Features:

- Includes two 5' Foam Rail crossbars and t-clips per box
- Aluminum and foam construction
- Works with all ZipWall poles
- Works with Side Clamps
- 1 year warranty

Product Specifications

**ZipWall® Foam Rail Crossbars
Item #FR2**

When you need to create a dust-tight seal along the ceiling or the walls, the Foam Rail crossbars are the ideal solution. They create a continuous seal without tape so there is no damage to finished surfaces.

Each package contains two five-foot Foam Rails To create a seal along the ceiling, simply mount the Foam Rail on any of our spring loaded poles.

Remove the head from the pole and then push on the Foam Rail. Repeat the process until the area is sealed.

To create a seal along the walls, mount the Foam Rail on our Side Clamp. Next, place this between the last pole and the plastic sheeting at the wall. Overlap multiple Foam Rails to create a seal from floor to ceiling.
