Carpet Extraction Detergent

When getting it clean is the most important thing, CleanXtraction Carpet Extraction Detergent is your best choice for hot water extraction cleaning. CleanXtraction is designed for those "real world" dirty and filthy carpets you commonly encounter. While designed to be used with a compatible carpet prespray, CleanXtraction works extremely effectively against extreme soiling conditions when used as a stand alone in tank cleaning solution for a portable or walk behind extraction machine. CleanXtraction™ Carpet Extraction Detergent combines the boosted cleaning power of high pH extraction powders with the instant solubility of a liquid. CleanXtraction™ Carpet Extraction Detergent is a clear liquid that is instantly soluble in water. Not only is CleanXtraction easy to use, it is also crammed full of active ingredients to provide you with the best clean possible in the least amount of time. CleanXtraction is highly buffered to maintain cleaning efficiency even under the highest dilution and most challenging soiled conditions. This concentrated detergent provides you with the flexibility to use the product at various dilution ratios without losing cleaning effectiveness.

- When getting it clean is the most important thing™
- Designed as the ideal extraction detergent for those "real world" dirty and filthy carpets you commonly encounter in restaurants, rental properties, apartments and more
- Works extremely well against extreme soiling when used "stand alone" as an in-tank cleaning solution for a portable or "walk-behind" extractor. Works even better when used with a compatible Bridgepoint carpet prespray
- Highly buffered to maintain cleaning efficiency even under the highest dilution and most challenging soiling conditions
- Highly concentrated - 1:326 when used in truckmount or metered portable extractor

DIRECTIONS:

General Usage Considerations

1. Always pretest for colorfastness in an inconspicuous area.
2. CleanXtraction Carpet Extraction Detergent works best when used as a compatible extraction detergent in conjunction with a Bridgepoint Traffic Lane Cleaner.
3. If used as a carpet cleaning detergent without a compatible prespray or traffic lane cleaner in a portable or walk behind extractor, mix one to two ounces of solution with one gallon of water.
4. If used with a compatible prespray or traffic lane cleaner:

Portable Extractor: Mix 2 ounces of chemical with five gallons of water (1 part chemical to 320 parts water)

Truck Mount: Mix one quart solution (32 ounces) with five gallons of water into solution container. Set solution flow meter between 2 and 3.

RTU pH: 10.0 - 10.7

Dilution Ratios:
2 oz / 5 Gallon

Part # CC25GL

Available in Gallons and 4 x 1 gallon cases
