

Designed By Contractors.....Built by

Not only will the Novair 2000 be the best portable air filtration/air scrubber/negative air machine you own, it may very well be the last! Novatek, designer of the original roto-molded machine, has designed the ultimate in performance and durability. After 3 years of customer feedback, Novatek engineered the most powerful and durable machine in its class. Don't take our word for it! Please call to arrange a free onsite performance evaluation and judge for yourself.
" The Proof is in the Performance "

You demanded and Novatek gave :

More Power: The F2100 is the most powerful air mover in its class. The heavy duty 2 HP blower delivers constant air flow with little effort. Move the same volume of air with fewer machines!

Virtually Indestructible: The heavy duty Roto-molded Polyethylene shell is dent proof, leak proof, and virtually indestructible. Let 's see how well other machines handle being thrown off the loading dock while running or being hit with a sledge hammer!

High Capacity Standardized Filters: All F2100s are equipped with high capacity filters. The Novair accommodates any industry standard 24 "x24 "x11 " HEPA Filter. The F2100 features a tool FREE filter replacement.

Ultimate Mobility: Built in, integrated handles are molded directly into the machine for easy lifting. No hardware to tear off or break. The " Guillotine " style door simply slides on and off with no hardware! Change standard intake door to a 12 " flanged door in seconds! Great for duct cleaning....

Stacking Feature: Built in "caster Nests " allow you to easily and securely stack units. Integral stacking channel allows for a 1/2 " ratcheting strap to positively secure the machines together!

MODEL	PART NO.	WEIGHT	DIMEMSIONS	MOTOR	AIR CAPACITY	POWER REQUIREMENTS
Novair 2000 HEPA Filter	F2100	135LBS	37"X26"X31"	1.75HP- 2 Speeds, Thermally Protected	HIGH-2000CFM LOW-1200CFM	115 Volt, 15Amp, 60Hz
Novair 2000 HEPA, audible & Visual alarms	F2102	135LBS	37"X26"X31"	1.75HP- 2 Speeds, Thermally Protected	HIGH-2000CFM LOW-1200CFM	115 Volt, 15Amp, 60Hz
Novair 2000 General Purpose Filter	F2105	135LBS	37"X26"X31"	1.75HP- 2 Speeds, Thermally Protected	HIGH-2000CFM LOW-1200CFM	115 Volt, 15Amp, 60Hz
Novair 2000 HEPA & Hour Meter	F2110	135LBS	37"X26"X31"	1.75HP- 2 Speeds, Thermally Protected	HIGH-2000CFM LOW-1200CFM	115 Volt, 15Amp, 60Hz
