

ZipWall[®] dust barrier products

ZIPWALL[®]

See **NEW ZipDoor** on page 8

The **ZipWall® Barrier System** was invented to provide a quick and easy way to set up a dust barrier. Contractors across all industries have given our products an enthusiastic thumbs-up. Our barrier system sets up in minutes with no tape, no ladders, and no damage. It adds a professional touch to the job site. You'll find ZipWall products on the job in commercial and residential remodeling settings, as well as in flood restoration, mold remediation, and many other applications.

Since their introduction, ZipWall products have received awards and recognition for innovation and quality. Today our products are available worldwide. More product information including detailed instructions can be found on our website at www.zipwall.com

ZIPWALL®

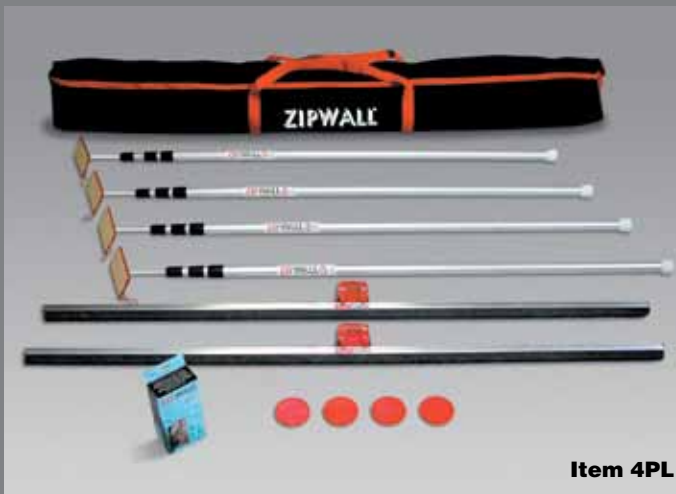

**With ZipWall
spring-loaded poles
you can create a dust
barrier in minutes with
no tape, no ladders, and
no damage.**

- Two sets of parts

Item KT20

Kit-20 2 Pack for ceilings up to 20' high

Includes:

- Two 20' aluminum poles
- Two sets of parts

tight seal tools

Foam Rail Video

Tight Seal tools turn our products into perfect solutions.

Foam Rail™ crossbars attach to the poles for a tight ceiling seal. It presses the sheeting firmly against the ceiling. No tape needed. Side Clamps™ for a tight side-wall seal. Attaches to the Foam Rail and presses the plastic sheeting firmly against the side wall.

Item FR2

Foam Rail™ crossbars seal the walls, ceiling and floor

Use Foam Rail™ crossbars with any SLP pole or our Side Clamps.

Includes:

- Two 5' Foam Rail™ crossbars
- Two T-Clip adapters

Item SC2

Side Clamp™ 2 Pack

If you already have Foam Rail™ crossbars, you can mount them on our Side Clamps to provide a dust-tight seal along the walls.

Includes:

- Two Side Clamp wall mounts.

Item SDPK

Side Pack kit seals walls up to 9' high

Side Clamps push out from the pole, forcing the Foam Rail™ crossbars against the plastic sheeting at the wall.

Includes:

- Six 3' Foam Rail crossbars
- Six Side Clamp wall mounts
- Custom Carry Bag

Side Clamp
and Side Pack

adhesive zippers

Standard Zipper Video

These adhesive zippers provide quick and easy access in and out of dust barriers.

They come in two styles:

Standard for indoor use, and Heavy Duty for high traffic areas or where temperatures go below 55 degrees.

Included in all zippers are our new Flap Hooks. They make it easy to hold the door flap up while you go in and out.

Item AZ2

Standard Zipper 2 Pack

Ideal for quick jobs or if the worksite will stay above 55 degrees Fahrenheit. Requires a utility knife to cut the opening.

Includes:

- Two 7' adhesive zippers
- Two Flap Hooks to hold the door flap

Item HDAZ2

Heavy Duty Zippers 2 Pack

Ideal if your barrier will be up for a while or if the worksite will go below 55 degrees Fahrenheit. The ZipWall Zipper Knife cuts the opening by removing a 3/4" strip of plastic. This keeps the teeth from catching on the plastic.

Includes:

- Two 7' Heavy Duty adhesive zippers
- Two Flap Hooks to hold the door flap
- Patented Zipper Knife Sheeting Cutter

Heavy Duty Zipper Video

NEW!

**ZipWall
Heavy Duty
12 Zipper Bulk Pack**

The smart way to make sure you have our best zippers on hand at the lowest price

- 7' length
- All cloth construction for durability
- 12 Flap Hooks and 1 Zipper knife

Item HDAZ12

doorway kits and tape

ZipDoor and Tape Video

NEW!

