

Introducing the New Bridgepoint Jump Start Quick Reference Guides

The Bridgepoint Jump Start Quick Reference Guides are designed for quick and easy “how-to” training for all types of cleaning your company may encounter. They are perfect for training new technicians. As soon as they are hired, you can sit them down with a computer and let them navigate the training (with the simple click of the arrow forward key) at their own learning pace. It will quickly identify to them the most commonly encountered cleaning challenges, and the exact procedures and products used to safely and effectively deal with them. They are also useful for anyone needing a quick refresher in practice, product, and procedure.

The Jump Start Quick Reference Guides are interactive computer CD training based upon Microsoft PowerPoint. They include pictures, embedded video of the procedures being discussed, and navigational tools to get you quickly to what you need to know.

Each cleaning challenge is addressed in easy-to-understand step by step procedures, showing the exact product to be used, and how to use it. They are Bridgepoint product specific to help you standardize your company procedures to make sure all technicians are doing things exactly the same way.

Each Jump Start Quick Reference Guide CD comes with Powerpoint viewer you can install on your computer for Free if you do not have Microsoft Powerpoint, so they can be viewed on any PC computer. Since the files are large and contain lots of graphics, pictures and supporting video, they make take a while to load on older computers.

Pricing

The price for the Jump Start Quick Reference Guides is \$39/each.
