

North RU6500 | Reusable Full Facepiece

**Comfort for your workers,
and your budget**

With features usually reserved for more expensive respirators, the North RU6500 facepiece offers the ultimate in performance and affordability.

Product Features:

- ▶ **Polycarbonate lens, with 200° field of vision:** maximizes peripheral vision plus downward view; meets ANSI Z 87 for high impact
- ▶ **Silicone facepiece seal:** soft and flexible, providing workers with a comfortable fit
- ▶ **Lightweight design:** reduces head and neck stress for the worker
- ▶ **Innovative head strap system:** quick and easy donning and doffing
- ▶ **Threaded cartridge connector:** Secures cartridges and filters; can be adapted to PAPR or CF-SAR*

HEAD STRAP OPTIONS

5-point Harness

Includes center strap to help position and hold the mask for a more secure fit; offers quick, easy adjustments

Industrial Mesh Headnet

Provides another option for user comfort preference; also can be used under hard hat

Three Great Facepiece Options

The North full facepieces were each designed to offer ultimate performance without sacrificing comfort. The full selection offers a wide variety of features and benefits to suit various environments, budget requirements, and wearer needs. These masks are trusted by workers worldwide in a wide variety of industries or applications: Abatement, Remediation, Painting/Coating, Welding/Grinding, Oil and Gas, Heavy Metal Fabrication, and Mining.

One Cartridge Series to Fit Them All!

All North Air Purifying Respirators will use the N-Series line of cartridges, filters, and cartridge/filter combinations. This includes the North low profile cartridges and cartridge/filter combinations, flexible and pad filters, P100 particulate filters, and all accessories used with these cartridges and filters.

The N-Series low profile cartridges have a sleek design with a lower profile, curved edges, and smaller inhalation holes for easier fit checks.
