonded vinyl plugs and connectors resist breaking or pulling off cord.

Item	Description
58004	50 ft. Heavy Duty 12/3 Triple Tap Extension Cord
58005	100 ft. Heavy Duty 12/3 Triple Tap Extension Cord
58006	50 ft. 12/3 Single Tap Extension Cord
58007	100 ft. 12/3 Single Tap Extension Cord

G Series Power Center

Safely, efficiently and economically distributes power throughout the jobsite. Takes 50 amps of 125/250V power and divides it into 4 or 6 individual 20A 125 V GFCI protected outlets and one 30A 250V non GFCI outlet. Can be used with a portable generator or a main power pole. Input is 50 amps of 125/250 V power. Output is 4 or 6 - 20A 125V GFCI protected outlets 1-30A 250V non GFCI outlet, 1-50A 125/250V outlet.

- Requires power receptacle and connection cords (not included)

Item	Description
58015	G Series Power Center
58016	5' Cord 6/3-8/1 Sow 50 amp Ends
58018	50' Cord 6/3-8/1 Sow 50 amp Ends
58019	Power Receptacle

Temporary Light Strings

Professional grade temporary light strings are designed for safety and durability when temporary lighting is required. Molded-on, weather resistant lampholders and lamp guards are spaced at 10 foot intervals for even illumination. Comes with holes in lampholders for use with messenger cable (not included).

Item	Description
75061	100' 12/3 Temporary Lighting with Metal Guards
75062	50' 12/3 Temporary Lighting with Metal Guards
58021	100' 12/3 Temporary Lighting with Plastic Guards
58020	50' 12/3 Temporary Lighting with Plastic Guards
Replacement Parts	
58022	Replacement Cage for String Lights Plastic
58041	100 Watt Tuffskin Bulb (each)
58042	100 Watt Rough Service Light Bulbs (4/pk)

Wobblelight

- Self-righting—Won't fall over
- Floating shock system—Protects bulb
- Convection and fan cooled—Won't burn
- Durable plastic housing—Won't bend
- Tough polycarbonate dome—Won't break
- No set-up required—Just plug it in
- Long-lasting—Bulbs have lasted years in the field
- String several together in series—Plug power tools into it

Item	Description
A62648	500W Halogen Worklight
75092	175W Metal Halide Worklight
A22276	400W Metal Halide Worklight
Replacement Parts	
75095	Replacement 175W Bulb
75096	Replacement 400W Bulb

500 Watt Quartz Light

Item	Description
58030	Outdoor Quartz Work Light
Replacement Parts	
58031	500 Watt Quartz Bulb

Portable Quartz Light

The 500 watt bulbs in these quartz lights are 33% brighter than incandescent bulbs. Each bulb cage has an instant On/Off switch, directional pivot base and 8 ft. grounded cord and plug. Telescoping tripod will extend up to 7 ft. Collapsible for easy storage.

- 5 ft. cord
- Pole extends to 5 feet
- 7' portable light with tripod
- Durable metal housing
- On/off switch
- (2) 500 watt bulbs included

Item	Description
75072	Dual Head Light Stand

Portable GFCI's

OSHA ground fault protection rules and regulations have been determined necessary and appropriate for employee safety and health. Therefore, it is the employers responsibility to provide either: (a) ground fault circuit interrupters on construction sites for receptacle outlets in use and not part of the permanent wiring of the building or structure; or (b) a scheduled and recorded assured equipment grounding conductor program on construction sites, covering all cord sets, receptacles which are not part of the permanent wiring of the building or structure, and equipment connected by cord and plug which are available for use or used by employees.

Item	Description
58012	15 amp 12/3 Inline GFCI
58011	4-Outlet GFCI Protected Power Station (15 amp-12/3)
58013	15 amp 12/3 Inline GFCI Triple Tap

Metal Guard Work Lights

Metal guard work lights are designed for rugged use by contractors and industrial personnel. Tough plastic handles are heat and shock resistant, with switch and 110/125V grounding side outlet. Includes grounded metal shade for added brightness and safety. Stays flexible at low temperatures.

