

POINT BLUE

BRIDGEPOINT SYSTEMS Powdered Extraction Formula

Point Blue is a highly versatile powdered extraction detergent. It is very effective on 5th generation carpets, filthy commercial carpeting or following water damage. That's because special buffering agents maintain the full strength of Point Blue during the entire cleaning process. Other cleaners decrease in strength as they encounter carpet soils—but not Point Blue!

Point Blue is safe for use on all fibers, has a high cloud point and works perfectly with today's super high heat equipment. Stop wearing yourself out scrubbing!

- Powder alkaline extraction detergent
- Economical extraction rinse, less than 10¢ per ready-to-use gallon
- Ideal for today's high heat truckmounts
- Buffered to maintain cleaning strength
- Safe and effective to meet or exceed manufacturer's recommended cleaning standards for synthetic warranted stain resistant carpet including nylon, olefin, polyester, and triexta

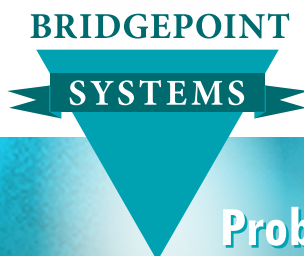

DIRECTIONS:

To be used as the primary cleaning agent or as a rinse agent, in the extraction process for carpets.

For truck mount concentrate: Add 2 cups Point Blue to 5 gallons of cold or warm water. Mix thoroughly until dissolved. For systems metered on low settings, or for excessively soiled carpets, 3 to 4 cups may be used.

For portable equipment: Use ¼ to ½ oz. Point Blue per gallon of hot water. Mix thoroughly until dissolved.

Available in 7 lb. Jars, 4 x 17 lb Jar cases, and 40# Pails

Dilution Ratios:
 Portables: ¼ oz - ½ oz / 1 Gal.
 Truckmounts: 2-3 Cups / 5 Gal.

RTU pH: 9.8
 Part # CC24A
 Part # CC24B
