torbo L320

torbo L320 – the productive system

The torbo system L320 is a specialist for large surfaces. It makes concrete and steel cleanup processes much easier and is surprisingly inexpensive. Due to its large tank volume only 2 to 4 tank fillings are required each day. This system, specially designed for professional operations, distinguishes itself above all in industrial usage. Make use of this chance to work both effectively and with the necessary attention to surface care at great heights.

With our L-system you not only work surprisingly flexibly, but also very
