One Part Ready to Use Oxidizing Stain Oxidizer:

A product designed to alter the structure of stains by removing, oxidizing, or making them invisible. Ideal for use with mustard, furniture stains, wood stains, shoe polish, urine contamination, coffee, vomit, pigments, and other staining materials you would not eat or drink.

Triplephase provides you with three distinct levels of performance as a stain remover. First, activated oxygen makes the stain invisible. Secondly, when residual discoloration remains, this product will continue to work as it dries. Third, specially blended polymers protect the carpet from re-soiling and fight against the spill wicking back. This product is for use with synthetic carpet or fabrics only. Not recommended for natural fabrics. FOR PROFESSIONAL USE ONLY

- Makes the most troublesome stains disappear
- Works in three phases - activated oxygen makes stain disappear, residual discoloration is eliminated by additional ingredients, and polymers protect against resoiling and wicking

## DIRECTIONS

1. Always pretest for colorfastness in an inconspicuous area.
2. Clean discolored area thoroughly. Remove as much of the staining material as possible with conventional spotting techniques before apply Triplephase.
3. Apply with flip top spotting lid or with trigger sprayer straight across the affected area of the stain. Allow to dwell five to ten minutes. Agitate with spotting spatula or tamping brush, and blot with clean, colorfast white absorbent towel. Rinse and extract area thoroughly to remove as much of the stain and moisture as possible. If any residual stain remains, apply Triplephase again. Allow to dry. Do not judge final results until solution has dried. KEEP CHILDREN AND PETS AWAY FROM TREATED AREA UNTIL IT IS COMPLETELY DRY. For mustard stains, consider prolonged exposure (20 minutes to four hours) to an ultraviolet light.
4. Store in cool, dark area. High heat and sunlight exposure can dramatically impact shelf life and effectiveness of product. Store only what you need in the work vehicle and keep as far away from

truck mount as possible. Do not put in pressurized sprayer.

Notice: This product contains oxidizers and may pull the original color of the carpeting, especially when used in conjunction with heat and other accelerating actions.
