

Product Data Sheet

POWER CLEAN 1 ACIDIC TILE & GROUT CLEANER/RESTORER

Model No. CAHS02

Product Description:

Power Clean 1 is a revolutionary product for ceramic tile and grout. When used after Chemsafe Advantage's Power Clean 12 Alkaline Tile and Grout Cleaner, it brightens and restores grout to its original, natural appearance. Power Clean 1 contains safe, low pH cleaning agents that will allow for the replacement of most harmful acids that currently may be utilized. Power Clean 1 can be used on porcelain, ceramic tile, grout, concrete, plastic and many other surfaces that other acids would destroy.

Power Clean 1 removes soap scum, light grease, hard water deposits, and post-installation grout haze while restoring the tile and grout. It is especially effective on removing efflorescence. Power Clean 1 may also be used to etch concrete, brick, marble, terrazzo, and limestone.

Directions for Use:

Always pre-test in an inconspicuous area for surface compatibility. **DO NOT USE ON ACID SENSITIVE SURFACES.** May oxidize some metals.

Mask off and cover all surfaces that may come in contact with Power Clean 1. Dilute Power Clean 1 1:8 with water (16 ounces of Power Clean 1 per gallon of water). Heavy-duty jobs may require a dilution of 1:4 (32 ounces of Power Clean 1 per gallon of water). Apply ready-to-use solution of Power Clean 1 with clean applicator, sponge, or coarse spray sprayer (**DO NOT AEROSOLIZE**). Allow 5 minutes dwell time. Agitate as needed. **DO NOT LET DIRTY SOLUTION DRY ON SURFACE.** Extract and rinse with appropriate tools. Rinse area well with clean water and let dry.

Warning:

Causes skin irritation. Causes serious eye irritation. Harmful if swallowed. Harmful if inhaled. Wash face, hands and any exposed skin after handling. Wear protective gloves/protective clothing/eye protection/ face protection. Avoid breathing mist/spray. **IF IN EYES:** Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if irritation occurs. **IF ON SKIN:** Wash with plenty of soap and water. If irritation occurs, get medical advice/attention. Take off contaminated clothing and wash it before reuse.
