RTU pH 9.5

ALL PURPOSE SPOT REMOVER

Unlike other spot removers Perky Spotter is not a solvent. It has an emulsifying action which is effective on oil as well as water based spots. It is gentle and safe and used properly, will not damage fabrics or leave ring marks. Perky Spotter can effectively remove many stubborn stains that other chemicals cannot remove.

- Foods
- Hot & Cold Drinks
- Mud
- Tar
- Animal Accidents
- Copy Toner
- Blood
- Inks
- Grease
- Cosmetics And More!

Rugs and Carpeting

Vacuum carpeting. Apply Perky Spotter amply to saturate spot. Allow a couple of minutes for digestion action. Agitate with a HandiGroom, brush or cloth. A HandiGroom is most effective. Extract by blotting or squeege with the HandiGroom.

Upholstery

Moisten clean, soft cloth with Perky Spotter to saturate spot. Allow a short time period for digesting action. Reapply Perky Spotter to the cloth and work the spotted area with a gentle circular motion concentrating the operation to the soil spot in particular. Repeat as required. Blot with a clean, dry cloth. To avoid unsightly ring mark use feather or overlapping action when blotting.

VINYL

Apply Perky Spotter directly onto the soil area or saturate a clean cloth and apply to the spot. Rub gently. Wipe off with a clean dry cloth.

PREWASH

Apply Perky Spotter directly to the soiled area by spraying. Allow 5 minutes before laundering. Launder as normal.

CLOTHING & GARMENT FABRICS

Place a clean soft absorbent material under the stain or soiled area. Apply Perky Spotter directly by spraying onto the spot. Application may also be done by transferring the Perky Spotter from an applicator cloth to the soiled area. Allow a short time period for digesting action. Repeat application process. Press hard to transfer the soil residue to the absorbent material underneath. Stubborn residue may require a brushing action with a Whizgroom or a discarded tooth brush. When maximum results are reached use clean, dry cloth to blot excessive moisture. Use feathering motion to avoid ring mark.
