

Green Balance®

BRIDGEPOINT
SYSTEMS

Carpet Prespray

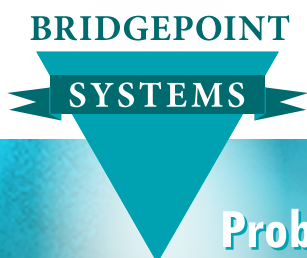

Designed to work in conjunction with Green Balance Extraction Rinse or Green Balance Neutralizing Rinse. It has been approved by the Carpet and Rug Institute Seal of Approval for Carpet Presprays as a stand alone product.

- A mildly alkaline traffic lane cleaner that uses advanced surfactant technology instead of solvents to rapidly dissolve tough oil-based soils.
- Safe for wool and all synthetic carpets.
- Earned the Carpet & Rug Institute's Seal of Approval.
- Earned approval by Green Seal
- All Green Balance products use readily biodegradable, renewable surfactants and contain no solvents (e.g., alcohols, glycol ethers, terpenes). They contain no known carcinogens, are non-toxic and are ideal for cleaning in homes who desire no added fragrances.

DIRECTIONS:

1. Always pretest for colorfastness in an inconspicuous area.
2. For best results with extreme soiling conditions, mix one part chemical with 21 parts hot water (6 ounces of solution to one gallon of water.) For normal soiling, mix one part chemical with 32 parts water (4 ounces of solution to one gallon of water). For application with Hydro-Force Injection Sprayer, Dilute 1 part GB Prespray to 1 part water in the 5 quart container. Set the sprayer at a 1 to 16 dilution. For use with regular 1-8 Hydro-Force, dilute 1 part GB Prespray to 3 parts water, then apply at a 1 to 8 dilution (final dilution 1:32).
3. Apply with electric, battery powered, pump-up pressure, or injection sprayer with an even, overlapping light misting across the area to be cleaned.
4. For best results, allow mixed solution to dwell on carpet for 5-10 minutes before extraction with hot water.

Available in Gallons and 4 x 1 gallon cases

Part # CC11GL
