**Leading Protective
Solutions**

Honeywell

The Choice of Professionals

Why are Honeywell products the trusted choice of so many professionals?

Because, from concept to development, we listen to the input of elite special operations groups, law enforcement personnel and others on the front lines.

Because each product reflects Honeywell's commitment to technological innovation, engineering excellence and product stewardship.

Because we turn your experience into solutions.

Whether it is new products you need, increased protection you require, or better design, comfort, fit or durability you demand, our research and development team stands ready to create a solution that meets your specific need.

We anticipate your future needs by evolving solutions to tomorrow's evolving threats.

We track emerging technologies and new high-tech materials that can dramatically enhance protection levels.

We are establishing ourselves as the first choice for innovative head-to-toe solutions, from eye and face to hearing to respiratory protection.

We reinvent safety.

Hearing Protection

QUIETPRO® Intelligent Hearing Protection and Communication System

Imagine the danger created for law enforcement officers who have suffered hearing damage as a result of exposure to weapons fire or an explosion, and are unable to hear commands or incoming fire. If their hearing is impaired, they and their fellow officers are at a higher risk of not clearly hearing communications or incoming enemy fire.

The QUIETPRO intelligent hearing protection and communication system from Honeywell turns that potential impairment into a tactical weapon. It transforms an officer's hearing from a point of vulnerability to a tactical advantage.

Based on combat-proven technology, QUIETPRO is the only intelligent hearing protection and communication system that provides smart personal hearing protection, enhancement, and clear communication throughout the full spectrum of range and tactical operations.

With QUIETPRO, leaders can feel confident that their officers maintain full hearing readiness before, during and after deployment, as well as into a healthy retirement.

QUIETPRO offers:

- The clearest two-way communications and speech intelligibility in extreme noise
- "Bionic hearing" technology to deliver fastest adaptive hearing protection for superior situational awareness and understanding in rapidly changing noise environments
- Amplification of ambient sound up to 5x natural hearing threshold, increasing officers' understanding of their environment
- Maintenance of an officer's full hearing readiness before, during, and after operations
- Earbud-style headset easy to fit, comfortable for long-term wear

Key Features:

Clear communication essential for adapting to and understanding rapidly changing environments

- **In-ear headset**

QUIETPRO® transmits voice signals through a microphone inside the in-ear headset through air conduction. This eliminates ambient sounds, enabling soldiers to clearly communicate in sensitive environments and when wearing head protection (e.g., ballistic helmets, CRBN masks).

- **Exclusive automatic fit check**

Upon insertion of the eartips and system start-up, QUIETPRO performs a quick calibration check to detect proper fit, validating adequate hearing protection and clear communication transmissions in each ear.

- **Superior digital processing**

QUIETPRO's patented digital signal processing synthesizes allowable incoming signals, feeding the user fully-optimized sound. Result: the industry's clearest communication, especially in medium-to-high noise environments.

- **Fully adaptive hearing protection**

Patented digital Active Noise Reduction (dANR) technology adapts to the unique acoustic characteristics of each ear. Its "always listening, always on" technology processes sounds, instantly attenuating the sounds you don't want to hear and clearly delivering the ones you do!

QUIETPRO® QP+

QUIETPRO QP+ is always listening, always on

Always listening, always on, QUIETPRO QP+'s bionic hearing expands a user's personal situational awareness and understanding by not only adapting to changing noise noises but also increasing hearing thresholds up to 5x normal hearing. This allows an officer to detect immediate threats in sensitive operations and at further distances, assess rapidly changing environments and potential threats, and make smarter decisions about actions in tactical operations.

QUIETPRO helps you hear:

- Clear radio communications, enhancing verbal commands and warnings
- Face-to-face conversation in high-noise environments at normal levels
- Environmental sounds, including enemy movement or activity such as footsteps, twigs snapping, absence of birdsong, weapons cocking, etc.

QP+

QUIETPRO® QP400

QUIETPRO QP400 has a new interface for more flexible, smart radio communications

On foot patrol, mounted in a vehicle, or in the air, QUIETPRO QP400 provides full jump-on/plug-in transition throughout all mobility platforms. In fact, QUIETPRO QP400 adapts to the widest range of radio and comms platforms, maintaining simultaneous connections to personal and mounted radios, keeping officers networked and connected during all stages of their mission.

