

AIR MOVERS

Sahara Pro X3 TurboDryer®

The all new Dri-Eaz Sahara Pro X3 TurboDryer is the ultimate airmover for restoration pros. This new lower amp, three-speed airmover offers everything restorers need for performance and versatility, plus legendary Dri-Eaz durability and reliability.

- Tested velocity of 2071 ft/min
- 1/3 hp motor
- Weighs 27 lbs
- 4.0 Amps

Item No	Description	Unit
F351	Sahara Pro X3	Each

Sahara HD TurboDryer®

This new air mover has the CFM and static pressure needed to power through drying challenges. This durable and reliable performer works especially well for applications that require stronger static pressure, like drying in walls, under cabinets and in crawl spaces.

- Underside drying vent
- Microban® antimicrobial protection
- Quick disassembly for cleaning
- Easy-grip handle
- Stackable for storage
- Tested velocity of 3206 ft/min
- 1 hp motor
- Weighs 36 lbs
- 10 Amps

Item No	Description	Unit
F352	Sahara HD	Each

Sahara E TurboDryer®

The Sahara E Turbodryer offers a low-cost option. Get the durability and reliability of the Sahara at an economical price.

- Underside drying vent
- MICROBAN® antimicrobial protection
- Quick disassembly for cleaning
- Easy-grip handle
- Stackable for storage
- Tested velocity fo 2042 ft/min
- 1/4 hp motor
- Weighs 24 lbs
- 7.2 Amps

6	L-Channel Diverters
1	Dehumidifier Inlet Adapter
2	Metal Duct Clamps
1	Poly Foam Gasket: 10'
1	Wheeled Duffel Bag

AirWolf and WolfPack Hardwood Floor Drying System

The **AirWolf** uses an unbeatable combination of CFM and static pressure to literally force water out of damaged hardwood floors. The **WolfPack System** directs the high-velocity airflow of the AirWolf into the flutes between the flooring and the subfloor. This way the floor actually dries from the bottom out. Connect the WolfPack attachment to your AirWolf air mover to complete the ultimate hardwood floor drying system. The AirWolf/WolfPack can dry out a hardwood floor in as little as three days. By drying fast from beneath, the AirWolf/WolfPack system can help reduce or eliminate cupping and associated refinishing costs. The need for sanding is also eliminated.

- Up to 800 cfm and 7 3/4" of static pressure
- Powerful 1.0 hp motor
- Stack the AirWolf for storage
- Carrying case included for WolfPack attachments

Vortex Axial Fan

This Dri-Eaz airmover will ventilate confined spaces through up to 125' of Sto & Go ducting. The single-speed Vortex uses a 12" axial fan blade to pull musty air out or propel fresh air in inaccessible areas. It's also an ideal choice for drying large open areas like gyms, concrete pads, hallways, etc.

- Tested to 1820 cfm
- 1 hp motor
- Weighs 35 lbs
- 7.4 Amps

PHOENIX
RESTORATION EQUIPMENT

Phoenix Window Adapter

An easy-to-use tool that allows the restoration professional to properly duct drying equipment outside the structure being worked on. It adapts to most double hung and sliding windows. Adjustable size openings and quick release cords allow ducting to quickly be secured to the window, eliminating the need for messy tape. Accommodates up to 12" wire-form flex and 14" lay-flat ducting. Water-resistant construction helps keep moisture out of the drying space, even if it is raining outside.

4027342	Phoenix Window Adapter	Each

Direct It Injectidry's Airmover Adapters

Injectidry's universal airmover adapters are specifically developed to target areas which need high air exchange rates. They are suited for areas where you can drill a larger hole. The adapters make airmover inventory much more versatile. A must have for serious contractors. "Universal" means just that. The air collection adapter attaches to almost all standard airmovers.

Snout Adapter Kit

For use with the Sahara line of Dri-Eaz TurboDryers. Does not include ducting or mini-vents.

Item No	Description	Unit
F201	Snout Adapter Kit	Each

TurboVent 48™

Attach the TurboVent 48 directly to the HP's snout to deliver a 48" wide column of air. Ideal for drying wet wall and ceiling cavities. Complete system includes a 48" TurboVent, and a 24" Shock Cord w/hook ends.

