- Synthetic Upholstery ★

★ = Recommended ✓ = Acceptable

RTU pH
9.8

Item #: 1699-5348

Available in 6.5 lb jars & 4 x 1 jar cases

Grungegone Powdered Extraction Rinse contains proven surfactants and builders that effectively emulsify and suspend even the most difficult soils.

- **HIGH CLEANING POWER** – Grungegone will compete with all other extraction agents due to its excellent soil suspension and removal capabilities. The result will be reduced cleaning times and very satisfied customers.
- **HIGH CONCENTRATE, LOW COST** - When compared to liquids, Grungegone will save money. Because of Grungegone’s concentration, more carpets will be cleaned at a lower cost. Each jar of product will make around 500 gallons of ready to use cleaning solution.
- **EASY MIXING** - Cold water is all it takes to dissolve Grungegone.
- **NON RESOILING** - The advanced surfactant formulation in Grungegone will remove more soil in the extraction process and any remaining residue will not attract soil
- **SAFE** – Grungegone has special additives that help prevent corrosion and buildup in the extractor or truckmount, and its buffered pH is safe for use on 5th generation carpet.

DIRECTIONS

To be used as the primary cleaning agent or as a rinse agent, in the extraction process for carpets.

For truck mount concentrate: Add 1.5 cups Grungegone to five gallons of cold or warm water. Mix thoroughly until dissolved. For systems metered on low settings or for excessively soiled carpets 3 cups may be used.

For portable equipment: Use 1 ounce Grungegone per 5 gallons hot water. Mix thoroughly until dissolved. For extra heavy soil use 2 ounces per five gallons of hot water.