Plus, its new slimline design improves user ergonomics, from its easy to press button controls to its lower profile design with cabling on one end. QUIETPRO QP400's voice feedback menu enables users to manage audio output and amplification settings easily.

QUIETPRO QP400's radio connectivity supports:

- Quick connection/disconnection – cables allow speedy, flexible connection to personal and vehicle comms
- Optimum radio interface configuration – adapting to a wide range of available radios
- Four-radio/intercom capability – via smart comms hub plus dedicated mobility port, routes audio to connect up to four separate tactical radios or vehicle comms networks simultaneously

QP400

Respiratory Protection

Survivair Commando™ Self-Contained Breathing Apparatus

An invisible SCBA, developed in response to requests by police department SWAT teams, the Survivair Commando is designed to be as unobtrusive and quiet as possible, while still ensuring maximum safety and comfort.

Key Features:

- **Facepiece heads-up display (HUD)**
Provides users with easy identification of their air status without an audible alarm.
- **Optically correct Twenty/20+™ facepiece**
Provides a distortion-free view and unparalleled comfort with your choice of a five-strap silicone or Kevlar® headnet harness.
- **Black 30-, 45-, or 60-minute carbon cylinders are painted black without a reflective band**
Blend in with stealth environments.

- **Black harness, facepiece components and cylinder**

Provide for a truly stealth appearance. Non-reflective, blend in with dark uniforms and cylinder backgrounds. Optional black Nomex®/Kevlar® shroud to cover cylinder valve and first-stage regulator for enhanced concealment.

- **Silicone rubber facepiece**

Provides durability. Won't oxidize or react with ozone. Unsurpassed comfort, even in extreme heat or cold. Available in three sizes. Five-strap harness and skirt. Better sealing ability for improved comfort and fit. Optional headnet mesh-style head harness. Convenient, easily removable exhalation valve. Faster and easier servicing.

- **First-stage regulator – minimal moving parts**

Dramatically enhances reliability while reducing maintenance costs.

- **Second-stage regulator – compact, low profile**

- Air Klic™ fastening system, First-Breath-On**

Provides better downward vision, less chance of damage. Allows quick and easy attachment. Activation of unit without free flow. Can be kept in stand-by mode.

- **Low-air alarm – no audible alarm**

Performs silently in potentially dangerous situations.

- **Heads-up display**

Discreet flashing LED signal inside facepiece.

- **Mighty-Light® backpack**

One of the lightest, easiest to use, most comfortable backpacks in the industry. Offers an ergonomical back frame that is designed to the contours of the wearer's back, distributing the weight of the SCBA to the hips for comfort and stability.

- **No tools required**

No bolts or screws on harness for quick, easy assembly and disassembly.

- **Regulator holder**

Conveniently holds regulator in activated stand-by position. Keeps contaminants and water out of disconnected regulator.

The following are the most popular Commando SCBA configurations. These pre-configured SCBAs allow for easier ordering with a single part number rather than having to configure a Commando SCBA. Part numbers in parentheses are the components included in the master part number. These SCBAs are not stocked and carry a standard lead and delivery time.

974200 – Configuration 1

- Commando SCBA with Panther™ HUD, no audible alarm, 2216 psig (969177)
- Commando Twenty/20+™, headnet, medium nose cup, black, medium skirt (262026)
- 30-minute 2216 psig (fully wrapped carbon) with locking collar, black (Commando) (917422BLK)
- Cylinder cover, black, Commando SCBA (X969117)

974300 – Configuration 2

- Commando SCBA with Panther™ HUD, no audible alarm, 4500 psig (969127)
- Commando Twenty/20+™, headnet, medium nose cup, black, medium skirt (262026)
- 30-minute 4500 psig (fully wrapped carbon) without locking collar, black (Commando) (917133BLK)
- Cylinder cover, black, Commando SCBA (X969117)

974500 – Configuration 3

- Commando SCBA with Panther™ HUD, no audible alarm, 2216 psig (969177)
- Commando Twenty/20+™, headnet, medium nose cup, black, medium skirt (262026)
- 30-minute 2216 psig (fully wrapped carbon) with locking collar, black (Commando) (917422BLK)
- Buddy breather kit, over-the-shoulder (dual fitting) with SAR check valve (SAR check valve requires either a Foster, Hansen or Schrader plug) (X965119)
- SAR attachment kit for over-the-shoulder buddy breather with SAR check valve (requires 965119) (965122)
- Cylinder cover, black, Commando SCBA (X969117)