Item ZDS

ZipDoor™ Kit, Standard

The ZipDoor standard kit is a great way to create a dust barrier when all you need to seal is the doorway.

- Pays for itself in time savings
- For standard doors up to 3' x 7'
- Made from 4 mil plastic sheeting
- Two heavy duty zippers pre-installed
- Includes new ZipWall double-sided tape
- Can be repositioned easily for up to 1 hour
- Helps you meet EPA RRP requirements

Item ZDC

ZipDoor™ Kit, Commercial

The ZipDoor commercial kit is a great way to create a dust barrier for larger doorways in hospitals and commercial space.

- Pays for itself in time savings
- For commercial doors up to 4' x 8'
- Made from 4 mil fire retardant plastic sheeting
- Two heavy duty zippers pre-installed
- Includes new ZipWall double-sided tape
- Can be repositioned easily for up to 1 hour
- Helps you meet EPA RRP requirements

The new ZipDoor™ kit is a great way to create a dust barrier when all you need to seal is the doorway. One person can install it in under a minute. You'll save hours on jobs with lots of doors like commercial office space, hotels, hospitals, and more. It's also great for residential jobs like kitchen and bath remodeling, or where renovation will disturb lead paint. The ZipDoor helps you meet the EPA's RRP requirement for a covered doorway.

When you need to cover openings, built-ins, fixtures or anything else, ZipWall double-sided tape is an ideal solution. It's like traditional painter's tape on one side, while the other side has an adhesive designed to hold plastic sheeting. The tape can easily be torn by hand. No knife is needed.

Item T160

ZipWall Tape - 1 inch

Cover any opening, built-in or fixture using plastic sheeting and ZipWall double-sided tape. It's like traditional painter's tape on one side, while the other side has an adhesive specially designed to hold plastic sheeting.

- 1" x 60' roll
- 14 day rating
- Lets you reposition plastic for up to 1 hour

Item T260

ZipWall Tape - 2 inch

Cover any opening, built-in or fixture using plastic sheeting and ZipWall double-sided tape.

- 2" x 60' roll
- 14 day rating
- Lets you reposition plastic for up to 1 hour

accessories

For complete replacement parts information visit: www.zipwall.com

Item CB1

Carry Bag

This durable, carry bag can hold twelve 12' or 20' Spring Loaded Poles

Item NSP2

Non-Skid Plate 2 Pack

Replacement plate has non-skid surface that will not wear out or come off.

Item GD2

GripDisk™ 2 Pack

Holds bottom of poles securely in place on floors with slick surfaces such as linoleum, marble, or wood.

