

# T-RUST

BRIDGEPOINT  
SYSTEMS

Environmentally Sound  
Rust Remover

**T-RUST** from Bridgepoint is A new generation of rust remover designed for carpets and fabrics. The T-Rust formula is designed to be environmentally sound and safer for the user when compared to other harsh acid rust removers. **DO NOT MIX WITH OTHER CLEANING PRODUCTS.**

- ✓ **CONTROLLED pH (4.5)** - No harsh acids are needed to remove the most stubborn rust stains. T-Rust is much safer to use than other products. It requires no neutralizing.
- ✓ **WORKS FAST** - No long waiting time for T-Rust to work. Simply apply and in a few seconds the rust will begin to disappear.
- ✓ **ENVIRONMENTALLY SAFE** - No more worry of carrying a hazardous chemical into your customer's home. T-Rust is non-polluting, and safe for the user when instructions are followed.

## DIRECTIONS

Test fabric for compatibility. Apply a small amount of P.I.G. to a towel and blot the stain. Repeat this process until the greatest majority of colored pigment is removed from the fabric. Apply P.I.G. directly to the stain and lightly agitate. Where appropriate, add a small amount of water or Avenge Stain Remover, agitate and extract with water. Repeat this process until stain is removed. If fabric is not water compatible, use a volatile solvent spotter to flush P.I.G. and the stain from the fabric.

**Note:** When using multi-purpose solvents such as P.I.G., always consider the possible negative effects on backing materials such as latex, foam cushion, and other stabilizing material.

Available in Gallons and 4 x 1 gallon cases  
Available in Pints and 12 x 1 pint cases

RTU pH: 4.5  
Part # CS12GL  
Part # CS12PT
