

# SYCLONE®

## H6QPB Back-Pack Vacuum

Genuine HEPA vacuum, approved for EPA RRP regulations in removal of lead-based paint particles. Meets OSHA requirements for hazardous airborne materials-reduction to permissible levels in public areas. Genuine HEPA filter (individually tested and certified at a minimum efficiency of 99.97% at .3 microns), a cloth pre-filter, and a modular/drop-in disposable paper bag, all providing “fail-safe” prevention of accidental, air-contaminating dust bypass.

- ▶ **Two-stage 1.7HP Ametek motor with thermal protection provides powerful suction, guards against overheating**
- ▶ **Four-stage filtration with individually tested and certified HEPA filter, prevents premature clogging and ensures clean air exhaust**
- ▶ **Padded harness with handle allows free arm-movement, enhancing cleaning performance while minimizing operator body-stress**
- ▶ **Lightweight, polyethylene body resists impacts and withstands years of professional use**

**Tool Kit (included).**

**On-Off Switch:**  
Hip-mounted for easy access.

Item	Description
<b>1639-4886</b>	Syclone H6QBP Backpack Vacuum with Tool Kit (ea)
<b>Tool Kit Products (included)</b>	
<b>1682-4486</b>	Two-Piece Aluminum Wand (5 foot)
<b>1680-4462</b>	Round Dusting Brush
<b>1683-4665</b>	Crevice Tool 17"
<b>1684-4666</b>	Upholstery Tool
<b>1683-4487</b>	Multi-Surface Floor Tool
<b>1681-4485</b>	Hose 1.5 in. x 6 ft.

TECHNICAL SPECIFICATIONS			
Vacuum Motor	1200 watt/10A air-thru design, with internal thermal protection	On/Off Switch	Hip mounted, cord switch box assembly
Suction/Airflow	100" waterlift, 104 cfm	Hose	1.5" diameter, 6' length
Noise Level	60 decibels	Height	22.1"
Filtration	4-stage including HEPA filter, drop-in cloth bag, six-quart two-ply disposable paper filter bag	Machine Weight	10.5 lbs.
Bag Capacity	6 quart	Shipping Weight	19 lbs.
Construction	Blow-molded polyethylene body, padded nylon harness	Warranty	1 year

## H6QPB Back-Pack Vacuum Tested & Certified HEPA Filters

The H6QPB is equipped with a "Fail-Safe" HEPA filter system that protects against discharge or bypass of dangerous dust particles from the vacuum cleaner.

This modular, drop-in and removable HEPA filter, cloth pre-filter and disposable paper bag all seal together tightly under suction.

There is zero risk of the operator incorrectly installing the HEPA filter and accidentally causing bypass, thus contaminating the air with dangerous particles.

Also, in the event of a failure of the cloth filter bag or disposable paper bag (by rupture or other), the HEPA filter is the final filter and certified to trap any particles before they can be released into the air.

The HEPA filter is individually tested and certified to be 99.97% efficient at .3 microns according to IEST-RP-CC001 test requirement.

6 Qt. Disposable Paper Bag  
1602-4972

Cloth Bag  
1684-4488