Item	Description
A59397	Coleman Drop Light 25' Metal Cage
Replacement Parts	
58041	100 Watt Tuffskin Bulb (each)
58042	100 Watt Rough Service Light Bulbs (4/pk)

500 Watt Light

Lightweight heavy gauge T6 aluminum frame construction. Fixture suspended with springs for maximum protection against impact. Yellow powder coated frame.

CAGE LITE

Item	Description
58035	500 Watt Light
Replacement Parts	
58031	500 Watt Quartz Bulb
75054	300 Watt Quartz Bulb

FS1500 Series Type 1A Fiberglass Stepladder

- Da Boot™ - Polypropylene upper boot provides strength, durability and fiberglass rail protection. Thick rubber tread is bonded to the boot and provides slip resistant footing
- Molded top with tool slots
- Double-rivet step construction
- Inside spreader braces
- Reinforced bottom back braces

A heavy duty, 300 lb rated industrial stepladder. Nonconductive ladder designed for everyday use by contractors and industry professionals.

Item	Size	Bottom Width	Approx. Spread	Weight

Paint Brushes

Item	Description
70460	2" Wood Handle - Economy
70464	4" Wood Handle - Economy
75640	2" Polyester Brush - Lacquered
75641	3" Polyester Brush - Lacquered
75642	4" Polyester Brush - Lacquered

9" Paint Roller and Nap Cover

Item	Description
75647	9" x 3/8" Cover, Nap (med. surf.)
75648	9" x 1/2" Cover, Nap (med. surf.)
75649	9" 5 Wire Paint Roller

Economy Paint Tray

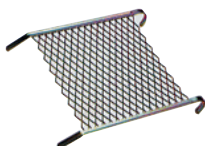

Economy metal tray, bright steel, ladder-lock legs, doweled surface. For 7" or 9" rollers.

Item	Description
75646	1 Qt. 9" Economy Paint Tray

5 Gallon Bucket Grid

Heavy steel, permits use of paint roller direct from 5-gallon paint pot.

Item	Description
75644	5 Gallon Bucket Grid

Scaffold

- 1" x 2 3/8" (2.5 x 6 cm) solid steel stack pins secure stacked units
- 72" x 28" (183 x 71 cm) plywood platform 5/8" (1.6 cm) thick with 1/32" (0.08 cm) galvanized banding
- Rigid, welded bracing for support
- Positive engagement locking mechanism
- 29 1/2" (75 cm) wide by 69 1/2" (176.5 cm) high ladders give access to platform. Easily fits through standard doors
- Adjustable in 4" (10 cm) increments. Maximum platform height 81" (205.4 cm)
- 5" (12.7 cm) wheel and swivel lock INDY CASTERS secured by machined steel bushings
- Spans available in 4', 6', 8', 10' (122, 183, 244, 305 cm) lengths

Item	Description
75825	6' Scaffold (handrails not included)
75826	Handrails

Tools for Paint Stripping

Item 57402

Item 57496

Item	Description
57402	Wall Stripper, 4" Wide, Angle Mounted Die Cast Head with Blade
57436	4" Replacement Blades (100/bx)
57496	4" Razor Scraper Blades (10/pk)
57403	4" Replacement Blades (5/pk)
57413	8" Razor Blade (10/pk)

ABC Fire Extinguishers

Multi-purpose ABC extinguishers utilize a specially fluidized and siliconized mono- ammonium phosphate dry chemical. It chemically insulates Class A fires by melting at approximately 350°F and clings to the surface to which it is applied. Smothers and breaks the chain reaction of Class B fires and is a nonconductor of electricity.

Item	Description
A66486	5 lb Fire Extinguisher with Vehicle Bracket
A66489	10 lb Fire Extinguisher with Wall Bracket
A66488	20 lb Fire Extinguisher with Wall Bracket

Poly Siphon Pumps

- Polyethylene construction

Fits most drums with 1 1/2" or 2" openings. Five gallon per minute flow rate.