974600 – Configuration 4

- Commando SCBA with Panther™ HUD, no audible alarm, 4500 psig (969127)
- Commando Twenty/20+™, headnet, medium nose cup, black, medium skirt (262026)
- 30-minute 4500 psig (fully wrapped carbon) without locking collar, black (Commando) (917133BLK)
- Buddy breather kit, over-the-shoulder (dual fitting), with SAR check valve (SAR check valve requires either a Foster, Hansen or Schrader plug) (X965119)
- SAR attachment kit for over-the-shoulder buddy breather with SAR check valve (requires 965119) (965122)
- Cylinder cover, black, Commando SCBA (X969117)

Note: Please contact your Honeywell Law Enforcement distributor if you require a custom configured Commando SCBA.

Respiratory Protection

Survivair Opti-Fit Tactical (NIOSH)

The Survivair Opti-Fit Tactical riot-control gas mask is designed specifically for first responders in tactical and riot-control situations. Three-position canister mounting for various applications.

Key Features:

- **Superior field of vision**
Delivers unobstructed view in critical situations where vision is essential.
- **Facepiece constructed of soft silicone**
Provides excellent comfort, fit, and durability.
- **Three choices of headgear**
Five-strap silicone head harness, or nylon mesh headnet.
- **Three sizes (small, medium and large)**
Ensures excellent fit and protection for most facial sizes and shapes.
- **Three-position canister mounting**
Adaptable for various applications. Side mounting enables sighting of weapons from either side of the facepiece. Conventional front-mounted position is also available.
- **Anti-scratch coated polycarbonate lens is virtually free of distortion**
Provides excellent optics and visual acuity, making it applicable for tactical use where a full range of vision is important. Meets ANSI Z87.1-1989 (R-1998)2 standard for impact and penetration resistance.

- **DIN-threaded 40 mm connectors**
Makes attaching and removing canisters at the front or on either side of the facepiece quick and easy.
- **Standard nose cup**
Reduces lens fogging.
- **Low breathing resistance**
- **NIOSH approved with the model 1688 canister**
Provides protection against a-chloracetophenone (CN), o-chlorobenzylidene malononitrile (CS) and includes a P100 filter for use against particulates such as pepper spray. TC-14G-0264.

Mask facepiece with 5-point strap:

- 753000** Small
- 763000** Medium
- 773000** Large

Mask facepiece with mesh headnet:

- 753100** Small
- 763100** Medium
- 773100** Large

Tactical canisters:

- 168800** CN/CS/P100, 40 mm

Survivair Opti-Fit CBRN (NIOSH)

The Survivair Opti-Fit CBRN full facepiece was developed specifically for first responders in tactical, CBRN, and riot control situations. The Survivair Opti-Fit CBRN provides respiratory protection from certain chemical, biological, radiological, and nuclear agents.

Facepiece with 5-point strap:

- 759000** Small
- 769000** Medium
- 779000** Large

Facepiece with 5-point strap and drink tube:

- 759020** Small
- 769020** Medium
- 779020** Large

Tactical canisters:

- 168800** CN/CS/P100, 40 mm
- 169000** CBRN, 40 mm

Survivair Opti-Fit Accessories (NIOSH)

The Survivair Opti-Fit full-face APR respirator accessories include optional lens covers and more.

- 962260** Spectacle kit
- 702028** Clear lens covers, Twenty/20+™, peel-away (1 pkg of 25)
- 702019** Tinted lens covers, Twenty/20+™, peel-away (1 pkg of 25)
- 763076** Tactical and CBRN gas mask carrying pouch, black
- 702031** Neck strap kit
- 981808** Anti-fog wipes (box of 100)

ONE-Fit Molded Cup (NIOSH)

ONE-Fit molded cup disposable N95 respirators are universal, one-size respirators designed to fit most face sizes and shapes. Offered in valved and non-valved versions.

- 14110444** NBW95 – N95 disposable particulate respirator (1 box of 20)

SAF-T-FIT Plus (NIOSH)

SAF-T-FIT Plus molded cup disposable respirators offer the most variety in protection, size and comfort.

N95 disposable particulate respirator with boomerang nose seal:

- 14110390** N1115 Small (box of 20)
- 14110391** N1115 Medium (box of 20)
- 14110392** N1115 Large (box of 20)

P100 disposable particulate respirator with full-face seal and valve:

- 14110440** P1130 Medium/large (ea.)
- 14110441** P1130 X-large (ea.)

