

NEW Hydro-Filter™

New design improves airflow by 11% compared to previous model!

SLEEK, AERODYNAMIC DESIGN IMPROVES AIRFLOW AND PROTECTS YOUR INVESTMENT

The **Hydro-Filter™** is an essential part of your business; the advanced polymer is designed to withstand impacts and high temperatures and allows you to impress your customers by showing them how much dirt is being removed - something not possible with opaque filters. The redesigned stainless steel filter protects your vacuum motor from harmful debris and maximizes your machine's CFM performance. Additionally, the screw on lid eliminates broken latches so you can focus on your work, not on repairs.

* Test performed using a White Magic Pro 1200 Truckmount.

#AC10

Hydro-Filter™

In-Line Waste Filter

AMAZINGLY durable polymer uses the same material used in **bullet-proof** windows!

All-mesh stainless steel filter **reduces turbulence** since air passes straight through, not around the filter.

Hydro-Filter with Flash Cuffs are a perfect match. **Quickly connect** and **prevent twisted hoses** with the innovative Flash Cuff. Part #AC10F

HF HYDRO-FORCE™
Innovating since 1974
