

BDC-1216

Compact Dust Collector

BDC-1216

Compact Dust Collector

The Blastrac BDC-1216 has been designed for the tough conditions of concrete dust collection and built for multi-purpose use, from hand grinders and crack chasers, to small and medium grinding and shot-blasting machines. Its superior filter system reduces airborne dust and particulate to provide a cleaner work environment.

AIR FLOW:
200 CFM

MOTOR:
2 INDEPENDENT MOTORS |
120V, (13A), 10

CLEANING:
M-CLASS STAR FILTER |
MANUAL SHAKER

STATIC PRESSURE:
96 IN H₂O

DUSTBIN

WEIGHT:
NET 88 LB

DUST HOSE INLET:
2IN

FILTER:
M-CLASS STAR FILTER

DIMENSIONS:
L 25 IN X W 22.5 IN X H 40 IN

Key Points

- Compact unit is easy to maneuver
- Large filtration surface area of 16.15 sq.ft.
- Quick-release dustbin

Key Points

- Maintenance friendly design
- Durable resin-reinforced plastic construction
- Dual-motor design
