### Safety Lockout Hasps

Lockout by up to 6 workers at each lockout point

| Model# | Description          |
|--------|----------------------|
| 420    | 1" Diameter Jaws     |
| 421    | 1-1/2" Diameter Jaws |

- Designed by Safety Directors specifically for OSHA lockout compliance
- Durable, lightweight, non-conductive Xenoy® lock body
- Customize on-site with permanent, write-on labels
- Compliance with OSHA "one employee, one lock, one key" directive
- High Security, reserved-for-safety cylinder – up to 100,000 key changes
- Key retaining – ensures that padlocks are not left unlocked
- Laser engraving, key charting, and photo I.D. labels available on request. Specify if desired.

- Keeps equipment inoperative while repairs or adjustments are made
- Attach device to energy disconnect switch
- Control cannot be turned on until last worker's padlock is removed
- Insulated with bright vinyl coating
- Heavy gauge steel resists prying
- Two jaw diameters available to fit all applications