Item No	Description	Unit
F108	TurboVent 48	Each

Turbo Vent™

Attach the TurboVent to your Sahara Pro-HP TurboDryer and force air into difficult-to-dry areas like cabinets, cupboards and walls.

Includes:

- 1 Snout Adapter Assembly
- 1 50' Length of 4" Vinyl Ducting
- 3 Mini TurboVents
- 5 Vinyl Duct Caps
- 9 Metal Duct Clamps
- 1 Wheeled Duffel Bag

Item No	Description	Unit
F200	Turbo Vent	Each

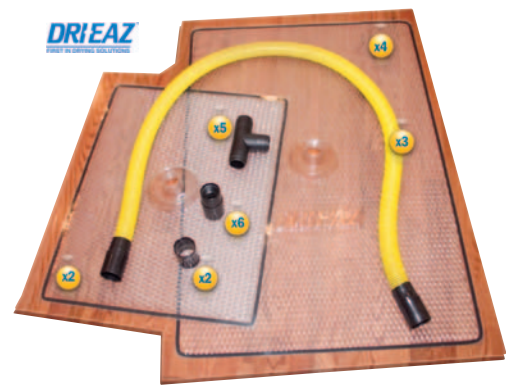

TurboChannel

Areas like sill plates, bay windows, and cabinet kickplates are usually the last to dry. Now you can increase the air velocity of your Dri-Eaz TurboDryers with an exciting accessory called the TurboChannel. This product concentrates airflow to hard-to-dry areas by increasing air velocity 40-50% up to 10-25' from the TurboDryer.

Item No	Description	Unit
F327	TurboChannel	Each

Rescue Mat System

Dry out water-damaged hardwoods from above. The **Rescue Mat System** uses the power of a high-pressure blower like the DriForce to vacuum water vapor right through the surface of the floor. Two different sizes make it easy to custom fit your Rescue Mat System to any floor layout. Setup is fast and simple with just one hose connection per mat. Also available, is the

Rescue Mat Bag. The new and improved design of this bag offers reinforced corners along the seams and handles, offering a sturdy solution for carrying and transporting your Rescue Mats. DriForce Air Mover sold separately.

- Two separate sizes for mix-and-match versatility.
- No taping necessary. Gasket-edge provides a powerful seal.
- An ideal complement to the AirWolf/WolfPack.

DRIEAZ DriForce® InterAir Drying System™

For drying walls without damage. The DriForce forces high-pressure air into wet walls for wall drying with minimal disruption. You only need to make tiny 1/4" holes at baseboard level to introduce 60" of static pressure from the DriForce. It's perfect for hard-to-reach areas like behind cabinets, tubs, under stairwells, etc.

- Force air in or vacuum air out
- Dry up to 90 linear feet of wall
- Up to 60" of static pressure
- Averages just 3 amps
- Fits in two convenient carrying cases

Item No	Description	Unit
F211	DriForce System	Each

InjectiDry HP60i Moisture Ventilating System with Active Hoseline

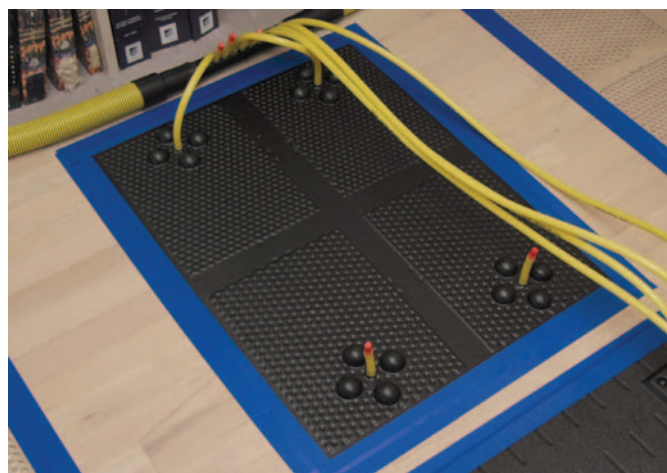

- Dries by moving dry air into walls or pulling moist air out
- Dries hardwoods fast when used with our Vac-It Panels
- Controls contamination when used with our Interceptor HEPA
- Up to 48% more drying power than competition
- A noticeably quieter system (1/3 less noise)