Item TPH1

Head and Plate Pack

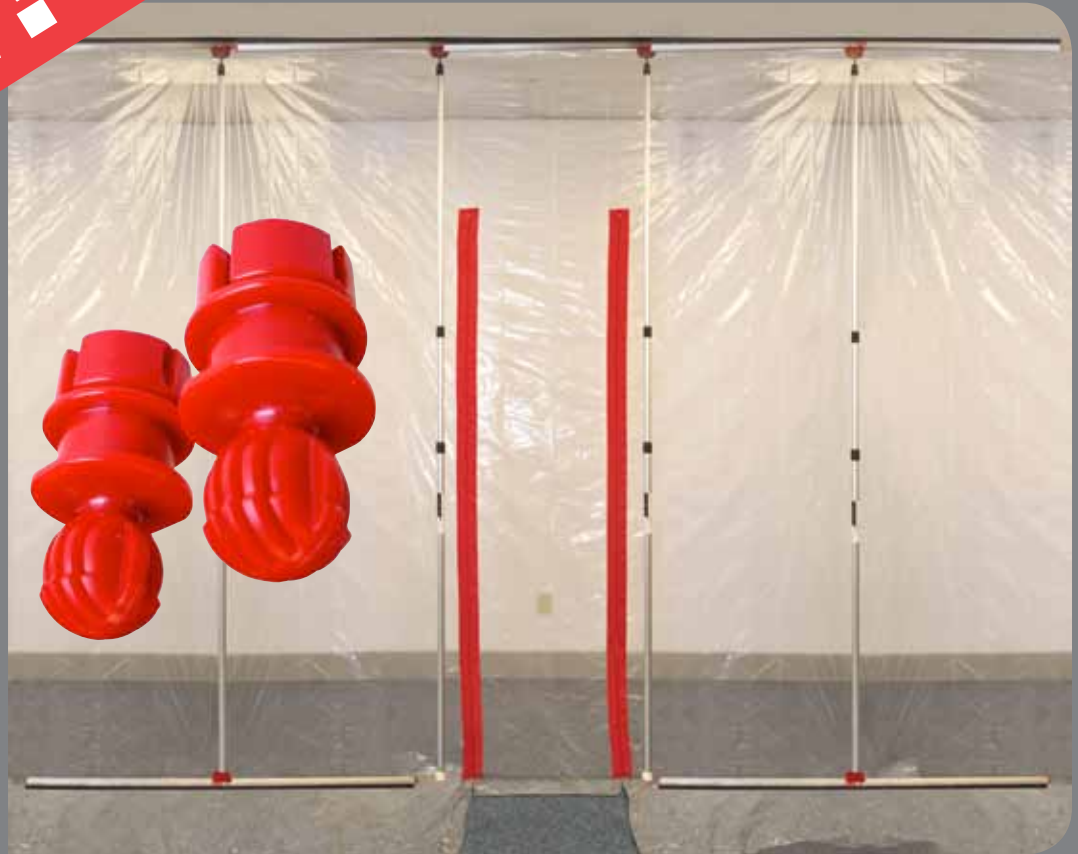

Replacement head, plate, and tether for the top of the SLP pole or Jack.

accessories

NEW!

Use Foam Rails at the floor

Now you can seal the ceiling and the floor without tape. The **Floor Adaptor** replaces the rubber foot so you can use Foam Rail crossbars at the floor.

Item FA10

Floor Adaptor for ZipPole™ steel poles only

- Compatible with the ZipPole product only
- Replaces rubber foot

Item FA12

Floor Adaptor for 12' aluminum SLP poles only

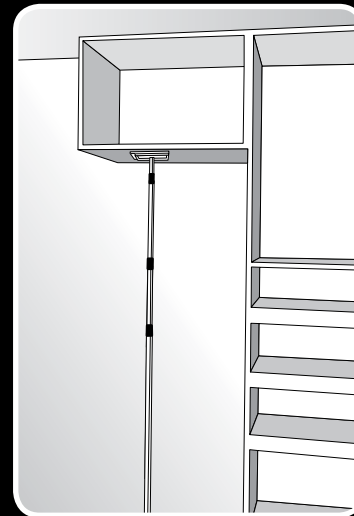

- Compatible with the 12' aluminum SLP pole product only
- Replaces rubber foot

Other uses for ZipWall poles

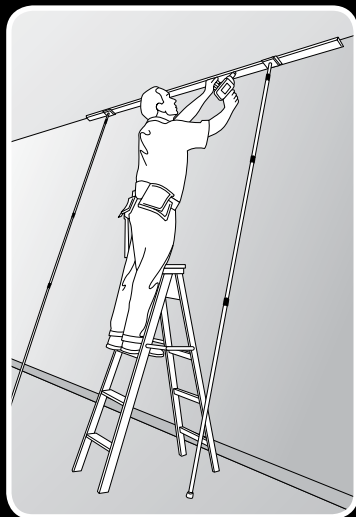

ZipWall poles are tough. They can hold weights of 70 lbs. or more depending upon the twist to lock it. A very strong twist can support as much as 110 lbs.

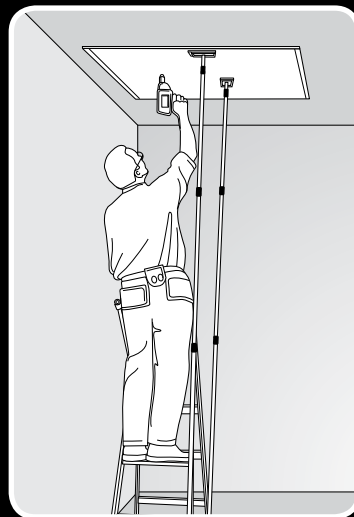

Flood light support

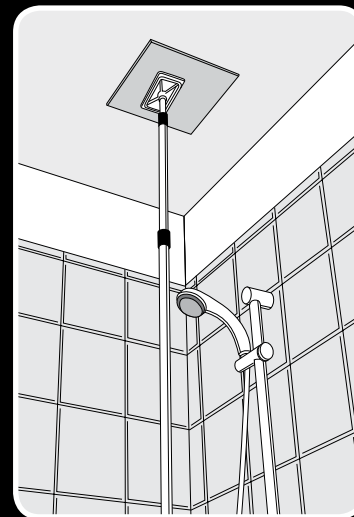

Holding cabinets

Crown moulding

Sheet-rock support

Adhere ceiling tiles

Lead dust must be contained by law

If you are working on a pre-1978 home or child-occupied facility where lead paint is present, you must use dust containment as described in the EPA's new RRP rule. The reason is clear: Disturbing more than 6 square feet of lead paint can release enough lead dust to cause irreversible health problems for children and for pregnant women.

ZipWall products can help you meet the new lead dust containment requirements. EPA certified contractors throughout the country now use the ZipWall dust barrier system.