Respiratory Protection

SC420 CBRN Powered Air Purifying Respirator (NIOSH)

The SC420 CBRN PAPR is a durable, lightweight and efficient system that is easy to use in high-stress environments. Batteries are “hot swappable,” providing more efficient work. Canisters and power supplies are trouble-free to change out with gloved hands. The CBRN PAPR combines an industry-leading blower with the established Survivair Opti-Fit™ CBRN tight-seal facepiece, providing optimum air flow and reduced physical stress.

Key Features:

- **SC420 CBRN PAPR design**

Offers flexibility and convenience.

- **Three power supply options**

- D-cell holder pack holds four off-the-shelf D-cell alkaline batteries. Source batteries in any situation or environment.
- NiMH rechargeable battery.
- LiSO₂ one-time-use battery

- **One quantitative fit test**

For the Survivair Opti-Fit CBRN facepiece and the Survivair Twenty/20+™ CBRN SCBA facepiece (headgear must be the same).

- **Many accessory options available**

- **NIOSH approved**

Meets CBRN CAP 1 standards.

SC420 CBRN PAPR Performance

Maximum flow rate	115-140 Lpm
Battery run time	D-cell: 10-12 hours; LiSO ₂ : 4 hours NiMH: 8-10 hours
Ambient temperature	-32° to 49° C (-26° to 120° F)
EMI	MIL-STD-461C, Part 4, RE02
Environmental	Water and dust protection
Decontamination	Performance not affected adversely
Blower life	MTTF > 1000 hr

Stock SC420 CBRN PAPR System Configurations

Includes SC420 CBRN blower, airflow indicator tool, decon belt, breathing tube, battery option, 2 CBRN canisters, 2 shower caps, black carrying case, approved environmental battery storage box. Facepiece ordered separately.

560004 D-cell battery holder pack (batteries not included)

560008 Nickel metal hydride (NiMH) rechargeable battery (includes charger and extended green cap)

560002 Lithium sulfur dioxide (LiSO₂) battery

Order one of these Survivair Opti-Fit CBRN facepieces to complete the system

Facepiece with Kevlar® headnet:

759500 Small **769500** Medium **779500** Large

Facepiece with Kevlar® headnet, drinking tube:

759520 Small **769520** Medium **779520** Large

Facepiece with 5-point strap:

759000 Small **769000** Medium **779000** Large

Facepiece with 5-point strap, drinking tube:

759020 Small **769020** Medium **779020** Large

Power Supply and Power Supply Accessories

769535 D-cell battery pack holder (batteries not included)

769531 Nickel metal hydride rechargeable battery

769545 Nickel metal hydride charger

769533 Nickel metal hydride extended cap

769532 Lithium sulfur dioxide battery

769584 Approved environmental battery storage box

CBRN Canister and Shower Cap

169000 CBRN canister

769513 CBRN canister, shower cap

Spectacle Kit

962260 Rx spectacle kit (metal frame)

964044 NexSpex spectacle kit (plastic frame)

Body Protection

Capture Shields

Hand-held capture shields with ergonomic features are designed exclusively for cell extraction applications.

Key Features:

- **Strong double handles**
Allow for a firm grip under various conditions.
- **Foam padding**
Provides additional holding friction.
- **Superior optical quality and workmanship**
- **Unique design**
Allows two people to grip with both hands on each handle when extra holding power is needed, and the handles are dielectric to prevent electrical pass-through.
- **Designed and tested**
Exclusively for cell extraction.

CS-4 – .150" thick, 24" wide, 48" tall

CS-5 – .250" thick, 20" wide, 36" tall

CS-8 – .150" thick, 20" wide, 36" tall

Body Shields

Shields for police, sheriff, national guard, university police, riot squad and jail. Hand-held body shields with ergonomic features. Rectangle shape. The ID label that is supplied must be specified at the time of the order. Example: "POLICE," "SHERIFF," "CORRECTIONS," "POLICIA," etc.

Key Features:

- **Ergonomic handle**
Allows 2-handed use for extreme circumstances.
- **Breakaway handle and strap**
Dielectric to prevent electrical pass-through and can be reversed for left or right hand use.
- **Wide nylon arm strap**
Adjusts easily while in use.
- **Superior optical quality and workmanship**

BS-2 – .150" thick, 20" wide, 36" tall

BS-3 – .150" thick, 24" wide, 48" tall

BS-9 – .250" thick, 24" wide, 48" tall
V-50 "Frag" rated

BS-7 – .150" thick, 24" round with a formed radius that minimizes twisting leverage against the officer

Body Protection

Full Light Body Armor

Body armor for police, sheriff, national guard, university police, riot squad, jail, military.

