

VIPER SR

Multi-Purpose Cleaner, Refresher & Rejuvenator

Part # CH46GL

X Marble X Limestone X Granite X Terrazzo

X Ceramic Tile X Porcelain X Saltillo

X = Primary Use ✓ = Secondary Use

VIPER SR is the ideal periodic maintenance product for cleaning everyday messes and spills while simultaneously refreshing and rejuvenating the fine finish, spill repellency, and appearance of your stone surface investment. Formulated specifically for cleaning stone or tile, Viper Stone Rejuvenator does not contain harmful mineral dissolving agents contained in most surface cleaners. It has a safe, gentle formula for your fine stone, while still tackling common everyday soil and grime that can build up from normal usage. The built-in sealer rejuvenates the shine and refreshes the finish of your stone investment. This product can be safely and effectively used on stone floors, granite countertops and virtually any fine stone surface, including marble, limestone, slate, terrazzo, travertine, and sandstone. It can also effectively be used on ceramic and porcelain tile surfaces.

- The simplest stone cleaning you'll ever do
- Ideal maintenance cleaner for stone that cleans and enhances and replenishes sealant and protection
- The perfect stone rejuvenator
- Contains no conditioning agents harmful to natural stone

DIRECTIONS:

UNIVERSAL PRECAUTIONS:

1. Always pretest for colorfastness and appearance change in an inconspicuous area of the surface you are going to clean prior to application.

STONE & TILE FLOORS:

1. For normal soiling, mix one part solution with four parts water (for best results, mix with soft water). For heavy soiling, mix one part solution with two parts water (for best results, mix with soft water).

2. Apply an even, light mist using overlapping strokes. Use electric, battery, or pump up sprayer.

3. For best results and finish rejuvenation, allow mixed solution to dwell on

surface for 1-2 minutes before wiping

4. Wipe with clean, dry, absorbent cloth or towel. There is no need to rinse.

5. Repeat if necessary on heavily soiled areas.

6. If repellency and finish are not restored using Viper Stone Rejuvenator, it may be time to re-apply a sealant. For best results, use Premium Stone, Tile, & Grout Sealer or Solvent Based Stone & Grout Sealer (After complete drying).

COUNTERTOPS, WALLS MANTLES VERTICAL SURFACES:

1. For normal soiling, mix one part solution with two parts water. For heavy soiling, use product straight.

2. Apply an even, light mist using overlapping strokes. Use electric, battery, or pump up sprayer.

3. For best results, allow mixed solution to dwell on surface for 1-2 minutes.

4. Wipe with clean, dry, absorbent cloth or towel. There is no need to rinse.

5. Repeat if necessary on heavily soiled areas.

6. If shine and finish are not restored using Viper Stone Rejuvenator, it may be time to re-apply a sealant. For best results, use Premium Stone, Tile, & Grout Sealer or Solvent Stone & Grout Sealer.

RTU ph - 8.0 - 8.5
