

Dust Containment Systems

HEAVY-DUTY VACUUM

BDC-1330DBP/LPP

The Blastrac BDC-1330DBP/LPP heavyduty dust collection system is remarkably quiet and designed for multi-purpose use with most medium sized grinding and polishing machines.

Built mainly of steel, the BDC-1330DBP/LPP is tough and damage resistant, constructed for professional use. The DBP is equipped with a wheeled dust-bin that dismounts smoothly for quick debris disposal and with a capacity of 143 lbs. makes those efforts infrequent. The LPP is equipped with the Longo Pack® bagging system and is perfect for a clean disposal. The three-speed motor produces a maximum air flow of 265 cfm, with a maximum static pressure of 85. The easily replaced filters ensure long life through the fully automatic, air-pulse cleaning system.

The BDC-1330DBP/LPP is an advanced unit that helps eliminate most all of the airborne dust and particulate generated with grinding and polishing equipment. This powerful industrial vacuum is also perfect for contractors who must utilize a dust collection system to satisfy environmental concerns. The Blastrac BDC-1330DBP/LPP offers high performance with relatively low energy consumption.

SPECIFICATIONS:

Static Pressure: Maximum 84.7 in H₂O

Air Flow: 286 cfm maximum

Dust Bin Capacity: 26.4 gal (100 liter)

Voltage: 230V, 1ø, 60 Hz Amperage: 19.5A

Power Cord: 30 ft. (9m)

Dust Hose Connection: 2 in (51mm)

and 3 in. (76mm)

Dimensions:

L 39 in. x W 24 in. x H 70 in. (990mm

x 609mm x 1778mm) Weight: Net 280 lbs (127kg)

FEATURES AND BENEFITS:

- 2 styles to choose from new Longo Pack® bagging system or traditional wheeled dust bin
- Compact vertical unit is easy to maneuver and transport
- Maintenance friendly design with easily replaceable filters
- Spring-assist shaker mechanism for manual filter cleaning
- Equipped with 3 dust extraction motors
- Tough steel construction for durable long-life use
- Triple independent motor design for up to 4 hp of suction
- Offers virtually dust-free operation

The Trusted Choice of Professional for Over 30 Years

Always wear appropriate eye, ear and respiratory protection for the application, as specified by OSHA regulations and your employer. Never operate or maintain equipment before reading and understanding the instructions for operation and maintenance. Obey all safety signs and instructions while operating or maintaining equipment.