Key Features:

- **Shock-absorbing, flame-retardant components**
Designed to provide maximum protection to the chest, back, shoulders, arms, knees, and shins from aggressive strikes during tactical operations.
- **Flexibility**
Provides a high degree of flexibility and can be adjusted to any size with ease using the rubber and Velcro® fastening system.
- **One size fits all**
Can be worn on top of or under a uniform.
- **Unparalleled fit and function over any similar product**

LBA-55

Infectious Disease Control Shield

Shield for police, sheriff, university police, jail, institutional, medical.

Key Features:

- **Complete system**
Unit can be disposed after use at minimal expense.
- **One size fits all**
- **Complete face shield assembly**
Elastic attachment and foam forehead cushion.
- **Re-sealable bag**
Keeps the unused product clean and ready for use.
- **Ease of use**
Individual units may be rolled into a tube and stowed in a cargo pocket for easy access when needed.

IDC/F 5 shields in a resealable bag

1010-ET Knee Shield

Shields for corrections-inmate confrontations and control.

Key Features:

- **Articulated, rigid-shell knee pad**
Heavy elastic with Velcro® adjustment.
- **Rugged design**
For use in the most severe conditions such as cell extraction or direct contact during riot control.
- **Full knee protection**
Shell protects knee from above and below, beyond standard-style knee pads.
- **Penetration-resistant shell**
Resists penetration by sharp or pointed objects.
- **Designed to be worn loosely**
Worn loosely for comfort, and then quickly tightened before conflict.

1010-ET

1010-EB Knee Shield

Shields for corrections-inmate confrontations and control.

Key Features:

- **Articulated, rigid-shell knee pad**
Heavy elastic that has a Velcro® adjustment.
- **Full knee protection**
Shell protects knee from above and below, beyond standard-style knee pads.
- **Penetration-resistant shell**
Resists penetration by sharp or pointed objects.

1010-EB

Tactical Safety Eyewear

Uvex Genesis® Eyewear

Designed for comfort.
Engineered to protect.

Key Features:

- **Soft elastomer browguard**
Diffuses and deflects impact.
- **Lens replacement system**
Easy and economical.
- **Dual 9-base wrap-around polycarbonate lens**
Provides uncompromised peripheral vision and superior protection.
- **Soft, flexible nose fingers**
Adjust and conform to almost any nasal profile to reduce slippage and improve fit.
- **Rx carrier insert**
Available for prescription eyeglass wearers; shields expensive prescription lenses from damage.
- **Adjustable temples**
3-position ratchet lens inclination adjusts for a custom fit.
- **Dura-streme® lens coating**
Minimizes fogging and provides superior scratch resistance.

Meets military V₀ ballistic test for impact
Meets ANSI Z87+ and CSA Z94.3 standards
Lifetime frame guarantee
Made in U.S.A.

- | | |
|------------------------|---|
| S99-S3200D-MIL | Genesis® eyewear, black frame, clear Dura-streme® lens |
| S99-S3212D-MIL | Genesis® eyewear, black frame, gray Dura-streme® lens |
| S99-S520-MIL | Genesis® black crush-resistant case |

| S99-S3291-MIL5A | Genesis® Dura-streme® combo kit. Includes Genesis eyewear assembly with clear Dura-streme® lens, gray Dura-streme® sunglass replacement lens, Op Drops anti-fog/cleaning solution, retention strap, storage pouch and cleaning cloth, black crush-resistant carrying case |

Uvex XC® Eyewear

The XC® is the all-in-one solution in protective eyewear.

Key Features:

- **Soft, flexible nose fingers**
Conform to fit a variety of nasal profiles.
- **Lens replacement**
Quick and easy.
- **Cushioned temples and brow**
Provide all-day comfort.
- **Adjustable temples**
3-position ratchet lens inclination adjusts for a custom fit.
- **Innovative design**
Extends protection and offers more than 180 degrees of peripheral coverage.
- **Ergonomically balanced**
Multi-Material Technology® (MMT) frame provides exceptional all-day comfort.
- **Rx lens insert**
Offers an alternative for workers requiring vision correction.
- **Extended 9-base wrap-around lens**
Provides extra cheek and side coverage (up to 20% more than Genesis®).
- **Dura-streme® lens coating**
Minimizes fogging and provides superior scratch resistance.
- **Rx carrier insert**
Available for prescription eyeglass wearers; shields expensive prescription lenses from damage and fit snugly inside the XC.