Item	Description
91038	Poly Siphon

Mastercraft® Pump-out Vacuum

- Continuous pump-out for emergency situations
- Powerful 1.3 HP motor

The pump-out vacuum and adaptor are especially effective when vacuuming up liquid spills, leaks, for flood control and swimming pool maintenance. Liquids are recovered in the tank and continuously pumped out; this is especially useful in emergency situations. P42010SMP features a 1.3 HP motor head, 20 gallon poly tank with built-in pump and includes a barbed connector. It is shipped with a 15 ft. intake hose, 50 ft. discharge hose, mesh filter bag, 5 ft. metal wand, 16" squeegee and 12" gulper tool. The SMP-1 adaptor is designed to fit the P415 and P420 poly or #15 and #20 steel wet/dry vacuums or drum adaptors. It is easy to install, no special tools or equipment are required. All you need is a tank vacuum or drum adaptor, set up for wet pickup, and a ¾" garden hose or 1 ½" hose. The SMP-1 adaptor includes a conversion adaptor with swivel hose connector, 4 ft. vinyl hose, barbed hose connector, support cord with handle, mesh filter bag and power cord with ground fault interrupter.

P42010SMP Wet (431001)	
Vacuum Motor	120 V, 2 Stage 1.3 HP
By-Pass	94 CFM - Waterlift 84"

54569	Replacement Belt (#450170)

P47 Enviromaster 5-Gallon HEPA Dry Vacuum

The P47 is designed for industrial/commercial applications in order to vacuum up hazardous material. This compact vac is ideal for use in hospitals, clean rooms, schools, laboratories or wherever air and dust pollutants exist. It has a minimum filter efficiency of 99.97% at 0.3 microns, DOP method. Comes with 2 heavy-duty chrome plated steel hold down clamps, plus the positive locking hose connector with 360 swivel, which fits tank inlet for vacuuming or blower outlet to use exhaust for blowing applications.

Heavy duty poly tank is rotationally molded, equipped with four 2 ½" swivel casters and 3 hold down clamps.

Item	Description
54220	5 Gal. P47 Series HEPA Lead Vacuum with HEPA, Bags, 14" Interfilter, 10' Hose, 2 Piece Wand and Dry Tool Kit
54221	AF12 HEPA Filter Kit
54222	Vacuum Bags (5/pk)
54149	14" Intermediate Filter (2/pk)

Multi Purpose Dustless* Floor Machine

*When Used with Vacuum

20" Unit with Optional Solution Tank

16" Unit

This multi-purpose machine is designed for resurfacing and polishing concrete floors; restoring or preparing wood decks, hardwood floors, and removing coatings and mastics. Unique changeable heads are easy to install and remove, adding to the machine's versatility.

The counter-rotating head makes this machine easy to operate and control with no sliding. Flexible startup trigger allows the operator to activate the machine with a gentle squeeze on the 120 volt machine.

Heavy-duty switch is set in a steel switch box with 15 amp circuit breaker on the 120 volt machine. The handle and frame are constructed of heavy-duty steel for strength and durability.

Unique belt drive 3-head system is designed for smooth operation with superior results. The outer bowl is made of spun steel and the inner bowl of cast aluminum. Equipped with 6" transport wheels, 1 1/2" vacuum port for use with the dry vacuum, and bottom dust skirt that contains dust during operation.

Item	Description
57777	16" Multi Purpose Dustless Floor Machine - Low rpm (1.5 HP/115V)
57705	16" Multi Purpose Dustless Floor Machine - High rpm (1.5 HP/115V)
58110	16" Multi Purpose Dustless Floor Machine (3.0 HP/220V)
58040	20" Multi Purpose Dustless Floor Machine (3.0 HP/220V)
57780	20" Multi Purpose Dustless Floor Machine (5.0 HP/220V)
Replacement Parts	
57786	Kevlar Belt Set - 20" Unit (3/st)
57787	Kevlar Belt Set - 16" Unit (3/st)
57788	Dust Skirt - 16" Unit
A16157	Dust Skirt - 20" Unit

Floor Machines

All steel triple planetary gear system, permanently lubricated is standard on all models with specially designed flex coupler to guard against possible motor damage when under load. Flexible dual triggers for left or right hand operation are nonconductive and have built-in safety lock-outs to prevent accidental start-ups.

Heavy-duty switch is set in a die cast aluminum switch box that won't chip or rust. Designed with an extra heavy-duty reinforced size point cast aluminum wheel support system. Equipped with a 50' 3-wire safety yellow power cord with a water resistant jacket. Cast aluminum apron is reinforced for added strength and rigidity with nonmarring bumper to prevent damage to furniture and walls. All models are UL and CSA listed.

