## Heavy Duty Dust Collector

### BDC-99

#### Heavy Duty Dust Collector

The BDC-99, a nine cartridge auto pulse dust collector, is preferred by professional contractors requiring continuous operation and high performance. It is designed for high productivity, easy dust handling and ease of maintenance. The powerful motor and blower provide increased airflow and lift. The innovative silencer reduces noise and contains a slide gate to reduce the vacuum when used with smaller equipment. The side access panel allows unfettered access to filters. Couple this with the new filter retaining system, and filter maintenance/changing is fast and easy.

**AIR FLOW:**  
1561 CFM

**POWER:**  
1 POWERFUL MOTOR | 460V,  
(16A), 3Ø

**CLEANING:**  
CARTRIDGE FILTERS |  
AUTOMATIC PULSE  
SYSTEM

**STATIC PRESSURE:**  
26 IN H<sub>2</sub>O

ENDLESS LONGPAC  
BAGGING SYSTEM |  
DUST BIN

**WEIGHT:**  
1146 LB

**DUST HOSE INLET:**  
5IN | 6IN

**FILTER:**  
9 CARTRIDGE FILTERS

**DIMENSIONS:**  
L 68 IN X W 34 IN X H 65 IN

### Waste Disposal Options

#### Key Points

- Standard silencer on top for low sound levels
- Automatic pulse jet cleaning system
- Heavy duty design with solid body work and construction for continuous use
- HEPA filter option available
