

Focal Point Axial Air Mover

The Focal Point Axial Air Mover focuses velocities of 3,000 cfm to over 23.5 feet. Focus™ Technology directs air flow towards problematic corners (wall & floor), carpet and wall, or subfloors. It also features:

- 3000 cfm, long-life 2-speed motor, featuring Permanwick® Lubrication
- 2.5 amps
- Stackable feature
- Balanced carry handle
- Cord wrap
- 20' power cord
- Fits the Phoenix Focus Axial stand

- More drying power for less amps
- Professional Restorers are requesting this Air Mover because it gets the same rental per day as units costing 30% more.
- Restorers are looking for simple, durable, high powered equipment for the right price. Focal Point fits the bill!