*Not to be used with the Scrape-Away Tool

Item	Description
A31485	MD-15D, 1 HP, 15" Floor Machine with 4 Gallon Solution Tank
58270	1.5 HP 17" Floor Machine (polished metal)
58459	1.0 HP 17" Floor Machine (polished metal)
A56242	1.5 HP 20" Floor Machine (polished metal)
A57475	1.5 HP 24" Floor Machine (polished metal)

Belt Driven Floor Machine

The MD180 belt drive floor machine is designed for heavy duty stripping, scrubbing and polishing on most types of hard surface floors. Well balanced and easy to use, with an exceptionally low noise level because of the poly-v-belt. Dual safety lockout switch is designed so the handle must be in operating position to activate safety lockout. The handle adjustment lever is conveniently located on the nonconductive switch box. Cast aluminum base for added strength and rigidity. Nonmarring bumper prevents damage to furniture and walls. Offset motor design puts weight on the machine's outside edge for better weight distribution.

Motor	1.5 hp, 115V 60 Hz
Current	9 amps

Presprays

Enz-All

- Formulated to breakdown the toughest protein grease, oils and soils
 - Excellent for use in healthcare, food service and hospitality environments
 - Effectively breaks down all protein related stains, including blood, feces, and grass
 - Has an indefinite shelf life when undiluted
- pH: 10.0 - 11.0
Coverage: Up to 2,000 sq. ft. per pound
Dilution: Dependent on application

Item	Description
A56184	Enz-All (6 lb jar)
A56822	Enz-All (22 lb container)
A56183	Enz-All (50 lb container)
A56786	Enz-All (365 lb drum)

Spotters

Liqua-Gel®

- The only solvent that can be applied directly to carpet
 - Removes tar, grease, ink, gum, glue, oils, adhesives and other stubborn spots
 - Dries from outside in for longer dwell time
 - Will not delaminate carpet backing when properly used
- pH: N/A
Coverage: Spot coverage
Dilution: Ready-to-Use

Item	Description
A56262	Liqua-Gel® (16 oz bottle)
A56261	Liqua-Gel® (5 gallon pail)

Professional Spot Lifter

- Provides maximum spotting on oily stains
 - Simple "spray and blot" procedure
 - Effective on blood, soda, light grease, oil, tar, light coffee, tea, floor finishes, copier toner, spills, dirt, grime and more!
- pH: 8.5 - 9.5
Coverage: Spot coverage
Dilution: Ready-to-Use

Item	Description
A56314	Professional Spot Lifter (1 gallon)
A56315	Professional Spot Lifter (1 liter)

Absorb-A-Stain

- Absorb-A-Stain® soaks up recurring stains and spills from carpet and upholstery
 - Works down deep to eliminate stains that continually reappear or "wick-up" after attempts to clean with other products
 - Soaks up stains and spills just like you were using over a thousand super absorbent towels
- Coverage: Varies
Fragrance: Floral
Appearance: White powder

Item	Description
A57418	Absorb-A-Stain (12 lb container)

CHEMSPEC®

Detergents

Roto-Brite II

- For bonnet and interim cleaning
 - Removes coffee, tea, soda, light inks, greases, oils and tar
 - Can be boosted using 1 ounce Energizer per 1 gallon of ready-to-use solution
- pH: 8.5-9.5
Coverage: Up to 12,000 sq. ft. per gallon
Dilution: 12 oz per 1 gallon water

Item	Description
A56317	Roto-Brite II (1 gallon)

Deodorizers

Kill Odor Plus

- Prespray, spot and deodorize all in one product
 - A unique blend of solvents, anionic surfactants and proprietary fragrances that stops urine odors at the source
 - Now certified under the Carpet and Rug Institute Seal of Approval having met all requirements as a prespray and spotter
- pH: 6.5 - 7.5
Coverage: Dependent on application
Dilution: Dependent on application

Item	Description
A56196	Kill Odor Plus (1 gallon)

Urine Contamination Treatment

- Effective in neutralizing even the most stubborn urine problems
 - An anionic aldehyde solvent system containing surfactants to penetrate quickly
 - Can be used on carpets, fabrics and hard floor surfaces
- pH: 6.5 - 7.5
Coverage: Spot coverage
Dilution: Ready-to-use