Meets military V₀ ballistic test for impact
Meets ANSI Z87+ and CSA Z94.3 standard
Lifetime frame guarantee
Made in U.S.A.

RELIABILITY AND QUALITY PROVEN IN THE FIELD...
TIME AND TIME AGAIN

Face Protection

Riot Shields

Honeywell riot shields for police, sheriff, national guard, university police, riot squad, jail, military.

Key Features:

- **Universal face shield system**
Adapts to most helmets.
- **Designed to fit**
ACH, MICH and PASGT style military helmets.
- **Shield locks into the stowed or deployed positions**
Releases with one hand.
- **Pivot and lock assembly**
Easily transfers to the right or left of the shield for individual preference.
- **Unparalleled fit and function over similar products**

Certified to NIJ 0104.02 for police use

DK7-X.250AF

- Designed to clear the forehead.
- Mounting bracket accepts night-vision goggles.

DK6-X.250AF

- Integral rubber seal provides a liquid barrier at the helmet-shield interface.

DK5-X.250AF

- Provides face protection in riot conditions.
- Integral rubber seal provides a liquid barrier at the helmet-shield interface.
- .250" thick special heavy-gauge shield.
- Specified with a national stock number for federal and military use.

Goggles

Goggles for tactical deployment and other emergency operations. Designed to meet ANSI Z87+ for use where certain physical hazards are likely to be encountered, such as during forced entry, rescue operations, emergency medical operations and victim extraction.

Key Features:

- **REPEL® design meets the needs of a tactical deployment.**
- **Aspherical dual lens**
Hard coated and optically correct outer lens.
- **Anti-fog inner lens**
Designed to meet the needs of this specific environment.
- **360-degree ventilation**
- **Clear or gray lens available**

RTG-2 – Repel Molded Tactical Goggle

Key Features:

- **A-TAC design meets the needs of a tactical deployment.**
- **Dual lens**
Hard coated, optically correct outer lens.
- **Anti-fog inner lens**
Designed to meet the needs of this specific environment.
- **Fits over most prescription, safety and sun glasses.**
- **Baffled top & bottom vents**
Provide chemical splash protection.
- **Rear strap buckle**
Quick strap elastic adjustment and quick release.
- **Clear or gray lens available**

510-T – A-TAC Goggle

Key Features:

- **ACG design fits the needs of military and tactical deployment.**
- **360-degree ventilation**
- **Lens coating**
Provides long life in sand blast conditions.
- **Helmet and night vision compatible**
- **Transparent ballistic lens**
Designed with new self-healing hard-coated anti-fog coatings. Optically correct lens.
- **100% UV protection lens**
- **Clear or gray lens available**

ACG-L – Advanced Combat Goggle (ACG)

WITH OUR DEDICATION,
COMBAT K-9 IS APPRECIATED
IN ELITE CIRCLES FOR
BUILDING THE STRONGEST,
TOUGHEST AND SMARTEST
CANINE EQUIPMENT.

Combat K-9 is a cutting-edge provider of products, technology and solutions for the tactical community. Combat K-9 was formed by an inventor to provide unparalleled canine solutions for US Special Operations. Our continued mission is to deliver the world's best equipment so American teams may deploy the world's best canines. Coming from a background in advanced parachute systems, our company brings that same innovation, strength and craftsmanship to our K-9 customers.

Combat K-9 Products

Pro Collar

The strongest, toughest and longest-lasting collar on the market.

Key Features:

- **Quality components**
Made with the best hardware and materials.
- **High tensile strength**
900 lb
- **Stainless steel click buckle**
Quickly releases, similar to a seatbelt buckle.
- **Adjustable – 19" to 31"**
- **Low-profile and silent**

Lifetime warranty
Made in the U.S.A.

PRC-BLK	Black
PRC-TAN	Tan
PRC-COY	Coyote
PRC-GRN	Green
PRC-BLU	Blue

FastCapture™

Not intended to be releasable under tension or load, this connection is specifically intended for quickly connecting a K-9.

