

V-Gard® Winter Liners

Good Looks. Great Protection.

Why V-Gard Winter Liners?

10 Great Reasons

1. V-Gard Winter Liners were designed with input from our customers and offer the features they most requested, like true flame resistance and arc rating.
2. The new V-Gard Winter Liner product line offers unique selections.
3. V-Gard Select Winter Liners can be laundered up to 50 times and retain their flame retardancy. Customers can be safe ... and clean!
4. V-Gard Supreme Winter Liner fabric offers flame resistance and arc rating to an ATPV of 8 cal/cm².
5. When MSA says a liner is flame resistant, we mean it! All layers of the V-Gard Supreme Winter Liners offer flame resistance that cannot be washed out. This may not be the case for all competitors' products—though promoted as flame resistant, some layers of their liners are only flame retardant.
6. All V-Gard Supreme and Select Winter Liners are water repellent.
7. Some V-Gard Winter Liners are designed for use with earmuffs. The flap is pulled back so the muff can sit directly on the skin, leaving the quality of the hearing protector uncompromised.
8. The V-Gard Value line offers a great-looking, economical option for customers who just need to stay warm.
9. MSA's distinct liner designs mirror the V-Gard Helmet—the world's best-selling hard hat. The MSA V-Gard brand is easily recognized and requested!
10. One part number per item! Global customers can now order just one PN that meets global standards—reducing inventory costs, and increasing efficiency.

All V-Gard Winter Liners have a hang tag with a barcode and pertinent product information for easy point-of-sale selection!

V-GARD SUPREME LINERS		
	<p>10118421 Flame-Resistant V-Gard Supreme Liner</p>	<ul style="list-style-type: none"> • Multiple layers of flame-resistant fabric • Fabric tested to withstand arc exposure to an ATPV of 8 cal/cm² • Water repellent • Adjustable chinstrap • Inside neck pocket holds warming packet¹

	<p>10118427 Flame-Resistant V-Gard Supreme 2-Piece Liner</p>	<ul style="list-style-type: none"> • Multi-layered flame-resistant top cap • Fabric tested to withstand arc exposure to an ATPV of 8 cal/cm² • Water repellent • Inside neck pocket holds warming packet¹ • Extended, zipper on/off, high-bulk, flame-resistant knit bottom • No metal parts

"Flame Resistant" Versus "Flame Retardant"

Though frequently used interchangeably, these two terms have distinctly different meanings.

Flame resistant (FR) garments are made of special fibers that allow them to self-extinguish when exposed to flame or thermal ignition. Flame resistance cannot be removed by washing. Unlike many other winter liners in the market, ALL layers of fabric in V-Gard Supreme Liners are flame resistant, affording FR protection throughout the life of the product². Additionally, since flame resistance cannot be washed out of V-Gard Supreme Winter liners, ONLY these liners have been arc tested.

Flame retardant garments have been chemically treated to resist burning when a flame is present. While chemical treatment can wear off after the first wash, all layers of ALL V-Gard Select products offer flame retardancy up to 50 washings.

¹ Warming packets available at most sporting goods retailers; not sold with liners.

² Garment care instructions must be followed.

Because every life has a **purpose...**

V-GARD SELECT LINERS

	<p>10129659 Flame-Retardant V-Gard Select 2-piece Liner</p>	<ul style="list-style-type: none"> • Double-layered flame retardant top cap, up to 50 washes • Extended, zipper on/off double-layer knit bottom; flame retardant, up to 50 washes • No metal parts • Water repellent