Item	Description
A56326	Urine Contamination Treatment (1 gallon)
A56327	Urine Contamination Treatment (1 liter)

Specialty

All Fiber Textile Rinse

- Effectively used on upholstery as well as carpet
 - Safe for use on most natural and synthetic fibers
 - Can be used as a fiber prep as the first step in a redyeing process for on location nylon and wool dyeing
 - Effective in neutralizing urine residue (odor) prior to deodorization
 - Can be used to speed drying time for flood restoration pH: 2.5 – 3.5
- Coverage: Up to 13,000 sq. ft.
Dilution: Dependent on application

Item	Description
A56137	Textile Rinse (1 gallon)
A56769	Textile Rinse (55 gallon drum)

Crystal Defoamer

- Broadcast by hand on dry carpet to eliminate vacuum loss from foaming residues
 - Rinses free during cleaning when properly used and will not mark carpet or cause resoiling
- pH: N/A
Coverage: Up to 4,000 sq. ft. per pound
Dilution: Ready-to-use

Item	Description
A56173	Crystal Defoamer (8 lb jar)
A56174	Crystal Defoamer (50 lb container)
A56783	Crystal Defoamer (365 lb drum)

Leather Cleaner and Conditioner

- Helps replace natural oils that leather loses as it ages
 - One quart cleans a sofa, love seat and chair
 - Safe on most finished leather, vinyl and naugahyde
 - Prolongs leather's natural beauty, keeping the leather soft and supple without leaving an oily residue
- pH: 8.0 – 9.0
Coverage: Dependent on application
Dilution: Ready-to-use

Item	Description
A56198	Leather Cleaner (1 quart)
A56197	Leather Cleaner (5 gallon pail)
A56791	Leather Cleaner Starter Kit (one kit)

Liquid Defoamer Concentrate

- For portables or truck mount waste tanks
 - Can be sprayed into wand and pick-up hose to prevent foaming
 - Laboratory tested to be superior to other defoamers currently on the market
- pH: 7.0 - 8.0
Coverage: Dependent on application
Dilution: Dependent on application

Item	Description
A56175	Liquid Defoamer (1 gallon)

Browning Treatment

- Removes cellulosic browning from carpet and upholstery
 - Removes or reduces browning due to overwetting and bleed through of jute back-when the jute carpet backing becomes overwet
 - Removes or effectively reduces this type of discoloration
- pH: 4.0 – 5.0
Coverage: Up to 200 sq. ft. per gallon
Dilution: Ready-to-use

Item	Description
A56172	Browning Treatment (1 gallon)
A56770	Browning Treatment (55 gallon drum)

Eliminator I

The multi-stage filtration system features a HEPA exhaust that captures 99.97% of dust and debris, down to and including 0.3 microns. All filters, accessories and hoses are interchangeable within the Eliminator line. Lightweight, easy to empty 5 gallon collection container. Three stage filtration system features 2.25 gallon disposable bag, a main filter and a HEPA exhaust filter. Features a wheeled trolley, on-board tool caddy, large ergonomic handle, 50' safety cord and a standard set of accessories (10' hose, aluminum curved wand, 2 telescopic wands, dust brush, crevice nozzle, and a floor tool with 3 inserts).

Item	Description
54351	Eliminator I Vacuum Complete
54451	HEPA Filter
54452	Main Filter
54353	Paper Bags (3/pk)
54355	10' Replacement Hose Complete
54356	Wands (2 pcs)
54357	Floor Nozzle with Inserts
54358	Crevice Nozzle
54359	Dust Brush

Eliminator II

All filters, accessories and hoses are interchangeable within the Eliminator line. Easy to empty 12 gallon collection container with integral drain hose for simple disposal of wet materials. Three stage filtration system features a HEPA exhaust filter. Float valve automatically shuts vacuum off when container is full. Features a wheeled trolley, on-board tool caddy, large ergonomic handle, 50' safety cord and a standard set of accessories (10' hose, aluminum curved wand, 2 telescopic wands, dust brush, crevice nozzle, and a floor tool with 3 inserts).

