Three Great Facepiece Options

The North full facepieces were each designed to offer ultimate performance without sacrificing comfort. The full selection – North 7600, North RU6500, and North 5400 – offers a wide variety of features and benefits to suit various environments, budget requirements, and wearer needs. These masks are trusted by workers worldwide in a wide variety of industries or applications.

One Cartridge Series to Fit Them All!

All North Air Purifying Respirators will use the N-Series line of cartridges, filters, and cartridge/filter combinations. This includes the North low profile cartridges and cartridge/filter combinations, flexible and pad filters, P100 particulate filters, and all accessories used with these cartridges and filters.

The N-Series low profile cartridges have a sleek design with a lower profile, curved edges, and smaller inhalation holes for easier fit checks.

Suggested Areas of Application for North Full Facepieces:

Abatement, Remediation, Painting/Coating, Welding/Grinding, Oil and Gas, Heavy Metal Fabrication, Mining

Five strap head harness
Includes center strap to help position and hold the mask for a more secure fit

Polycarbonate lens with 200° field of vision
Maximizes peripheral vision plus downward view; meets ANSI Z 87 for high impact

Medical grade silicone nose cup
Softer and more comfortable for all day wear

Kapton® speech diaphragm
Clarifies conversations, enhancing safety and other communication

Dual flange sealing area
Provides extra layer of protection to prevent leaks

Threaded cartridge connector
Secures equipment to avoid accidental disconnections

Can be adapted to PAPR or CF-SAR
Eliminates need to fit test workers on several respirators

Available with welding adapter
Offers flexibility to meet the various needs of the workplace

5 point strap option
Includes center strap to help position and hold the mask for a more secure fit; offers quick, easy adjustments

Polycarbonate lens with 200° field of vision
Maximizes peripheral vision plus downward view; meets ANSI Z 87 for high impact

Silicone seal
Provides excellent facepiece seal, creating a barrier against contaminants

Silicone nose cup
Softer and more comfortable for all day wear

Industrial mesh headnet option
Provides another option for user comfort preference; also can be used under hard hat

Wide viewing area
Provides distortion free visibility and optical clarity

Threaded cartridge connector
Secures cartridges and filters to avoid accidental disconnections

Can be adapted to PAPR or CF-SAR*
Eliminates need to fit test workers on several respirators

CF-SAR and PAPR front mount adaptability*

Wide viewing area
Provides distortion free visibility and optical clarity

Four strap head harness
Offers secure fit

Wide sealing area
Fits more facial types

Polycarbonate lens with 200° field of vision
Maximizes peripheral vision plus downward view; meets ANSI Z 87 for high impact

Thermoplastic elastomer nose cup
Textured material reduces slipping for a secure fit

Threaded cartridge connector
Secures equipment to avoid accidental disconnections

Can be adapted to PAPR or CF-SAR
Eliminates need to fit test workers on several respirators

Available with welding adapter
Offers flexibility to meet the various needs of the workplace

NORTH FULL FACEPIECES

NORTH 7600 SERIES

Superior fit, comfort, and reliability

The North 7600 is Honeywell's premium full facepiece line. The integrated nose cup and dual flange face seal are made from 100% medical grade silicone, offering a soft and flexible fit – ideal for long hours of use. The polycarbonate lens offers a 200° field of vision and downward view for optimal sight in all directions. The lens is also designed to withstand high impact, thereby eliminating the need for additional eye protection. The North 7600 facepiece provides superior comfort, without sacrificing safety performance. Available in small or medium/large.

NORTH RU6500 SERIES

Comfort for your workers – and your budget

The North RU6500 Series is a silicone full facepiece that provides all day comfort at a great price. The silicone facepiece seal is soft and flexible to provide workers with a comfortable fit for hours of use. With its lightweight design, this mask reduces head and neck stress for the worker. The polycarbonate lens is designed to withstand high impact, thereby eliminating the need for additional eye protection. This mask includes an innovative head strap system for quick and easy donning and doffing. With features usually reserved for more expensive respirators, the North RU6500 facepiece offers the ultimate in performance and affordability. Also available in small, medium, or large.

NORTH 5400 SERIES

Quality safety is within your reach

The North 5400 is the ideal workhorse respirator for subcontractors and other occasional users. The facepiece is made from a soft, thermoplastic elastomer that fits comfortably and is latex free. With a wide sealing area, the mask fits a variety of facial types. The polycarbonate lens offers a 200° field of vision and downward view for optimal sight in all directions. The lens is also designed to withstand high impact, thereby eliminating the need for additional eye protection. The North 5400 facepiece provides the integral features needed for compliance. Available in small or medium/large.

ORDERING INFORMATION

NORTH 7600 SERIES

SKU	Size	Description
760008AS	Small	Premium silicone full facepiece w/ 5-point headstrap
760008A	Medium/Large	Premium silicone full facepiece w/ 5-point headstrap
760008ASW	Small	Premium silicone full facepiece w/ 5-point headstrap and welding attachment
760008AW	Medium/Large	Premium silicone full facepiece w/ 5-point headstrap and welding attachment

NORTH RU6500 SERIES

SKU	Size	Description
RU65001S	Small	Silicone full facepiece w/ 5-point headstrap
RU65001M	Medium	Silicone full facepiece w/ 5-point headstrap
RU65001L	Large	Silicone full facepiece w/ 5-point headstrap
