## Sonin 4-In-1 Multi Function Detector

- ▶ Helps you find out if potentially damaging excess moisture is present. Locate and trace water leaks to prevent wet rot.
- ▶ Measures moisture levels present in wood, drywall, carpets and more from 8% to 22%.
- ▶ Fast, accurate and easy to read LED display with audible indicator

- ▶ Detects wood and metal studs, beams and joists behind walls up to 3/4" deep.
- ▶ Non contact voltage detection locates live AC wire behind walls and ceilings up to 2" deep.
- ▶ Locate hidden metal, pipes, and frames.

Check for possible hazards before you drill, saw, paint, or stain.

The Sonin 4-in-1 Multi Function Detector is a microprocessor based instrument. The functions include moisture measurement for hard or soft wood, plaster, carpet, and more to determine the extent of moisture. Detects and locates studs, live AC voltage, and metal behind walls.

The SONIN 4-in-1 Multi Function Detector puts time, effort, and money saving professional quality within the reach of homeowners, do-it-yourselfers, and contractors at a value price.

Your detector is recommended for INDOOR use only. To ensure proper use of this product and to obtain optimum performance, be sure to read its manual carefully before use.

- **Detect and locate hidden metal, pipes, and frames (both ferrous and nonferrous) behind walls up to 2" deep.**
- **Microprocessor based instrument with automatic calibration to ensure accuracy**
- **Low battery warning**
- **Requires one 9V battery (not included)**
- **One year warranty**
