

Air King

Industrial Products®

AC081

AIRKING
\$54.⁹⁵

- Direct air where needed with an infinite number of blower head positions
- Speed dry upholstery and carpet after cleaning or when spotting
- Flash dry hard surfaces after cleaning and mopping, or when applying floor finishes
- Use to cool you while working in the heat
- Plug other electrical tools directly into the Air King.
- Flood restoration - Low amps, high air velocity, small size = quick structural drying
- Rugged, easy-to-carry handle
- Each unit draws only .75 amps
- One 15 amp circuit will run 20 blowers
- Plug in one blower to the wall - then string up to 12 more blowers - one plugged into another
- Maximum air velocity - Air King is still pushing air 50 feet from the unit
- Two 120 volt grounded outlets
- Ten foot cord with grounded plug
- Fully assembled for immediate use

- Maximum air velocity! Air King is still pushing air 50 feet from the unit!
- Direct air where needed with an infinite number of blower head positions
- Speed dry upholstery and carpet after cleaning or when spotting
- Flash dry hard surfaces after cleaning and mopping, or when applying floor finishes
- Use to cool you while working in the heat
- Plug other electrical tools directly into the Air King
- Flood restoration! Low amps+high air velocity+small size = quick structural drying!
- Rugged, easy to carry handle
