## ABOUT US

North Safety Products is the most diverse manufacturer of Personal Protective Equipment (PPE) in the world. North manufactures 13 complete product lines in ISO 9000 certified plants and employs over 3,000 people worldwide.

North works closely with distributors and end users to provide innovative product design, quality manufacturing, solid marketing, and valuable training and support to our customers. Our goal is to enhance worker safety, improve productivity, and create confidence on the job and in the marketplace.

This catalog represents the most popular items manufactured and marketed by North Safety Products. All 13 product lines are represented. There is an expanded hand protection offering, a broad range of respiratory protection, and a complete line of first aid products. Fastest turning items are highlighted in yellow.

Most importantly, all products are supported by training programs held at North's global headquarters in RI, as well as other locations throughout North America. Our training professionals also perform on-site training to ensure the safety of your workers. Cover your workers from head-to-toe with quality PPE from North. It's a safe decision for you and your workers.

## SUPEREIGHT® HEAD PROTECTION

Fibre-Metal's sophisticated SUPEREIGHT Impact Energy Control System raises protective performance to a new level. On impact, the smooth shell flexes, absorbing and dissipating some impact energy. The reduced impact energy is passed to the suspension system at eight scientifically determined points around the cap, thus dispersing the energy over a greater area of the head, reducing the risk of failure at any one point.

During everyday wear, SUPEREIGHT's low center of gravity, multiple adjustments, and choice of full sweatband, ratchet headband, or patented SWINGSTRAP™ provides the right fit and feel for maximum comfort. Most Fibre-Metal protective hats and caps are SEI certified. All come fully assembled.

### E-2RW SOA SPIRIT OF AMERICA HARD HAT

SUPEREIGHT protection with striking full graphic patriotic design. Advanced graphics will not peel, chip or fade. Also available in full brim protective hat style.

## REUSABLE HALF MASKS

North half masks feature a contoured sealing area for maximum fit and comfort. The low "dead air" space increases worker comfort and productivity. The enhanced cradle suspension is easy to adjust and sits securely on the crown of the head. All replacement parts are the same for both the 5500 and 7700 Series to help you keep your inventory under control. Both Series are available in small, medium and large, and are latex free. Refer to page 10 for a list of cartridges and filters\*.

## 7700 SERIES

Made from 100% silicone, the 7700 Series is the most comfortable, best fitting mask available. Yet it is tough enough to stand up to the harshest environments.

PART #	DESCRIPTION	PACKAGING
770030S, M, L	Silicone Half Mask	1 per package

## 5500 SERIES

The 5500 Series is ideal for subcontractors and plant visitors. The soft elastomeric facepiece material is comfortable for hours of wear, yet the mask is priced to satisfy the thriftiest purchasing manager.

PART #	DESCRIPTION	PACKAGING

## NORTHFLEX RED™ – FOAMED PVC PALM COATED GLOVE

NorthFlex Red™ and Red-X™ are light and comfortable general purpose gloves that offer high abrasion resistance and exceptional grip. They feature advanced seamless nylon shells and foamed PVC coatings, that are soft and flexible enough to provide a degree of shock and vibration absorption, but are tough enough to offer abrasion resistance comparable to polyurethane. In addition, foamed PVC has an open surface texture that clears liquids from surfaces and enables a very firm wet-grip. The 15 gage nylon shell is stretchy and form fitting, with a snug knit-wrist and provides minimal resistance to hand movement for exceptional wearer comfort. The Red-X™ features an extended knuckle coating, for additional wearer protection. These gloves are well suited to applications where workers handle both wet and dry objects and need moderate protection from mechanical hazards. Available in sizes 6XS, 7S, 8M, 9L, 10XL and 11XXL.

PART #	DESCRIPTION
NF11	Red nylon shell, palm coated with black foamed PVC. 144 pairs per case.
NF11X	Red nylon shell, knuckle coated with black foamed PVC. 144 pairs per case.

## LIGHT TASK PLUS 3™ POLYURETHANE PALM COATED DYNEEMA® GLOVE

Medium-weight cut level 3\*\* glove that offers a great compromise between mechanical protection and wearer comfort. Seamless Dyneema® shell is up to 15 times stronger than steel (weight for weight) and outperforms aramid fibers in cut and abrasion resistance, providing EN388 cut level 3 performance. The Dyneema® shell is stretchy and form fitting, allowing superior dexterity. The PU coating provides exceptional abrasion resistance, but is light enough to ensure workers retain outstanding dexterity and tactility. Gray color hides dirt, making it a good choice for many tough and dirty applications. Ideally suited to material handling and assembly work involving sharp objects like sheet metal, metal shavings, glass and metal parts. Available in sizes 7S, 8M, 9L, 10XL and 11XXL.

PART #	DESCRIPTION

NFKL13	Nitrile palm coated Kevlar®/Lycra® shell, knitwrist, 12 dozen per case

KEVLAR® AND LYCRA® ARE REGISTERED TRADEMARKS OF THE DUPONT COMPANY.

## NITRI TASK C5™ FOAMED NITRILE PALM COATED ARAMID/STEEL GLOVES

Provides heavy duty mechanical protection without the bulk and restriction of movement that you might expect from a cut level 5\* glove. 10 gage seamless shell contains aramid and steel fibers for high resistance to cuts and other mechanical hazards. ANSI cut level 4 and EN388 cut level 5. The foamed nitrile coating provides impressive grip on wet or oily surfaces and extends to the knuckles to provide additional wearer protection. Ideally suited to applications where cut and abrasion hazards are prevalent, such as handling sheet metal, blades, glass, metal shavings or any sharp objects. Available in sizes 7S, 8M, 9L and 10XL.

PART #	DESCRIPTION
NFF13C	Aramid/Steel shell, coated with dark blue foamed nitrile. 72 pairs per case.

\*TESTED IN ACCORDANCE WITH EN388