Item	Description
54352	Eliminator II Vacuum Complete

54453	Main Filter
54354	Paper Bags (3/pk)
54355	10' Replacement Hose Complete
54356	Wands (2 pcs)
54357	Floor Nozzle with Inserts
54358	Crevice Nozzle
54359	Dust Brush

Sandia Sniper

The Sniper 100 is designed for the rental and light industrial customer with a 100 psi solution pump, 12 gallon solution and recovery tanks and a standard 2-stage, or optional 3-stage vac motor. Add the optional in-line heater for extracting at 198°F.

The Sniper 200 is designed for the professional user with a 200 psi solution pump, and a standard 2-stage or optional 3-stage vac motor. Optional in-line heater.

The Sniper 500 is the most powerful extractor in the family, with a solution pump adjustable from 200-500 psi and a standard 2-stage or optional 3-stage vac motor design. Add the optional in-line heater for extracting at 198°F.

- Convenient waist high controls.
- Easy-fill solution tank and the "Quick-Dump" recovery tank.
- Weight from 110 -137 lbs, depending on model and options.
- Powerful twin vacuum motors deliver 165 inches of water lift for fastest carpet drying. Air flow design for cool motors.
- Semi-pneumatic 10" transport wheels for easy stair climbing
- "Best Warranty on the Planet" 5-year warranty on chassis. 2-years on pumps and motors. 1 year on tools.

Item	Solution Pump	Twin Vac Motor	In Line Heater

Hazmat Waste Container Kits

- 36" x 36" x 36" cubed container
- Hold up to 2,500 lbs.
- Stackable—three high
- Meets UN Standards—Group I, II, and III*

Hazmat waste container kits are most economical, UN approved method for transporting hazardous materials safely. Constructed of high performance, three-wall corrugated board, poly liner and wood pallet with fasteners. Ships and stores flat for lower cost shipping and space saving storage. Simple, easy, set-up requires only one person. *UN rating applies when purchased as a kit only.

Item	Description
55988	Hazmat Waste Container Kit
Replacement Parts	
55990	High Performance Corrugated Container
55998	8mil Poly Liner, 41" x 40" x 85" (25/rl)
55994	Wood Pallet

Clavies® Biohazard Bag Holders

Bag is securely supported on a stainless steel wire frame and polypropylene bottom, which also serves as a containment tray in the event of bag leakage. Tray is safety orange in color for easy identification as a biohazard containment system. Autoclavable at 121°C (250°F) to maintain sterility. The small bag holder is ideal for benchtop use. These lightweight units are shipped unassembled for more economical transportation. Assembly takes only minutes and is permanent.

Item	Description
A60327	Clavies® Biohazard Bag Holders - Large (14" x 14" x 27.2")
A58811	Biohazard Bags, 250/roll, fits A60327 (25" x 34")

Contaminated Clothing Box

- Regular slotted carton inside dimensions - 24" x 24" x 42" stitched
- Heavy "SC" Steel Stack™ double-wall construction
- 14 cubic ft. capacity
- Able to be stacked when filled to save space until disposal.
- Boxes come knocked down flat, 50 per pallet
- Pallet size 67 1/2" x 49 1/2" x 50"
- Heavy duty biohazard bag sold separately

Item	Description
80709	Contaminated Clothing Box
80708-33	Red 4mil Heavy Duty Biohazard Bag 54" x 67"

Sharps Container

Item	Description
A58814	Sharps Stackable Container (1 gallon)
A58812	Sharps Stackable Container (8 gallon)

Bulb Disposal Containers

Item	Description
90407	Bulb Disposal Container, 4' box
90418	Bulb Disposable Container, 4' Cylinder for Fluorescent Bulbs

WASTE COLLECTION

Biohazardous Waste Cans

Eagle's red biohazardous waste cans advise workers of potential biohazards. Meets OSHA Requirements for exposures to bloodborne pathogens 29CFR1910.1030.

Item	Description
90395	6 Gallon Can
90396	10 Gallon Can
90397	14 Gallon Can

Trash Bags with

Item	Description
Black Trash Bags with Microban (100/cs)	
56400	20-30 Gallon 30" x 36" Heavy Gauge
56401	55 Gallon 38" x 58" Heavy Gauge
56402	55 Gallon 38" x 58" X-Heavy Gauge
56403	33 Gallon 33" x 39" Heavy Gauge
56404	56 Gallon 43" x 47" Heavy Gauge
56405	56 Gallon 43" x 47" X-Heavy Gauge

Heavy Duty Trash Bags

Item	Description
56200	Black 3 Mil 32" x 50" 42 Gallon Trash Bags (50/bx)

Plastic Pails

- Screw top cover for easy opening and resealing
- High-density polyethylene construction

Nestable 5 gallon pails feature steel handle for easy, safe transportation. White polyethylene construction.