Key Features:

- **Specialized hardware**
Allows you to set the jaws in open capture mode; they will automatically snap shut upon contact.
- **Parachute spliced construction**
Braided Dacron™ cable makes this tether very high-strength while keeping volume to a minimum.
- **WristGrip™ handle**
Machined ring can be combined with a carabiner or R.A.P.I.D.™ to attach to a belt, depending on requirements.

Lifetime warranty

Combat K-9 Products

R.A.P.I.D.™

Rapid Attach Point Deployment™

An alternative to carabiners.

Key Features:

- **1.5" loop**
Captures belts, web gear or other hardware while 1" steel ring allows for deployment.
- **High-strength loop-type connection**
Allows for quick release under tension.
- **Use with all high-strength tethers**
Including the MicroLead™ and FastCapture™ connection.
- **Snag-proof trigger**
Stows without Velcro®, buttons or elastic.
- **Fast and complete breakaways**
With a sharp pull of the activator.
- **1,500 lb heavy-duty breaking strength**

Lifetime warranty
Made in the U.S.A.

RA11

SPEED-MUZZLE™

Traditional muzzles are slow to remove and thus pose an irreversible hazard to capabilities. The SPEED-MUZZLE™ provides an innovative solution to this problem and is necessary if providing treatment to a wounded dog.

Key Features:

- **Muzzle releases at the pull of a tab**
Allows canine to be readied for defense or aggression in fractions of a second.
- **Open-mouth design**
Provides protection without handicapping the dog's ability to breathe, drink, detect scent, or vomit.
- **Easy to place and remove**

Lifetime warranty
Made in the U.S.A.
Patent pending

SM-GSD German Shepherd
SM-MAL Malinois

Gripcord™

A semi-traditional leash that is faster to remove than standard hardware but still requires a free hand to release the pull tab.

Key Features:

- **Panic-shackle hardware**
Utilizes the same hardware that is commonly used in the skydiving and sailing industries for its quick-release feature.
- **Coated stainless-steel mechanism**
Black oxide coating provides a no-glare finish for tactical operations.
- **2500 lb harness-grade nylon with wear indicator stitch**
Allows for easy inspection.

Lifetime warranty
Made in the U.S.A.

GC-2-BLK	2 ft.	GC-10-BLK	10 ft.
GC-4-BLK	4 ft.	GC-15-BLK	15 ft.
GC-6-BLK	6 ft.	GC-30-BLK	30 ft.
GC-8-BLK	8 ft.		

MicroLead™

Key Features:

- **High-strength connection**
Braided Dacron™ cable spliced to exotic hardware using parachute construction splicing techniques.
- **Micro panic shackle**
Releases via pull tab and can be attached to the ring to form a loop.
- **Low bulk**
Rated to 880 lb
- **Wrist Grip™ handle**

Lifetime warranty
Made in U.S.A.

ML-3-BLK	3 ft.	ML-6-BLK	6 ft.
ML-4-BLK	4 ft.	ML-10-BLK	10 ft.

Combat Patrol Leash

Originally designed to put a quick-release handle on tough patrol dogs overseas. Its design, materials, hardware and construction make this the ultimate leash for critical patrol work.

Key Features:

- **Quality stainless snap shackle hardware**
Releases by firmly pulling the activator.
- **Instant breakaway action**
Same as Gripcord™ and MicroLead™.
- **Heavy nylon harness webbing**
Delivers years of hard use.
- **Combines with existing leads**
Via 1" ring while still providing a grip close to the animal.
- **Parachute style construction**
- **Double-stitched harness webbing**
- **Stainless attachment ring**
- **Stainless shackle with oversized activator**
- **Built-in swivel prevents twisting**

Lifetime warranty
Made in the U.S.A.

CPL-BLK Black – 12" length
CPL-TAN Tan – 12" length

Combat Patrol Harness

The ultimate combat patrol harness. Designed for combat units, proven to be incredibly versatile. Lightweight and comfortable design.

Key Features:

- **Mesh panels**
Allow ventilation to keep dogs cool.
- **Wide grab handle**
Lies flat for reduced snag profile.
- **Welded steel D-ring for attachment**
- **Four buckles**
Allow for harness to be adjusted in all directions.
- **Unique chest panel**
Comfortably prevents shifting.
- **Fully adjustable**
- **Strong metal-to-metal click buckles**

Lifetime warranty
Made in the U.S.A.