Item	Description
A63543	5 Gallon Screw Top Pail, DOT Approved
90621	5 Gallon Pail, DOT Approved

Round Trash Container

Molded of engineered resins with seamless construction, this container is a strong, long lasting receptacle used by virtually every industry. From food prep to foundries, from refuse to bio-hazard waste, this container keeps on working. Stackable with lid on, nestable with lid off.

Item	Description
Container, Grey	
A57607	20 Gallon
75382	32 Gallon
A52220	44 Gallon
A52307	55 Gallon
Flat Lid, Grey	
A57569	Fits 20 Gallon
A57570	Fits 32 Gallon
A57571	Fits 44 Gallon

Dome Top Lid, Grey	
A57572	Fits 32 Gallon
A57574	Fits 44 Gallon
A57597	Fits 55 Gallon

Round Container Dolly

The twist-on, twist-off dolly converts a stationary container into a mobile hard working tool. It fits the 20, 32, 44 and 55 gallon container and features five, 3 inch non-marking swivel casters.

Item	Description
A47605	Round Container Dolly

Waste Receptacle

These square containers provide 25% more capacity which equates to labor and poly liner savings. The rolled rim provides strength and a convenient area to lift or pull. Reinforced base will take rough commercial use and they nest for easy storage. Compatible with Drop Shot lids (see below).

Item	Description
A57824	Waste Receptacle (25 gallon)
A57825	Waste Receptacle (32 gallon)

Drop Shot Lid for Waste Receptacle

Fits 25 and 32 gallon waste receptacles.

Item	Description
A58000	Drop Shot Lid for Receptacle

Biohoop® Collection Bag

What current users are saying about the BioHoop Collection Bag!

- "Great for contaminated laryngoscope blades."
- "We've used it as a catch basin when starting an IV on a patient on the cot. It keeps the blood off the floor and saves clean-up time."
- "It's big enough to hold a contaminated TB mask."
- "Best emesis bag we've tried to date."

Features and Benefits

- Semi-Rigid Rim—Keeps the bag open, providing a large target for the patient.
- Large 8" x 13" Bag—Provides a large enough opening to prevent spillage and allows for acceptance of larger biohazard waste, as well as evidence from accident and crime scenes.
- Cinchable Strap—Provides instant closure of the bag with just a pull of the strap.
- Protective Perimeter Cuff—Long cuff on the exterior perimeter of the bag protects your hands from body fluids.
- Protective Perimeter Cuff—Long cuff on the exterior perimeter of the bag protects your hands from body fluids.
- Clear Front / White Opaque Back—Clear front makes it easy for hospital personnel to examine contents of the bag. White opaque backside allows the EMT to position the bag in the ambulance so that the contents are not visible during transport, if so desired.
- Printed Volume Indicators—Easy-to-read scale on the front of the bag gives indication of the approximate volume in the bag at a glance.
- Plastic Hanger Hook—Provides an easy method of attachment of the BioHoop Bag to cot rails, grab handles, wheelchairs, hospital beds, turnout gear pockets, etc.
- Compact Design—Bag folds flat for storage under a cot pillow, inside a trauma or airway kit, or on standard cabinet storage shelves.

Item	Description
A63339	Biohoop® Collection Bag with Hook (12/box)

Poly Tilt Truck

Ideal for transporting, storing, or disposing of waste bulk material.

Item	Description
75402	Poly Tilt Truck (1,000 lb capacity)

Poly Taper Truck

Ideal for transporting waste through occupied buildings. Made of tough, durable polyethylene. Easy to clean and sanitize. 5" casters and plywood base standards. Bolts on all trucks encapsulated into truck base. Lids not included.

Item	Description
57170	Poly Taper Truck (20 bushel)

Plastic Box Utility Trucks

5" casters mounted on 5-ply plywood base for extra rigidity.

Item	Description
75399	Capacity: 96 Gallon, 12 Bushels, 550 lb
